Mathode Des Arts Martiaux A mains Nues:

Méthode des arts martiaux à mains nues Kenji Tokitsu, 1987 Budo Kampfsport Terminologie Zen Buddhismus Technik Schlagtechnik Bewegungsform Bewegungsbeschreibung *Enseigner les arts martiaux: La méthode Yoseikan* Gilles CHEVRIER, 2017-02-12 L'école Yoseikan a toujours eu pour objectif de trouver un lien entre tous les arts martiaux. Ce livre a pour but de présenter les capacités communes à toutes les disciplines comment les enseigner et dans quel ordre les enseigner. Elles sont donc classées par âge d'apprentissage avec des exemples d'exercices éducatifs de 6 ans à l'adolescence. Des exemples sont choisis dans les techniques de percussion, de projection et de maniement des armes. Tous les arts martiaux sont donc abordés dans cette progression tel que le voulait l'esprit d'unification de l'école Yoseikan. **L'arrière-scène du monde des arts martiaux** Olivier Bernard, 2014-11-05T00:00:00-05:00 Les arts martiaux sont populaires. Mais si la plupart des gens en ont une idée plus ou moins précise, chacun possède une référence ou une image qui lui permet d'en parler sans être un expert. Cependant, se pourrait-il que les experts en question, soit les pratiquants eux-mêmes, n'arrivent pas à expliquer et comprendre ce qu'est le vaste monde des arts martiaux. Si cet exercice est difficile, c'est parce que la multitude de disciplines qui composent l'univers des arts martiaux forment une mosaïque que hâterait un casse-tête dont les pièces ne semblent pas toutes être faites pour s'emboîter. Pour être capables de déchiffrer la logique de l'organisation sociale qui se cache derrière l'incohérence apparente du tout ce qui compose l'univers des arts martiaux, nous avons besoin d'une clé. L'accès à cette clé nécessite de prendre du recul, un temps d'arrêt qui nous amène à utiliser des outils différents pour regarder quelque chose que nous pensions connaître. Ces outils sont les sciences sociales et la clé de lecture qu'ils proposent est de voir les arts martiaux comme un phénomène complexe. Le fonctionnement de notre société est complexe, alors pourquoi en serait-il autrement avec les arts martiaux. **Arts martiaux, sports de combat et interventions psychosociales** Jacques Hébert, 2011-04-26T00:00:00-04:00 Confiance, estime et maîtrise de soi, voilà ce que peuvent inculquer les arts martiaux et les sports de combat lorsqu'ils sont enseignés dans une perspective psychosociale plutôt que purement technique. Quand la parole s'avère difficile, le corps devient un médiateur crucial pour extérioriser ses motions et réactiver sa capacité d'introspection. Sa mise en action canalise l'agressivité dans une voie positive pour faire la paix en soi et autour de soi. Promouvant les arts martiaux et les sports de combat des fins éducatives thérapeutiques ou préventives, ce livre contient des récits de pratique témoignant de leur utilisation dans différents milieux : dojo, école, hôpital et centre communautaire, et auprès de diverses populations, sans difficulté ou avec difficulté, aux plans psychique et relationnel. Les professionnels des sciences humaines de l'éducation et de la santé y trouveront des moyens de prolonger ou d'amorcer leurs plans d'intervention pour favoriser le mieux-être des personnes. Les enseignants de disciplines martiales y verront des expériences novatrices pour stimuler leurs pratiques. Les parents et les pratiquants y puiseront des informations qui les aideront à choisir une école qui favorise le développement personnel et social.
