**Mission, Ministry, Order** David N. Power, O.M.I.,2008-06-01 What is the mission of the church What are the ministries that further its mission How should the traditional orders of bishop overseer priest presbyter and deacon be reconsidered in the light of 21st century challenges and ecumenical unity These big questions involve a constellation of neuralgic issues both within the Roman Catholic Church and between it and its sister churches both East and West women priests women bishops married priests lay ministries the unaccountability of bishops to their flocks The rapid decline of priests in the US has led to an enormous number of lay people in leadership positions but they can't preside at the Eucharist the heart and soul of Catholic identity and practice and their roles are nebulous undefined and severely constrained Catholic women are voting with their feet over the church's failure to ordain women Lay theologians men and women now outnumber priest theologians but have little standing in the church outside of academia Far reaching agreements on theological issues have been made between Roman Catholicism and Anglicanism and Lutheranism but the practical consequences e.g shared Eucharists are nil It is against this background that David Power the doyen of sacramental theologians in North America has written a magisterial work on the mission ministry and order of the church that is historically comprehensive theologically progressive ecumenically and globally focused and practical in its prescriptions

**Will Pope Francis or a Successor Call a Vatican III Council?** John Raymaker,Gerald Grudzen,2020-06-30 In 2008 the authors wrote Steps toward Vatican III which explored developments occurring in the Catholic Church including its teachings on social justice interreligious dialogue and Small Christian Communities This update of Steps explores how Pope Francis has developed such themes in original ways in his encyclicals and in his use of synodal consultations For example in his Encyclical Laudato Si the pope seeks to lead us into the mysteries of the universe of creatures and the harmony of creation It helps us reflect on the universal communion of nature Calling for a global ecological policy and a cooperative approach the pope warns us that unless we respect nature the entire planet and humanity will face drastic consequences In his meetings with economists and entrepreneurs the pope has proposed a pact for renewing the economy to counteract the

asocial aspects of modern business practices He has discussed some of the most complex problems in today's world from safeguarding the environment to courageously committing oneself to rethink the economic paradigms of our time Young people in particular have responded with enthusiasm to Pope Francis initiatives The book notes how some traditional Catholics have opposed the pope but it argues that in fact the pope is more traditional than his critics for he insists on going back to Jesus' own teachings The new ongoing crises such as the breakdown and rise of new ideologies terrorism massive advances in the sciences and in technology as well as fundamental shifts in gender relations are further factors considered in the book Indeed the world is now radically different from the world of the early 1960s when Vatican II Council was held Due to these many radical changes the book suggests the need for a Vatican III which would consolidate the Church's global outreach on every continent

*A Voice of Their Own* William Anthony Clark, 2005 Examines community intimacy and authority in the church at the formative local ecclesial level examines contributions of several theologians concludes that a deeper appreciation for the enormous practical authority of local communities can help ground a renewal of the church's self understanding Provided by publisher

**Living the Catholic Social Tradition** Kathleen Maas Weigert, Alexia K. Kelley, 2004-11-26 In a time when the global and national economies seem to favor so few and harm so many when the threats to the common good are so prevalent and so deep how do people of faith think about these issues and act with those who are most vulnerable *Living the Catholic Social Tradition Cases and Commentary* addresses these challenges through contemporary theory and research conducted within the framework of the rich Catholic social tradition Co editors Kathleen Maas Weigert and Alexia Kelley combine four essays from leading scholars with eight concrete case studies based on community social justice projects across the country This unique combination of theory and reflective practice provides university students and adult learners with a framework for understanding the Catholic social tradition and a demonstration of its positive social impact on the people it serves The reader first learns about the challenges facing

Catholic universities in educating the current generation about the Catholic social tradition The next essays provide insights into the ways in which the tradition frames and contributes to social change approaches to understanding the key concepts and documents that make up the tradition and an understanding of the forces confronting change agents in major metropolitan areas Undertaken by younger scholars and activists the eight case studies tackle the issues that grass roots groups and visionary leaders face as they try to bring about positive change in their communities Living the Catholic Social Tradition will help readers assess and address different social justice issues within the framework of Catholic social thought In that process readers are called upon to think how they might not only contribute to the tradition but develop it further thus bringing the Catholic social tradition alive in contemporary times *Latino Catholicism* Timothy Matovina, 2012 Discusses the growing population of Hispanic Americans worshipping in the Catholic Church in the United States
