Recueil Des Cours, Collected Courses, 1932 Academie De Droit International De La Ha, Hague Academy of International Law, 1968-12-01 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law *American Literature from 1600 Through the 1850s* Britannica Educational Publishing, 2010-04-01 Fiercely nationalistic the first prominent American writers exhibited a profound pride in the territory that would come to be known as the United States Predating even the Declaration of Independence much early American writing entailed commentary on the newly developing American society This volume examines the literature of the country in its nascence and writers such as Poe Hawthorne and Emerson who helped cultivate a uniquely American voice **American Literature from the 1850s to 1945** Adam Augustyn Assistant Manager and Assistant Editor, Literature, 2010-08-15 Explores the works writers and movements that shaped the American literary canon from the end of the nineteenth century through the first half of the twentieth *Democracy and Its Enemies* Paul N. Goldstene, 2018-10-15 America it is often argued emerged from the Enlightenment It follows that the prevailing elements of politics in the United States are echoes of struggles among what is here referred to as the moderate Enlightenment the conservative Enlightenment and the radical Enlightenment These lead to conflicting political doctrines which variously address the fundamental questions of who should rule and why and how The outcome is a confusing m lange of a tri partite civil war among those who claim the Enlightenment as their own This is accompanied by a long history of resistance to the Enlightenment itself a phenomenon which leads to deeper concerns Sometimes referred to as the Counter Enlightenment this has been largely expressed by the Romantic contentions of an authoritarian nationalism Indeed its most dramatic manifestations have been realized in fascism and Nazism In this manner they constitute a step back into the historical mist comprising a major attack on both reason and empiricism as the foundation of a scientific approach Out of this combination of limitation and possibility emanate the essential power configurations of the epoch yielding policies that are often perceived to be democratic either as threat or achievement Accordingly the book explores the actual substance of the democratic argument On this basis it contends that a progressive position necessitates a search for the material foundation of a more egalitarian pluralism as the only rational surrogate for majorities within a nation of enormous size population and the complexities of concentration that are beyond the reach of democracy in any literal sense This work is rooted in one of the major traditions that emerged from the Western world of the late eighteenth century Thus it is informed by the doctrinal contentions of people like Thomas Paine Samuel

Adams and Thomas Jefferson As such it largely opposes a tradition that flows from the writings of Adam Smith John Adams and James Madison and even more so to that associated with Edmund Burke Alexander Hamilton and John Marshall Its focus is on how these ideas play out in a world wherein a generic fascism is also a major theme always looming
