William Smith

Matins Lauds And Vespers For St Davids Day:

Matins, Lauds, and Vespers for St. David's Day Owain Tudor Edwards, 1990 This book looks at the only Welsh antiphonal known and discusses in particular the material for services celebrating the memory of the Welsh patron saint The book has a full listing and description of the contents of the Penpont Antiphonal National Library of Wales MS 20541 E and discusses the significance of the Office of St David The chants and the literary text are described and discussed supported by full transcriptions of the musical and literary texts and by facsimile reproduction of the manuscript folios The office is considered in its historical perspective as evidence of the active cultivation of music in Wales during the Middle Ages and for its relationship to other similar late medieval offices and to Rhigyfarch's Life of St David *The Use of Hereford* William Smith, 2017-05-15 The Use of Hereford a local variation of the Roman rite was one of the diocesan liturgies of medieval England before their abolition and replacement by the Book of Common Prayer in 1549 Unlike the widespread Use of Sarum the Use of Hereford was confined principally to its diocese which helped to maintain its individuality until the Reformation This study seeks to catalogue and evaluate all the known surviving sources of the Use of Hereford with particular reference to the missals and gradual which so far have received little attention In addition to these a variety of other material has been examined including a number of little known or unknown important fragments of early Hereford service books dismembered at the Reformation and now hidden away as binding or other scrap in libraries and record offices This is the fullest examination of Hereford liturgical sources ever undertaken and may stimulate similar and much needed studies of other diocesan uses in particular Sarum and York As well as describing in detail the various manuscript sources the rare single edition printed Hereford texts the missals and breviaries are also discussed Unlike books of the Sarum and York rites these one offs were never revised and reissued In addition to the examination of these sources William Smith discusses the possible origins of the rite and provides an analysis of the Hereford liturgical calendar of the festa including those of the cathedral's patron St Ethelbert and the no less famous St Thomas Cantilupe that helped to make Hereford use so distinctive *St David of Wales* J. Wyn Evans, Jonathan M. Wooding, 2007 The cult of St David has been an enduring symbol of Welsh identity across more than a millennium This volume traces the evidence for the cult of St David through archaeological historical hagiographical liturgical and toponymic evidence **Liturgy and the Arts in the Middle Ages** Eva Louise Lillie, Nils Holger Petersen, 1996 This volume contains a collection of essays in honour of the late Professor of Comparative Literature C Clifford Flanigan who died suddenly in 1993 at the age of 52 The scholarship of this book constitutes an example of the interdisciplinary approach to the study of ecclesiastical history which is the aim of the newly established Centre for Christianity and the Arts at the Theological Faculty at the University of Copenhagen *Music and Performance in the Book of Hours* Michael Alan Anderson, 2022-06-14 This study uncovers the musical foundations and performance suggestions of books of hours guides to prayer that were the most popular and widespread books of the late Middle Ages Exploring a variety

of musical genres and sections of books of hours with musical implications this book presents a richly textured sound world gleaned from dozens of extant manuscript sources from fifteenth century France It offers the first overview of the musical content of these handbooks to liturgy and devotional prayer together with cues that show scribal awareness for the articulation of sacred plainchants Although books of hours lack musical notation this survey elucidates the full range of musical genres and styles suggested both within and beyond the liturgical offices prescribed in books of hours Privileging sound and ritual enactment in the experience of the hours the survey complements studies of visual imagery that have dominated the category The book's interdisciplinary approach within a musical context and beautiful full color illustrations will attract not only specialists in musicology liturgy and late medieval studies but also those more broadly interested in the history of the book memory performance studies and art history

Music in Welsh Culture Before 1650 Sally

Harper, 2017-07-05 Music in Wales has long been a neglected area Scholars have been deterred both by the need for a knowledge of the Welsh language and by the fact that an oral tradition in Wales persisted far later than in other parts of Britain resulting in a limited number of sources with conventional notation Sally Harper provides the first serious study of Welsh music before 1650 and draws on a wide range of sources in Welsh Latin and English to illuminate early musical practice This book challenges and refutes two widely held assumptions that music in Wales before 1650 is impoverished and elusive and that the extant sources are too obscure and fragmentary to warrant serious study Harper demonstrates that there is a far wider body of source material than is generally realized comprising liturgical manuscripts archival materials chronicles and retrospective histories inventories of pieces and players vernacular poetry and treatises This book examines three principal areas the unique tradition of cerdd dant literally the music of the string for harp and crwth the Latin liturgy in Wales and its embellishment and Anglicised sacred and secular materials from c 1580 which show Welsh music mirroring English practice Taken together the primary material presented in this book bears witness to a flourishing and distinctive musical tradition of considerable cultural significance aspects of which have an important impact on wider musical practice beyond Wales

The Divine Office in the Latin Middle Ages Margot Elsbeth Fassler, Rebecca Anne Baltzer, 2000 The Divine Office or the cycle of daily worship services other than the Mass constitutes a body of liturgical texts and music for medieval studies This is a collection of spiritual works that is central to the culture of the Middle Ages

Music and Liturgy in Medieval Britain and Ireland Ann Buckley, Lisa Colton, 2022-01-06 Reveals the rich liturgical ecology of medieval Britain and Ireland and the religious and lay communities who shaped it

The Sounds and Sights of Performance in Early Music Maureen Epp, 2017-07-05 The experience of music performance is always far more than the sum of its sounds and evidence for playing and singing techniques is not only inscribed in music notation but can also be found in many other types of primary source materials This volume of essays presents a cross section of new research on performance issues in music of the Middle Ages and Renaissance The subject is approached from a broad perspective drawing on areas such as dance

history art history music iconography and performance traditions from beyond Western Europe In doing so the volume continues some of the many lines of inquiry pursued by its dedicatee Timothy J McGee over a lifetime of scholarship devoted to practical questions of playing and singing early music Expanding the bases of inquiry to include various social political historical or aesthetic backgrounds both broadens our knowledge of the issues pertinent to early music performance and informs our understanding of other cultural activities within which music played an important role The book is divided into two parts Viewing the Evidence in which visually based information is used to address particular questions of music performance and Reconsidering Contexts in which diplomatic commercial and cultural connections to specific repertoires or compositions are considered in detail This book will be of value not only to specialists in early music but to all scholars of the Middle Ages and Renaissance whose interests intersect with the visual aural and social aspects of music performance

Liturgies in Honour of Thomas Becket Kay Brainerd Slocum, 2004-01-01 Slocum analyzes the image of Thomas Becket as presented in the liturgies composed in his honour and examines these within the context of the political and social history of the late twelfth and early thirteenth centuries
