Marital Discord Alnushooz:

Assessment of Marital Discord (Psychology Revivals) K. Daniel O'Leary, 2013-12-19 Originally published in 1987 this book was designed to present the most recent research data on assessment of various aspects of marriage. Noted authorities on specific assessment areas provide information on conceptual and practical issues in marital assessment. The chapters include assessment of behavior, affect, social cognition, communication, sexual dysfunction, child and marital problems, family assessment. All the chapters include reference to specific assessment measures of the areas covered. In addition, for clinical use, one has been selected by each of the authors to represent a state of the art measure that can be used by clinicians. Reliability, validity, and normative data are presented on these measures which appear in full in the appendix of the text. O'Leary provides a context for this book in the first chapter of the book and in the final chapter discusses with his co-author how they begin their assessments from the initial phone contact, the assessment battery, the interviews with the clients and the couple, to the evaluation of the therapy sessions by the clients. **Factors in Marital Discord** Ahmed El-Senoussi, 1977

Retzinger, 1991-06-28 In *Violent Emotions* Retzinger explores the role of hidden alienation and shame as the source of repetitious cycles of conflict. Theories and research from large scale conflict, marital disputes, and communication processes are reviewed and provide a background for a new integrative theory developed by the author. In testing her theory of prolonged conflict, Retzinger utilizes complex verbal and nonverbal coding schemes, identifies specific emotions within the context of marital disputes, and points out recurring patterns preceding the escalation of an argument. She provides exemplars of how this theory works through an intensive analysis of conflict exchange in four case studies and uses vivid descriptions to illustrate important points about communication in intimate relationships. *Violent Emotions* provides much needed data that will be useful for preventive and predictive measures in early marital problems and insight into the dynamics of family and other violence. It is an excellent volume for students and professionals in the fields of victimology, psychology, interpersonal communication, gender studies, and family studies. Suzanne Retzinger has done such a fine job of presenting her theory and research. I suspect that many researchers, teachers, and therapists will turn to the vivid descriptions and transcripts the author provides to illustrate important points about communication in intimate relationships. From the Preface by Mary Anne Fitzpatrick, University of Wisconsin-Madison: use the Fitzpatrick quote for communication catalogs. She is the president of ICA. Dr. Retzinger's book is good news for both researchers and practitioners. It opens up a

whole new field of emotions for understanding the sources of hidden conflict Psychotherapists counselors and mediators will find it particularly helpful since the book shows in concrete detail how to detect and change underground conflicts A gold mine of new ideas and techniques Thomas J Scheff University of California Santa Barbara It is a splendid work that goes to the heart of the possibilities for a world where conflict is dealt with more constructively and less violently The integration of case study and theory is masterful Dr John Braithwaite The Australian National University Australia The author focuses on the crucial importance of shame in human bonding and the underlying dynamics of escalating conflict The problem of escalating conflict and its relationship to unity is the foundation of this book Family Violence Sexual Assault Bulletin The author is well read and integrates with ease perspectives of conflict communication and bonding theories Researchers and practitioners concerned with marital and family interaction will be interested in this interdisciplinary approach to emotion Choice A very impressive portrayal of the moment by moment flow of emotional meaning in disputes Retzinger s case studies add flesh and blood to the interactional skeleton of conflict and successfully reveal the subtle dynamics of marital quarrels that escape other methodologies Retzinger s analysis of the dynamics of marital conflict make a lot of sense both in the abstract and in concrete application Her findings are important and provocative The book has the sensitivity and clarity that will make it useful reading for professionals or for bridge level and graduate classes Contemporary Sociology Retzinger offers the researcher in the field of family violence a potentially powerful explanatory tool to investigate why conflict is consistently found to be patterned in a specific sequence for each couple Retzinger also offers the clinician concrete suggestions for interrupting the pattern and for guiding fighting couples to healthier interaction I highly recommend this book to all working in the field of family violence The American Journal of Family Therapy Retzinger s book makes a great contribution to the field of sociological practice by offering information and making direct suggestions that can be translated readily into intervention tactics especially for the counseling sociologist The book should appeal to a wide range of professionals especially marital therapists Journal of Marriage and the Family Dr Retzinger s landmark contribution is a major breakthrough for the clinician Using sophisticated research methodology applied to the assessment of marital interaction she convincingly demonstrates the relationship of hostility and rage to antecedent shame however subtle or unacknowledged that shame might be The central insights to this book place in the therapist s hands the capacity both to recognize and to resolve a major impediment in the treatment of marital tension the escalation of marital conflict resulting from shame rage spirals Melvin R Lansky UCLA Medical School **Marital Discord and Problematic Alcohol Use** Jennifer Ann Katz,1995 Possibilities for the prevention of marital discord Howard Markman,Frank Floyd,1980
