PRESIDENT BELIEVE Beverly Cardozo, 2011-03-26 Since the recession and after losing her job the author decided to take charge of her life made some compelling changes She hates to lose at any opportunity ahead of her with her struggles of traveling different places to look for work moving from job to job it seems impossible to survive This prepared her to do anything in her power to take risk in order to survive in this economy It is impossible not to read this book to become the winner at anything and to guide us through the dark and dismal time this country is coping with such as an economic breakthrough losing all we have worked so hard to achieve Taking charge of her life was a challenge in itself but understanding the power of her mindset she moved on to a road of a different path How to be prosperous again one must be resilient and be ready to accept that attaching oneself emotionally to material gain is not only destructive to your health but it will destroy the power of thinking A motivational book must read for today's Americans to overcome fear and adversity so you can attain your goal taking charge and taking back your prosperity **Dear Mr. President** Beverly Cardozo, 2010-06-16 The Bush administration left this country in a state of economic recession and a grim tour of American History The American people are struggling to survive by reinventing ourselves through a sweeping historical event Barack Obama is trying to

restore America by promising change to make America regain its dignity by bailing out huge corporations and financial institutions with his stimulus plans Dear Mr President a letter written in form of a book addressing president Obama of his uncertainty leadership and what he is trying to achieve for the American people This book is based solely on my beliefs opinions and how Americans have fallen along the wayside We need to take back America because we have the power Obama needs to restore our faith and trust in the government again and that is no easy task because politicians have to be willing to say things that have true meaning This is a much bigger plan that you bargained for and I hope America will be strong again To do this we must be a community willing to look out for each other helping those that are down and giving a pathway to success

The President's Dilemma in Asia Don S. Lee,2024-07-12 The President s Dilemma in Asia provides one of the first comprehensive and comparative theory of presidential government formation In the authoritarian era presidents had greater control over key institutional actors in the process such as the legislature the ruling party and the bureaucracy However after democratic transition they have to navigate competing pressures from these political institutions This book highlights the major trade off that presidents of new democracies face in their relationship with the different political institutions the so called president s dilemma and their strategy in dealing with the dilemma Existing studies of presidential government formation in new democracies have largely overlooked the entirety of the structure of the political institutions surrounding the president and its impact on the president s government formation strategy This book offers a view that government formation is a window to understanding how presidents weigh the benefits of appointing ministers representing different political institutions under a variety of given institutional circumstances The question of which institution presidents attempt to accommodate through government formation is a high stakes one and addressing it is important because particular patterns of personnel distribution can influence the kind of policies political leaders adopt and the level of accountability and responsiveness to
