The Backyard Homestead Book of Building Projects Spike Carlsen,2014-03-25 Gardeners small farmers and outdoor living enthusiasts will love this compilation of 76 rustic DIY projects From plant supports and clotheslines to a chicken coop a greenhouse and a root cellar with storage bins most of the projects are suitable for complete novices and all use just basic tools and easy to find materials You ll find techniques to build whatever your outdoor world is missing with additional tips to live sustainably happily and independently *From Morality to the End of Reason* Ingmar Persson,2013-09-26 Many philosophers think that if you re morally responsible for a state of affairs you must be a cause of it Ingmar Persson argues that this strand of common sense morality is asymmetrical in that it features the act omission doctrine according to which there are stronger reasons against performing some harmful actions than in favour of performing any beneficial actions He analyses the act omission doctrine as consisting in a theory of negative rights according to which there are rights not to have one s life body and property interfered with and a conception of responsibility as being based on causality This conception of responsibility is also found to be involved in the doctrine of double effect The outcome of Persson s critical examination of these ideas is that reasons of rights are replaced by reasons of beneficence and we are made responsible for what is under the influence of our practical reasons The argument gives rise to a symmetrical consequentialist morality which is more demanding but less authoritative than common sense morality because reasons of beneficence are weaker than reasons of rights It is also argued that there are no non naturalist external practical reasons and all practical reasons are desire dependent so practical reasons cannot be universally binding The question is whether such a morality possesses enough authority to command our compliance This seems necessary in order for us to cope with the greatest moral problems of our

time such as aid to developing countries and anthropogenic climate change **In Ethan We Trust** Cheemo
