

# First-Year Summer Experiences

The First-Year Summer Experiences staff members were very excited to announce the student facilitators for summer 2018 experiences. There was a record high number of 48 applicants this spring, and we are excited to announce that they all did an amazing job with our incoming first years.

We just had our annual First Year Summer Experiences Reunion where students were given the chance to meet people who participated in other programs this summer and learn about the different experiences they had.

Summer Experiences are something available to all incoming students and gives them the opportunity to take part in something before making their way on campus.

## How did participating in a First-Year Summer Experience help you?

"I wanted to get to know like-minded people before coming to Elon. I also was interested in familiarizing myself with service opportunities in Alamance County. The program played a huge role in helping me feel comfortable when I got to campus. I hang out with my Engage friends almost every day and they've been a great cohort to have at Elon."

"During the program, I learned how to delve deeply in service work beyond just showing up sometimes once and never thinking about it again. Engage stressed the importance of understanding why service work is important and investing in causes that matter to me. Engage helped me learn how to be comfortable trying new things I'm uncomfortable with. In my college career, I plan to do things outside of my comfort zone and challenge myself as much as I can."

—Anna LaMasters, Engage 2018

**Celtic Revival?** Sean Kay, 2011-08-16 Celtic Revival explores what happens when a society loses its wealth its faith in government and its trust in its Church The glorious rise of the Celtic Tiger in Ireland was thought by many to be a model for future economic growth for countries around the world its dramatic crash in 2008 resonated equally widely Yet despite the magnitude of the ongoing collapse Sean Kay shows that seen in historical perspective the crisis is part of a much larger pattern of generations of progress and change Kay draws on a rich blend of research interviews with a broad spectrum of Irish society and his own decades of personal experience to tell the story of Ireland today He guides the reader through the country's major economic challenges political transformation social change the crisis in the Irish Catholic Church and the rise of gay rights and multiculturalism He takes us through the streets of Derry and Belfast to understand the Northern Ireland peace process and the daunting task of peace building that has only just begun Finally we see how Irish foreign policy has long been a model for balancing competing interests and values Kay concludes by highlighting Ireland's lessons for the world and mapping a vital path for twenty first century challenges and opportunities for the coming generations in Ireland and beyond

this global debate It covers a wide range of issues that have received insufficient attention in the discourse of development and labour economics These include the impact of macroeconomic policies on employment labour rights the development of human capabilities and employability youth employment the benefits and costs of labour market flexibility and the importance of social protection for all This important book aims at filling this gap by revisiting old debates and reconnecting them to the contemporary context combining analyses with relevant empirical evidence It will appeal to a diverse readership of academic institutions and think tanks international organizations bilateral donors working on development issues and policy makers in developing countries     The Obama Victory Kate Kenski, Bruce W. Hardy, Kathleen Hall

Jamieson, 2010-07-14 Barack Obama's stunning victory in the 2008 presidential election will go down as one of the more pivotal in American history Given America's legacy of racism how could a relatively untested first term senator with an African father defeat some of the giants of American politics In The Obama Victory Kate Kenski Bruce Hardy and Kathleen Hall Jamieson draw upon the best voter data available The National Annenberg Election Survey as well as interviews with key advisors to each campaign to illuminate how media money and messages shaped the 2008 election They explain how both sides worked the media to reinforce or combat images of McCain as too old and Obama as not ready how Obama used a very effective rough and tumble radio and cable campaign that was largely unnoticed by the mainstream media how the Vice Presidential nominees impacted the campaign how McCain's age and Obama's race affected the final vote and much more Briskly written and filled with surprising insights The Obama Victory goes beyond opinion to offer the most authoritative account available of precisely how and why Obama won the presidency     **A Companion to Latin American Cinema**
