LES MAÎTRES PENSEURS

Toute la famille fait dans la politique. L'ainé, Johann Gottlieb Fichte, passait pour jacobin : un futur Lénine ? Hegel, un peu tout, un peu là, offre de devenir maître et possesseur non seulement de la nature (à la Descartes) mais de la société. La domination de la terre, résume Nietzsche. Ça ne se refuse pas.

En cent ans la pensée allemande est devenue mondiale. La dernière fleur de la métaphysique occidentale ? La première pensée du Goulag ? Une anémone, une fleur de vent, du vide, glisserait Spinoza.

Parler qui ne veut ni être battu, ni voir, ni trompé a droit au cocktail. Un état de révolution française, un acte d'économie politique anglaise et un vieux fond de science allemande recommandée par Marx. Cela n'a pas empêché les marxistes de battre et d'être battus, volés, cotés.

L'ordre règne dans le silence et l'obéissance dans les idées. Face Est, le continent du grand mensonge, côté Ouest, les provinces du se mentir. À la porte, un vagabond, personne vraiment déprimé. Il y a quelque temps on eût dit : un juif. La famille prouve que Mai 68 est impossible. Et la révolte des jeunes Américains. Et la résistance des Russes qui kidnappent Pénicilline pour l'échanger contre Brejnev. Quand il entend parler de contestation, Dost prépara le plâtre.

Between Redemption & Perdition Robert S. Wistrich, 2020-04-06 Originally published in 1990 this book focuses on the challenge to Jewish identity posed by the conflicting forces of enlightenment emancipation modern political antisemitism and secular ideologies like Zionism nationalism and socialism At the heart of his discussion stands the intense tortured and ultimately tragic encounter of Jews with Germans and Austrians He also deals at length with the new problems of Jewish cultural and political identity posed by the existence of the state of Israel and its embattled position among the nations In the course of the analysis the book looks at the tragedy of assimilation in central Europe with the optimistic dream of Enlightenment and Bildung coming to a climax in the nightmare of racial antisemitism and the Holocaust He explores the ambivalent relationship of the Jews with the European Left showing how many Jewish intellectuals found a new political home in radical and socialist movements though these movements often retained negative stereotypes of Jews and Judaism and exhibited a fierce opposition to the maintenance of any separate Jewish identity The role of Zionism is discussed and the more recent challenges to its legitimacy examined French Intellectuals Against the Left Michael Scott

Christofferson, 2004 Christofferson argues that French anti totalitarianism was the culmination of direct democratic critiques of communism revisions of the revolutionary project after 1956 He offers an alternative interpretation for the denunciation of communism Marxism by the French intellectual left in the late 1970s **Constructing Foucault's ethics** Mark

Olssen, 2021-06-15 In popularizing the term speaking truth to power now widely used throughout the world Michel Foucault established the basis upon which a new ethics can be constructed This is the thesis that Mark Olssen advances in Constructing Foucault s ethics Olssen not only speaks truth to existing moral and ethical theories that have dominated western philosophy since Plato but also shows how by using Foucault s insights an alternative ethical and moral theory can be established that both avoids the pitfalls of postmodern relativism and simultaneously grounds ethical moral and political

discourse for the present age Taking the late ethical turn in the philosopher's thought as its starting point this ambitious study seeks to construct an ethics beyond anything Foucault ever attempted while remaining consistent with his core postulates In doing so it advances the concept of life continuance which expresses a normative orientation to the future in terms of the quest for survival and well being giving rise to irreducible normative values as part of the discursive order of events This approach is explored in contrast with a range of other established systems from the Kantian to the Marxist to contract ethics and utilitarianism

The Rational Kernel of the Hegelian Dialectic Alain Badiou, Joel Bellassen, Louis Mossot, 2011 The Rational Kernel of the Hegelian Dialectic is the last in a trilogy of political philosophical essays preceded by Theory of Contradiction and On Ideology written during the dark days at the end of the decade after May 68 With the late 1970's triumphant restoration in Europe China and the United States Badiou and his collaborators return to Hegel with a Chinese twist By translating annotating and providing commentary to a contemporaneous text by Chinese Hegelian Zhang Shi Ying Badiou and his collaborators attempt to diagnose the status of the dialectic in their common political and philosophical horizon Readers of Badiou's more recent work will find a crucial developmental step in his work in ontology and find echoes of his current project of a communist hypothesis This translation is accompanied by a recent interview that questions Badiou on the discrepancies between this text and his current thought on the nature of dialectics negativity modality and his understanding of the historical political and geographical distance that his text introduces into the present

Her recent social and economic challenges have cast deep shadows into the story of modern France that Charles Sowerwine tells so clearly Those dark questions about culture politics and society have their full place in this This scholarly but accessible reassessment of French history since 1870 This edition raises new questions about France s story directly and compellingly and remains the key text for readers who are curious about modern France Julian Wright Northumbria University UK Following on the fine precedent set by earlier editions this masterful survey offers students and the public alike a readable and illuminating account of the tortuous and ever intriguing path of French history since 1870 George Sheridan University of Oregon USA

Problems of Communism ,1979 Foucault 2.0 Eric Paras,2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century s most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault s critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2 0 draws on the full range of the philosopher s writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault s published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time Foucault 2 0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

A Normative Foucauldian Mark Olssen,2021-09-27 Inspired by the writings of Michel Foucault Olssen s writings traverse philosophy politics education and epistemology This book comprises a selection of his papers published in academic journals and books over twenty five years Taken as a whole the papers represent a redirection of the core axioms and directions of western ontology and philosophy in relation to how history the subject and education are theorised within the western philosophical tradition Olssen s writings not only contain a powerful critique and revision of western liberalism from a poststructuralist perspective they both explicate and extend Michel Foucault s challenge to the core axioms and assumptions underpinning western thought As Stephen Ball suggests in his Foreword to this volume Olssen uses Foucault to explore issues Olssen s Foucault is not a lonely nihilist but a troubled provocateur who encourages in us toward the political project of self formation our relation to ourselves and always to others

Histories of Postmodernism Mark Bevir,Jill Hargis,Sara Rushing,2020-09-19 Histories of Postmodernism reexamines the history of the constellation of ideas and thinkers

associated with postmodernism The increasingly dominant historical narrative depicts a relatively smooth development of ideas from Friedrich Nietzsche and Martin Heidegger through a range of French theorists most notably Jacques Derrida and Michel Foucault to contemporary American thinkers such as Richard Rorty Edward Said and Judith Butler Histories of Postmodernism challenges this narrative by highlighting the local contexts of relevant theorists and thus the crucial distinctions that divide successive articulations of the themes and concepts associated with postmodernism As postmodern ideas traveled from nineteenth century Germany to mid twentieth century France and on to the contemporary United States so the relevant theorists transformed that heritage within the context of particular intellectual traditions and specific political and aesthetic issues
