Lent, 2015-01-05 Grand in its scope Asian Comics dispels the myth that outside of Japan the continent is nearly devoid of comic strips and comic books Relying on his fifty years of Asian mass communication and comic art research during which he traveled to Asia at least seventy eight times and visited many studios and workplaces John A Lent shows that nearly every country had a golden age of cartooning and has experienced a recent rejuvenation of the art form As only Japanese comics output has received close and by now voluminous scrutiny Asian Comics tells the story of the major comics creators outside of Japan Lent covers the nations and regions of Bangladesh Cambodia China Hong Kong India Indonesia Korea Malaysia Myanmar Nepal the Philippines Singapore Sri Lanka Taiwan Thailand and Vietnam Organized by regions of East Southeast and South Asia Asian Comics provides 178 black and white illustrations and detailed information on comics of sixteen countries and regions their histories key creators characters contemporary status problems trends and issues One chapter harkens back to predecessors of comics in Asia describing scrolls paintings books and puppetry with humorous tinges primarily in China India Indonesia and Japan The first overview of Asian comic books and magazines both mainstream and alternative graphic novels newspaper comic strips and gag panels plus cartoon humor magazines Asian Comics brims with facts fascinating anecdotes and interview quotes from many pioneering masters as well as younger artists **Mr. Kiasu** Kuppies (Group), Cheng Yu, Johnny Lau, 1992 *Singapore* Garry Rodan, 2017-07-12 This title was first published in 2001 A collection of valuable previously published essays analyzing the major social dynamics shaping the increasingly complex society economy and polity of contemporary Singapore Topics range from ideology and culture to the character of the state and its institutions and the possibilities for political reform *Latest Contributions to Cross-cultural Psychology* John G. Non-Western Popular Music Tony Langlois, 2017-07-05 This collection provides readers with a diverse and contemporary overview of research in the field Drawing upon scholarly writing from a range of disciplines and approaches it provides case studies from a wide range of non Western musical contexts In so doing the volume attends to the central themes that have emerged in this area of popular music studies cultural politics identity and the role of technology This collection does not seek to establish a new theoretical paradigm but being primarily aimed at researchers and students offers as comprehensive a view of the research that has been carried out over the last few decades as possible given the global scope of the subject Inevitably the experience of globalisation itself runs through many of the contributions not only because musicians find themselves part of an immense flow of international culture technology and finance but also because Western scholarship can also be considered an aspect of such a flow The articles selected for the volume take different disciplinary approaches many are close ethnographic descriptions of musical practices whilst others take a more historical view of a musical scene or even a single musician Some essays consider the effects of emerging technologies upon the production dissemination and consumption of music whilst the political context is central to other authors The collection as a whole serves as a resource for those who wish to be better acquainted with the diversity of research that has been carried out into non western pop whilst also highlighting the broader themes that have so far shaped academic approaches to the subject
