Accelerating Your Learning Curve Andrew Wasson,1995-01-01 Designed to Improve the Speed and Effectiveness of Learning Organize a better approach to your daily and weekly practice routines to help shave hours off your next learning curve **Mozart's Letters, Mozart's Life** Robert Spaethling,2005-12-17 A wonderful collection that gives Mozart a voice as a son husband brother and friend New York Times Book Review Mozart s honesty his awareness of his own genius and his contempt for authority all shine out from these letters Sunday Times London In Mozart s Letters Mozart s Life Robert Spaethling presents Mozart in all the rawness of his driving energies Spectator preserved in the zany often angry effervescence of his writing Observer Where other translators have ignored Mozart s atrocious spelling and tempered his foul language Robert Spaethling s new translations are lively and racy and do justice to Mozart s restlessly inventive mind Daily Mail Carefully selected and meticulously annotated this collection of letters should be on the shelves of every music lover BBC Music Magazine *The Big Book of Independent Thinking* Ian Gilbert,2006-06-11 In 1992 Ian Gilbert author of the highly acclaimed Essential Motivation in the Classroom founded Independent Thinking Ltd ITL His aim was to enrich young

people's lives by changing the way they think and so to change the world. He has done this by gathering together a disparate group of associates, specialists in the workings of the brain, discipline, emotional intelligence, ICT, motivation, using music in learning, creativity and dealing with the disaffected. ITL achieve their objective by doing what no one else does or doing what everyone else does in a way no one else does. With a chapter from each of the associates plus an introduction and commentary by Ian Gilbert, this is the definitive guide for anyone wishing to understand and use some of the thinking that makes ITL such a unique and successful organisation. If you're looking for a quick How to guide and a series of photocopiable worksheets you can knock out for a last minute PSHE lesson or because the INSET provider you had booked has let you down at the last minute and you're the only member of the middle management team who didn't attend the last planning meeting so you've ended up with the job of stepping in to fill in the gap, then this is the book for you. As befitting a disparate group of people brought together under the banner of Independent Thinking, these chapters are to get you thinking for yourself, thinking about what you do, why you do what you do and whether doing it that way is the best thing at all. This book is meant to be dipped into with not every chapter being relevant for everybody all of the time. Some chapters are written with the classroom practitioner very much in mind, others with the students in mind, other still with an eye on school leaders. That said, there is something here for everyone so we encourage you to dip into it with a highlighter pen in one hand and a notebook in the other to capture the main messages and ideas that resonate with you. So does the assembly you're about to give or that lesson on forces you're about to deliver or that staff meeting you're about to lead or that new intake parents evening you're planning look like everyone else's anywhere else? If so, then what about sitting down with your independent thinking hat on and identifying how you can make it so that we couldn't drop you into a totally different school on the other side of the country without anyone noticing the difference? Have the confidence to be memorable: the world of education needs you to be great.

New Approaches to Teaching Italian Language and Culture

Emanuele Occhipinti, 2008-12-11

New Approaches to Teaching Italian Language and Culture fills a major gap in existing scholarship and textbooks devoted to the teaching of Italian language and culture. A much needed project in Italianistica, this collection of essays offers case studies that provide a coherent and organized overview of contemporary Italian pedagogy incorporating the expertise of scholars in the field of language methodology and language acquisition from Italy and four major countries where the study of Italian has a long tradition: Australia, Canada, Great Britain and the United States. The twenty-four essays, divided into six main parts, offer a tremendous variety of up-to-date approaches to the teaching of Italian as a foreign language and L2, ranging from theoretical to more practical, hands-on strategies with essays on curricular innovations, technology, study abroad programs, culture, film and song use as effective pedagogical tools. Each case study introduces a systematic approach with an overview of theory, activities and assessment suggestions, collection of research data and syllabi. The book addresses the needs of instructors and teacher trainers, putting in perspective different examples.
