Matter Of Identity In Medieval Romance:

The Matter of Identity in Medieval Romance Phillipa Hardman, 2002 Twelve essays address a central concern of medieval romance the matter of identity Identity is a central concern of medieval romance Here it is approached through essays on issues of origin and parentage transformation and identity and fundamental questions of what constitutes the human The construction of knightly identity through education and testing is explored and placed in relation to female identity the significance of the motif of doubling is studied Shifting perceptions of identities are traced through the histories of specific texts and the identity of romance itself is the subject of several essays discussing ideas of genre the overlap between romance and hagiography is a theme linking a number of articles in the collection Medieval romance is shown as a marketable commodity in the printed output of William Copland and as an opportunity for literary experimentation in the work of John Metham The texts discussed include Chevalere Assigne Sir Gowther Sir Ysumbras Beves of Hamtoun Robert of Cisyle the Fierabras romances Breton lays Thomas s Tristan and Marie de France s Eliduc Contributors W A DAVENPORT JOANNE CHARBONNEAU CORINNE SAUNDERS AMANDA HOPKINS MORGAN DICKSON MARIANNE AILES JUDITH WEISS JOHN SIMONS RHIANNON PURDIE MALDWYN MILLS A S G EDWARDS ROGER DALRYMPLE *Thinking Medieval Romance* Katherine C. Little, Nicola McDonald, 2018-10-17 Medieval romances with their magic fountains brave knights and beautiful maidens have come to stand for the Middle Ages more generally This close connection between the medieval and the romance has had consequences for popular conceptions of the Middle Ages an idealized fantasy of chivalry and hierarchy and also for our understanding of romances as always already archaic part of a half forgotten past And yet romances were one of the most influential and long lasting innovations of the medieval period To emphasize their novelty is to see the resources medieval people had for thinking about their contemporary concern and controversies whether social order Jewish Christian relations the Crusades the connectivity of the Mediterranean women s roles as mothers and how to write a national past This volume takes up the challenge to think romance investigating the various ways that romances imagine reflect and describe the challenges of the medieval world **Naming and Namelessness in Medieval Romance** Jane Bliss, 2008 A survey of the significance of names or their absence in medieval English French and Anglo Norman romance Naming and namelessness are among the major themes of medieval romance Because the genre is so difficult to define scholars have viewed romance as containing a critical number of themes this book treats naming as a major theme of romance and furthermore examines romance s relationship with contemporary naming theory A new genre it is able to play with naming in a way that previously established genres are not The book begins with a discussion of the medieval background to romance and explores a series of naming patterns found across a broad range of texts It continues with detailed analysis of twenty one romances in English French and Anglo Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker Finally an appendix

provides details of each romance's context together with indications for further research JANE BLISS is an independent scholar she gained her PhD from Oxford Brookes University *A Companion to Medieval Popular Romance* Raluca L. Radulescu, Cory James Rushton, 2009 Popular romance was one of the most wide spread forms of literature in the Middle Ages yet despite its cultural centrality and its fundamental importance for later literary developments the genre has defied precise definition its subject matter ranging from tales of chivalric adventure to saintly women and monsters that become human The essays in this collection provide contexts definitions and explanations for the genre particularly in an English context Topics covered include genre and literary classification race and ethnicity gender orality and performance the romance and young readers metre and form printing culture and reception **Sir Bevis of Hampton in Literary**

Tradition Jennifer Fellows, Ivana Djordjević, 2008 Sir Bevis of Hampton is one of the most widespread and important Middle English romances This book considers its historical and literary contexts and its Welsh Irish and Icelandic versions

Magic and the Supernatural in Medieval English Romance Corinne J. Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket **Romancing Treason** Megan G. Leitch, 2015

Romancing Treason examines English literature written during the Wars of the Roses Focusing on the theme of treason Megan Leitch suggests that the idea of a literature of the Wars of the Roses offers a way of understanding an understudied period *Romance and Its Contexts in Fifteenth-century England* Raluca L. Radulescu, 2013 Although the anonymous pious Middle English romances and Sir Thomas Malory's *Morte Darthur* have rarely been studied in relation to each other they in fact share at least two thematic concerns vocabularies of suffering and genealogical concerns as this book demonstrates By examining a broad cultural and political framework stretching from Richard II's deposition to the end of the Wars of the Roses through the prism of piety politics and penitence the author draws attention to the specific circumstances in which Sir Isumbras Sir Gowther Roberd of Cisely Henry Lovelich's *History of the Holy Grail* and Malory's *Morte* were read in fifteenth century England In the case of the pious romances this implies a study of their reception long after their original composition or translation centuries earlier in Lovelich's case an examination of metropolitan culture leads to an opening of the discussion to French romance models as well as English chronicle writing **Cultural Difference and Material Culture**

in Middle English Romance Dominique Battles, 2013-09-13 This book explores how the cultural distinctions and conflicts between Anglo Saxons and Normans originating with the Norman Conquest of 1066 prevailed well into the fourteenth century and are manifest in a significant number of Middle English romances including *King Horn* *Havelok the Dane* *Sir Orfeo* *Sir Gawain and the Green Knight* and others Specifically the study looks at how the material culture of these poems architecture battle tactic landscapes systematically and persistently distinguishes between Norman and Anglo Saxon cultural

identity Additionally it examines the influence of the English Outlaw Tradition itself grounded in Anglo Saxon resistance to the Norman Conquest as expressed in specific recurring scenes disguise and infiltration forest exile found in many Middle English romances In the broadest sense a significant number of Middle English romances including some of the most well read and often taught set up a dichotomy of two ruling houses headed by a powerful lord who compete for power and influence This book examines the cultural heritage behind each of these pairings to show how poets repeatedly contrast essentially Norman and Anglo Saxon values and ruling styles

Monsters, Gender and Sexuality in Medieval English Literature Dana Oswald, 2010 Case studies of Wonders of the East Beowulf Mandeville's Travels the Alliterative Morte Arthure and Sir Gowther reveal a shift in attitudes toward the gendered and sexed body and thus toward identity between the two periods while Old English authors and artists respond to the threat of the gendered monstrous form by erasing it Middle English writers allow transgressive and monstrous bodies to transform and therefore integrate into society This metamorphosis enables redemption for some monsters while other monstrous bodies become dangerously flexible and invisible threatening the communities they infiltrate These changing cultural reactions to monstrous bodies demonstrate the precarious relationship between body and identity in medieval literature
