Morality and Viennese Opera in the Age of Mozart and Beethoven Martin Nedbal,2016-09-13 This book explores how the Enlightenment aesthetics of theater as a moral institution influenced cultural politics and operatic developments in Vienna between the mid eighteenth and early nineteenth centuries Moralistic viewpoints were particularly important in eighteenth century debates about German national theater In Vienna the idea that vernacular theater should cultivate the moral sensibilities of its German speaking audiences became prominent during the reign of Empress Maria Theresa when advocates of German plays and operas attempted to deflect the imperial government from supporting exclusively French and Italian theatrical performances Morality continued to be a dominant aspect of Viennese operatic culture in the following decades as critics state officials librettists and composers including Gluck Mozart and Beethoven attempted to establish and define German national opera Viennese concepts of operatic didacticism and national identity in theater further transformed in response to the crisis of Emperor Joseph II s reform movement the revolutionary ideas spreading from France and the war efforts in facing Napoleonic aggression The imperial government promoted good morals in theatrical performances through the institution of theater censorship and German opera authors cultivated intensely didactic works such as Die Zauberflöte and Fidelio that eventually became the cornerstones for later developments of German culture

In Praise of Commercial Culture Tyler COWEN,Tyler Cowen,2009-06-30 Does a market economy encourage or discourage music literature and the visual arts Do economic forces of supply and demand help or harm the pursuit of creativity This book seeks to redress the current intellectual and popular balance and to encourage a more favorable attitude toward the commercialization of culture that we associate with modernity Economist Tyler Cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a plurality of coexisting artistic visions providing a steady stream of new and satisfying creations supporting both high and low culture helping consumers and artists refine their tastes and paying

homage to the past by capturing reproducing and disseminating it Contemporary culture Cowen argues is flourishing in its various manifestations including the visual arts literature music architecture and the cinema Successful high culture usually comes out of a healthy and prosperous popular culture Shakespeare and Mozart were highly popular in their own time Beethoven's later less accessible music was made possible in part by his early popularity Today consumer demand ensures that archival blues recordings a wide array of past and current symphonies and this week's Top 40 hit sit side by side in the music megastore High and low culture indeed complement each other Cowen's philosophy of cultural optimism stands in opposition to the many varieties of cultural pessimism found among conservatives neoconservatives the Frankfurt School and some versions of the political correctness and multiculturalist movements as well as historical figures including Rousseau and Plato He shows that even when contemporary culture is thriving it appears degenerate as evidenced by the widespread acceptance of pessimism He ends by considering the reasons why cultural pessimism has such a powerful hold on intellectuals and opinion makers

Orientalism, Masquerade and Mozart's Turkish Music Matthew Head, 2018-12-13 Matthew Head explores the cultural meanings of Mozart's Turkish music in the composer's 18th century context in subsequent discourses of Mozart's significance for Western culture and in today's not entirely post colonial world Unpacking the ideological content of Mozart's numerous representations of Turkey and Turkish music Head locates the composer's exoticisms in shifting power relations between the Austrian and Ottoman Empires and in an emerging orientalist project At the same time Head complicates a presentist post colonial critique by exploring commercial stimuli to Mozart's turquerie and by embedding the composer's orientalism in practices of self disguise epitomised by masquerade and carnival In this context Mozart's Turkish music offered fleeting liberation from official and proscribed identities of the bourgeois Enlightenment
