Maintenance And Transmission Of Ethnic Identity:

The Maintenance and Transmission of Ethnic Identity Linda Soroff, 1995-08 Virtually all immigrants to Israel after 1949 were regarded as Jewish in their countries of origin. When they arrived in their new home, however, the enormous social and cultural differences among them and the varieties of their religious customs provided the stimulus for the recognition of new distinct ethnic groups. This book is the result of a field study conducted in Ethiopia and Israel to document specific expressions of religious customs and their methods of transmission. Four religiously observant groups were studied: Ashkenazim, Sephardim, veteran Ethiopians, and recently arrived Ethiopians. Soroff comprehensively describes how the groups express their identities while maintaining their physical boundaries. The book also defines the roles of women and men in the transmission of ethnic identity. Contents: Introduction, The Setting, History of Immigration to Israel, Ethnic History of Study Groups, Ashkenazim, The Standard Bearers, Sephardim, Mellow Orthodoxy, Veteran Ethiopians, Ancient Traditions in Transition, New Ethiopians, Guardians of the Ancient Traditions, Conclusion.

Handbook of Language & Ethnic Identity Joshua A. Fishman, Ofelia García, Oxford University Press, 2010. This volume presents a comprehensive introduction to the connection between language and ethnicity.

Routes of Passage: Rethinking the African Diaspora Ruth Simms Hamilton, 2007-07-26. Routes of Passage provides a conceptual, substantive, and empirical orientation to the study of African people worldwide. Routes of Passage addresses issues of geographical mobility and geosocial displacement, changing cultural, political, and economic relationships between Africa and its diaspora, interdiaspora relations, political and economic agency, and social mobilization, including cultural production and psychocultural transformation, existence in hostile and oppressive political and territorial space, and confronting interconnected relations of social inequality, especially class, gender, nationality, and race.

The Myth of the Twelve Tribes of Israel Andrew Tobolowsky, 2022-03-17. The Myth of the Twelve Tribes of Israel is the first study to treat the history of claims to an Israelite identity as an ongoing historical phenomenon from biblical times to the present. By treating the Hebrew Bible's accounts of Israel as one of many efforts to construct an Israelite history rather than source material for later legends, Andrew Tobolowsky brings a long-term comparative approach to biblical and nonbiblical Israelite histories. In the process, he sheds new light on how the structure of the twelve tribes tradition enables the creation of so many different visions of Israel and generates new questions: How can we explain the enduring power of the myth of the twelve tribes of Israel? How does becoming Israel work? Why has it proven so popular? and how did it change over time? Finally, what can the changing shape of Israel itself reveal about those who claimed it?

Women, Gender, and Diasporic Lives Evangelia Tastsoglou, 2009-01-01. Organized around the broad themes of women's labor, community activity, and identity as their organizing concept, Women, Gender, and Diasporic Lives intersects these issues with the concerns of ethnicity, class, generation, and masculinity. The country-specific case studies reveal women's intentionality and agency in labor, in building community institutions, and in negotiating and redefining their identities. The broad range of contributor

backgrounds make this book a valuable resource for anyone interested in gender diaspora labor or modern Greek studies

Identity and Belonging Among Chinese Australians Jennifer Martin,Dharma Arunachalam,Helen Forbes-Mewett,2023-11-20 This book describes the ethnic identity construction involved in being feeling and doing Chinese for multi generation Australian born Chinese who were born and raised in a different social environment It demonstrates how Chineseness is manifested in a multitude of ways and totally debunks any notion that being Chinese is a simple identity marker The book shows that while there are commonalities with the American born the experiences of Australia born Chinese are distinct in many ways This book is a timely and critically examination of the inescapability of Chineseness particularly when social and economic stability is threatened and those in power are looking for a scapegoat

Religion and Spirituality for Diverse Women Thema Bryant-Davis,Asuncion Miteria Austria,Debra M. Kawahara,Diane J. Willis Ph.D.,2014-09-30 This collection of essays considers the role of spirituality and religion in the lives of American women from various ethnic backgrounds showing how faith empowers those in populations often marginalized in the United States Religion and spirituality are sources of strength and resilience for many women particularly ethnically diverse women This thought provoking text examines this psychological trend exploring the specific ways in which women from diverse backgrounds have benefited from their faith traditions the various spiritual pathways they have chosen and the impact of those choices on their lives Essays in this informative compilation show how women from African American Latina American Indian Asian American and Caucasian backgrounds recover from difficulties and traumas with the help of their faith Contributors consider why women are more likely to endorse religious engagement than men why ethnically marginalized women tap into spirituality for comfort more than any other population and why many believers embrace religion as a coping mechanism throughout their lives from adolescence to older adulthood The work suggests ways for counselors leaders and religious figures to utilize this knowledge to bolster the well being of those they serve

Ethnic Identity Martha E. Bernal,George P. Knight,1993-01-01 This book provides broad coverage of the various research approaches that have been used to study the development of ethnic identity in children and adolescents and the transmission of ethnic identity across generations The authors address topics of acculturation and the development and socialization of ethnic minorities particularly Mexican Americans They stress the roles of social and behavioral scientists in government multicultural policies and the nature of possible ethnic group responses to such policies for cultural maintenance and adaptation

A New Language, A New World Nancy C. Carnevale,2010-10-01 An examination of Italian immigrants and their children in the early twentieth century A New Language A New World is the first full length historical case study of one immigrant group s experience with language in America Incorporating the interdisciplinary literature on language within a historical framework

Nancy C Carnevale illustrates the complexity of the topic of language in American immigrant life By looking at language from the perspectives of both immigrants and the dominant culture as well as their interaction this book reveals the role of language in the formation of ethnic identity and the often coercive context within which immigrants must negotiate this process
