Matrimoni In Dubbio:

Marriage Litigation in the Western Church, 1215-1517 Wolfgang P. Müller, 2021-09-16 Examines how late medieval church courts were used for marriage cases and how this varied dramatically across Europe

Marriage, the Church, and its Judges in Renaissance Venice, 1420-1545 Cecilia Cristellon, 2017-04-21 This book investigates the actions of marriage tribunals by analyzing the richest source of marriage suits extant in Italy those of the Venetian ecclesiastical tribunal between 1420 and the opening of the Council of Trent It offers a strongly representative overview of the changes the Council introduced to centuries old marriage practices relegating it to the realm of marginality and deviance and nearly erasing the memory of it altogether From the eleventh century onward the Church assured itself of a jurisdictional monopoly over the matter of marriage operating both in concert and in conflict with secular authorities by virtue of marriage's civil consequences the first of which regarded the legitimacy of children Secular tribunals were responsible for patrimonial matters between spouses though the Church at times inserted itself into these matters either directly by substituting itself for the secular authority or indirectly by influencing Rulings through their own sentences Lay magistratures for their part somewhat eroded the authority of ecclesiastical tribunals by continuing to exercise autonomous jurisdiction over marriage especially regarding separation and crimes strictly connected to the nuptial bond and its definition including adultery bigamy and rape

A Companion to Venetian History, 1400-1797, 2013-07-11 The field of Venetian studies has experienced a significant expansion in recent years and the Companion to Venetian History 1400 1797 provides a single volume overview of the most recent developments It is organized thematically and covers a range of topics including political culture economy religion gender art literature music and the environment Each chapter provides a broad but comprehensive historical and historiographical overview of the current state and future directions of research The Companion to Venetian History 1400 1797 represents a new point of reference for the next generation of students of early modern Venetian studies as well as more broadly for scholars working on all aspects of the early modern world Contributors are Alfredo Viggiano Benjamin Arbel Michael Knapton Claudio Povolo Luciano Pezzolo Anna Bellavitis Anne Schutte Guido Ruggiero Benjamin Ravid Silvana Seidel Menchi Cecilia Cristellon David D Andrea Elisabeth Crouzet Pavan Wolfgang Wolters Dulcia Meijers Massimo Favilla Ruggero Rugolo Deborah Howard Linda Carroll Jonathan Glixon Paul Grendler Edward Muir William Eamon Edoardo Demo Margaret King Mario Infelise Margaret Rosenthal and Ronnie Ferguson

By Force and Fear Anne Jacobson Schutte, 2011-07-07 An unwilling desperate nun trapped in the cloister unable to gain release such is the image that endures today of monastic life in early modern Europe In By Force and Fear Anne Jacobson Schutte demonstrates that this and other common stereotypes of involuntary consignment to religious houses shaped by literary sources such as Manzoni's *The Betrothed* are badly off the mark Drawing on records of the Congregation of the Council held in the Vatican Archive Schutte examines nearly one thousand petitions for annulment of monastic vows submitted to the Pope and adjudicated by the

Council during a 125 year period from 1668 to 1793 She considers petitions from Roman Catholic regions across Europe and a few from Latin America and finds that in about half these cases the congregation reached a decision Many women and a smaller proportion of men got what they asked for decrees nullifying their monastic profession and releasing them from religious houses Schutte also reaches important conclusions about relations between elders and offspring in early modern families Contrary to the picture historians have painted of increasingly less patriarchal and more egalitarian families she finds numerous instances of fathers mothers and other relatives including older siblings employing physical violence and psychological pressure to compel adolescents into entering religion Dramatic tales from the archives show that many victims of such violence remained so intimidated that they dared not petition the pope until the agents of force and fear had died by which time they themselves were middle aged Schutte s innovative book will be of great interest to scholars of early modern Europe especially those who work on religion the Church family and gender Husbands, Wives, and Concubines Emlyn Eisenach,2004-06-01 Emlyn Eisenach uses a wide range of sources including the richly detailed and previously unexplored records of nearly two hundred marriage related disputes from the bishop s court of Verona to illuminate family and social relations in early modern northern Italy Arguing against the common emphasis on the growth of law and government in this period her study emphasizes the fluidity of the principles that governed marriage and its dissolution and deepens our understanding of the patriarchal family and its complex relationship with gender and status during the sixteenth century Peopled by characters from across the social spectrum of the city of Verona and its contado Eisenach s study moves between stories about specific individuals serving girls seeking honorable marriage through the unlikely route of concubinage peasant men in search of independence from their fathers and aristocratic wives seeking revenge against adulterous husbands and broader analyses of social economic and geographical patterns of behavior She shows how the Veronese at all social levels attempted to better their familial and personal fortunes by creatively molding wedding rituals to fit their particular circumstances or engaging in the significant but until now little understood practices of concubinage clandestine marriage or informal marriage dissolution Eisenach also evaluates the first half century of religious reforms in Verona as the leading pre Tridentine bishop Gian Matteo Giberti and his successors challenged common practices and understandings in sermons treatises confessionals and court Emphasizing the limitations of what the religious authorities could impose on the people she explores how learned and popular notions of marriage family and gender shaped each other as they were put into action in the strategies of individual Veronese **Marriage, Dowry, and Citizenship in Late Medieval and Renaissance Italy** Julius Kirshner,2015-01-01 In Marriage Dowry and Citizenship in Late Medieval and Renaissance Italy Kirshner collects nine important essays which address the socio legal history of women in Florence and the cities of northern and central Italy

The Ashgate Research Companion to the Counter-Reformation Alexandra Bamji,Geert H. Janssen,Mary Laven,2016-03-23 In the last two decades the history of the Counter Reformation has been stretched and re shaped in

numerous directions Reflecting the variety and innovation that characterize studies of early modern Catholicism today this volume incorporates topics as diverse as life cycle and community science and the senses the performing and visual arts material objects and print culture war and the state sacred landscapes and urban structures Moreover it challenges the conventional chronological parameters of the Counter Reformation and introduces the reader to the latest research on global Catholicism The Ashgate Research Companion to the Counter Reformation presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history **A Renaissance Marriage**

Carolyn James, 2020-02-21 The marriage of Isabella d Este one of the most famous figures of the Italian Renaissance and Francesco Gonzaga ruler of the small northern Italian principality of Mantua r 1484 1519 offers a fascinating portrait of political marriage in the early modern period A Renaissance Marriage shows an aristocratic couple who within several years of their wedding had to deal with the political challenges posed by the first decades of the Italian Wars 1494 1559 and later the scourge of the Great Pox humanising a relationship that was organised for entirely strategic reasons but had to be inhabited emotionally if it was to produce the political and dynastic advantages that had inspired the match Carolyn James draws on unpublished correspondence between Isabella and Francesco over twenty nine years as well as their correspondence with relatives and courtiers to show how their personal rapport evolved and how they cooperated in the governance of a princely state Hitherto examined mainly from literary and religious perspectives and on the basis of legal evidence and prescriptive literature early modern marriage emerges here in vivid detail offering the reader access to aspects of the lived experience of an elite Renaissance marital relationship The study also contributes to our understanding of the history of emotions of politics and military conflict of childbirth childhood and family life and of the history of disease and medicine **Jurists and Jurisprudence in Medieval Italy** Osvaldo Cavallar, Julius Kirshner, 2020-10-01 Jurists and
