

The background of the book cover is a dark, swirling vortex of orange and yellow light, resembling a nebula or a stylized eye. A small, reddish-brown planet, presumably Mars, is positioned in the upper left quadrant, partially obscured by the swirling light. The overall aesthetic is futuristic and high-tech.

Kursija, This highly

specialized astrological application is ancient. It deals with specific questions and methods of answering these questions based on Tajik Yogas formed in the horoscope of that time at which the question was asked. The basis of the horary chart is the time when your question is put to the astrologer and from this a map of the sky is erected. Personal details such as your date, place, and time of birth are not needed and so for those who do not have this information, horary provides a method of dealing with problems. Horary astrology has its own strict system. The position of and aspects to the moon are of prime importance. The person asking the question or querent is represented by the ruler of the first house in the horoscope formed at the time of question. Planetary aspects are considered more important than in other branches of astrology although it is the planetary rulers of the houses in question that take precedent in analysis. Typically a horary chart is read by first assigning the thing asked about the quesited to a particular house in the chart. For instance asking "Where is my lost dog" would be represented by the sixth house as it is the house that governs small animals traditionally smaller than a goat. Whenever anyone who does not have his/her birth details approaches the Astrologer in such case the astrologer makes his horary chart and answers his/her queries. Horary astrology is based on the notion that the question and intensity to find its answer arises in the mind as a result of the divine command and at that particular moment the planetary locations in the cosmos remains favorable. Sometimes a native has the queries related to his/her relatives, friends or neighbors even without having their birth details. Horary Astrology has the adequate and significant tools based on divine principles to answer even such questions. Horary Astrology has the ability to answer any question whether it is regarding the lost articles, return of the person from abroad or any place, the time to get cure of a sick person etc. This book gives vivid knowledge of not only the basic tenets of Horary Astrology but also explains the related planets, signs and houses for a specific query related to a particular subject. This book has specially been designed for the students of All India Federation of Astrologers Societies but the other students interested to know this subject can also get benefitted equally with the study of this book.

to transcend earlier critical dismissals Harris Fain discusses significant and representative works most of which mainstream literary scholars and critics ignore as he charts the historical and literary development of contemporary American science fiction the internal divisions along both literary and political lines experienced during the Vietnam era the influence of the feminist movement and other contemporary concerns the increasing contributions of female African American and gay and lesbian writers and the emergence of such significant trends as hard science fiction cyberpunk alternate history and shared world stories Harris Fain also considers literary science fiction's relationship to the mass media the effects the popularity of fantasy has on the field and academia's continued misprizing of the genre
