The Guitar in American Banjo, Mandolin and Guitar Periodicals,

1882-1933 Jeffrey Noonan, 2009-01-01 In the early years of the twentieth century O G Sonneck the father of American musicology decried the state of musical bibliography in this country encouraging musical scholars to dedicate themselves to preserving cataloging and promoting the use of America s musical ephemera especially newspapers and magazines Despite his century old calls much work in this area remains undone This volume responds to Sonneck s call for action by creating a bibliography of periodicals that document the use and place of the guitar in a little known segment of America s musical culture in the final decades of the nineteenth century through the first third of the twentieth century Between 1880 and the mid 1930s a unique musical movement grew and flourished in this country Focused on the promotion of so called plectral instruments this movement promoted the banjo the mandolin and the guitar as cultivated instruments on a par with the classical violin or piano The Banjo Mandolin and Guitar BMG community consisted of instrument manufacturers music publishers professional teachers and composers and amateur students While some professional soloists achieved national recognition the performing focus of the movement was ensemble work with bands of banjos mandolins and guitars ranging from quartets and quintets modeled on the violin family string ensembles to festival orchestras of up to 400 players mimicking the late romantic symphony orchestra The repertoire of most ensembles included popular dances of the day as well as light classics but more ambitious ensembles tackled Mozart Haydn Beethoven and even Wagner Although this movement straddled both popular and cultivated classical music making its elitist pretensions contributed to its demise in the wake of the explosive growth of modern American popular music linked to Tin Pan Alley or the blues While the movement s heyday spanned the early years of audio recording only a handful of active BMG performers made recordings As a result few musical scholars are aware of the BMG movement and its contribution to American musical culture especially its influence on the physical and technical development of America s instrument the guitar The movement did however leave extensive traces of itself in periodicals produced by manufacturing and publishing concerns Beginning in 1882 the leadership of the BMG movement fell to the publishers editors and contributors from these promotional journals which were dedicated to the interests of Banjoists Mandolinists and Guitarists While advertising dominated the pages of most of these periodicals nearly all offered product and publication reviews historical surveys biographical sketches and technical advice In addition the BMG magazines not only documented performances with reviews and program lists but also contained musical scores for solo instruments and plucked string ensembles These magazines are the primary sources which document this vibrant expression of America s musical life While one or two of the BMG magazines have been known by guitar scholars most have not seen the light of day in decades Similarly a few of the leading guitar figures of the BMG movement principally William Foden Vahdah Olcott Bickford and George C Krick have been acknowledged and documented but many more remain completely anonymous This bibliography offers access to the periodicals which help document the story of the guitar in America s progressive era a

story of tradition and transformation as lived and told by the guitar's players, teachers, manufacturers, composers, and fans in the BMG movement. The bibliography consists of two large sections. The first contains a chronological list of articles, news items, advertisements, illustrations, and photographs as well as a list of musical works for guitar published in the BMG magazines. The second section of the bibliography is a series of indices which link names and subjects to the lists. With nearly 5500 entries and over 100 pages of indices, this bibliography offers researchers access to a musical world that has been locked away on library shelves for the past century.

Franz Schubert Arranged for Guitar Franz Schubert, Javier Calderon, 2011-03-11. There have been few previous examples of guitar versions of Schubert piano music and practically no attempts to transcribe a complete set of pieces as Calderon has done here with the six pieces of Schubert's Moments Musicaux. These pieces are superb examples of Schubert's mastery in the miniature form: true musical moments of mood and feeling. Two other pieces complete this collection which also include notes on the preparation and performance of the pieces in English, German, and Spanish; the music is in standard notation only with a CD of performances of the pieces by the arranger.

Opera in the Viennese Home from Mozart to Rossini Nancy November, 2024-01-18. A unique window on the world of nineteenth-century amateur music making provided by the study of domestic musical arrangements of opera.

Symphony No. 16 - K. 128 Wolfgang Amadeus Mozart, 2012-11-27. The work's first movement, an essay in sonata-allegro form in the key of C major, sounds at first as if it is in 9/8 time due to its use of triplets. However, as it enters the second half of the exposition section, it becomes clear that the meter of this movement is actually 3/4. The development section is short and rich with modulations. With some of this developmental spirit carried over into the recapitulation, which turns out not to be perfectly literal. The oboes and horns drop out of the second movement, another essay in sonata-allegro form that was written for the strings alone. They return for the third and final movement again in C major in a cheerful dance as an altered rondo form with a coda.
