Matter Of Revenge

Matter Of Revenge:

Proceedings of the Boston Area Colloquium in Ancient Philosophy: Volume XXIV (2008) John Joseph Cleary, Gary M. Gurtler, 2009 This volume contains papers and commentaries presented to the Boston Area Colloquium in Ancient Philosophy during the academic year 2007-8. The papers discuss a wide range of topics related to Plato and Aristotle. On Plato, topics include false pleasures in the *Philebus*, the tripartite soul in the *Republic*, and rhetoric in the *Phaedrus*, and on Aristotle, the relation of the physical and psychological in *De Anima*, of virtue and happiness in the *Ethics*, of body and nature in the *Physics*, and the role of *pros hen* in the *Metaphysics*. One other paper argues for the Aristotelian origin of Stoic determinism.

Reports of Proceedings ... Boston (Mass.). City Council, 1891 **The Undivided Self** David Charles, 2021 Aristotle initiated the systematic investigation of perception, the emotions, memory, desire, and action. David Charles argues that Aristotle's account of these phenomena is a philosophically live alternative to conventional modern thinking about the mind; it offers a way to dissolve rather than solve the mind-body problem we have inherited. **To-day**, 1898 **Justice Matters** Mona Sue Weissmark, 2004-01-29 In the fall of 1992, in a small room in Boston, MA, an extraordinary meeting took place. For the first time, the sons and daughters of Holocaust victims met face-to-face with the children of Nazis for a fascinating research project to discuss the intersections of their pasts and the painful legacies that history has imposed on them. Taking that remarkable gathering as its starting point, *Justice Matters* illustrates how the psychology of hatred and ethnic resentments is passed from generation to generation. Psychologist Mona Weissmark, herself the child of Holocaust survivors, argues that justice is profoundly shaped by emotional responses. In her in-depth study of the legacy encountered by these children, Weissmark found, not surprisingly, that in the face of unjust treatment, the natural response is resentment and deep anger, and in most cases, an overwhelming need for revenge. Weissmark argues that while legal systems offer a structured means for redressing injustice, they have rarely addressed the emotional pain which, left unresolved, is then passed along to the next generation, leading to entrenched ethnic tension and group conflict. In the grim litany of twentieth-century genocides, few events cut a broader and more lasting swath through humanity than the Holocaust. How, then, would the offspring of Nazis and survivors react to the idea of reestablishing a relationship? Could they talk to each other without open hostility? Could they even attempt to imagine the experiences and outlook of the other? Would they be willing to abandon their self-definition as aggrieved victims as a means of moving forward? Central to the perspectives of each group, Weissmark found, were stories, searing anecdotes passed from parent to grandchild, from aunt to nephew, which personalized with singular intensity the experience. She describes how these stories or legacies transmit moral values, beliefs, and emotions, and thus freeze the past into place. For instance, she found that most children of Nazis reported their parents told them stories about the war, whereas children of survivors reported their parents told them stories about the Holocaust. The daughter of a survivor said, "I didn't even know there was a war until I was a teenager. I didn't even know fifty million people were killed."

during the war I thought just six million Jews were killed While the daughter of a Nazi officer recalled I didn't know about the concentration camps until I was in my teens First I heard about the Nazi party Then I heard stories about the war about bombs falling or about not having food At a time when the political arena is saturated with talk of justice tribunals reparations and revenge management Justice Matters provides valuable insights into the aftermath of ethnic and religious conflicts around the world from Rwanda to the Balkans from Northern Ireland to the Middle East The stories recounted here and the lessons they offer have universal applications for any divided society determined not to let the ghosts of the past determine the future *Reports of Proceedings of the City Council of Boston for the Year ...* Boston (Mass.). City Council, 1891 Medieval Crime and Social Control Barbara Hanawalt, David Wallace, 1999 Crime is a matter of interpretation and never was this truer than in the Middle Ages when societies faced with new ideas and pressures were continually forced to rethink what a crime was and what was a crime This collection undertakes a thorough exploration of shifting definitions of crime and changing attitudes toward social control in medieval Europe These essays reveal how various forces in medieval society interacted and competed in interpreting and influencing mechanisms for social control Drawing on a wide range of historical and literary sources legal treatises court cases statutes poems romances and comic tales the contributors consider topics including fear of crime rape and violence against women revenge and condemnations of crime learned dispute about crime and social control and legal and political struggles over hunting rights The American Issue, 1912 Being and Intelligibility Albert Peter Pacelli, 2017-10-03 What do we mean when we say that something is What is the meaning of human experience These two most elementary philosophical questions have perplexed thinkers for thousands of years Being and Intelligibility explores them from the simple premise that all entities are essentially logical in their being The book develops its three central theses that the beingness of beings called Being and the intelligibility of Being are one and the same that nothingness i.e. absolute not Being is self-contradictory and unintelligible and therefore Being is logically necessary and that the fullness of human rational experience cannot be explained in materially reducible terms and requires recognition of the existence of transcendent reality which includes God as self-grounding good will moral obligation and freedom and the souls of men Being and Intelligibility thoroughly investigates the implications of the essential logicity of Being including that human Being shows itself to itself from within itself as a substantive persistent morally obligated unity among the ordered manifold of its life experiences whose essential Being is orientation toward God **Take Your Power Back** Evelyn M.
