Committee on Un-American Activities, 1951 *Prosaic Desires* Sara Crangle, 2010-07-05 Studying the work of Joyce Woolf Stein and Beckett Sara Crangle explores the everyday human longings found in Modernist writing This discussion is set within a framework of continental philosophy particularly the thinking of Emmanuel Levinas *The Case Manager's Handbook* Catherine M. Mullahy, 2009-06-15 **Mortality and Form in Late Modernist Literature** John Whittier-Ferguson, 2014-10-27 This monograph underscores the way in which mortality functions in the later poetry and prose of major modernist writers Modernist Women Writers and War Julie Goodspeed-Chadwick, 2011 In Modernist Women Writers and War Julie Goodspeed Chadwick examines important avant garde writings by three American women authors and shows that during World Wars I and II a new kind of war literature emerged one in which feminist investigation of war and trauma effectively counters the paradigmatic war experience long narrated by men In the past Goodspeed Chadwick explains scholars have not considered writings by women as part of war literature They have limited war writing to

works by men such as William Butler Yeats's poem *An Irish Airman Foresees His Death* 1919 which relies on a male perspective a pilot contemplates his forthcoming flight his duty to his country and his life in combat But works by Djuna Barnes H D and Gertrude Stein set in wartime reveal experiences and views of war markedly different from those of male writers They write women and their bodies into their texts thus creating space for female war writing insisting on female presence in wartime and perhaps most significantly critiquing war and patriarchal politics often in devastating fashion Goodspeed Chadwick begins with Barnes who in her surrealist novel *Nightwood* 1936 emphasizes the actual perversity of war by placing it in contrast to the purported perverse and deviant behavior of her main characters In her epic poem *Trilogy* 1944 1946 H D validates female suffering and projects a feminist spiritual worldview that fosters healing from the ravages of war Stein for her part in her experimental novel *Mrs Reynolds* 1952 and her long love poem *Lifting Belly* 1953 captures her experience of the everyday reality of war on the home front within the domestic economy of her household In these works the female body stands as the primary textual marker or symbol of female identity an insistence on women's presence in both the text and in the world outside the book The strategies employed by Barnes H D and Stein in these texts serve to produce a new kind of writing Goodspeed Chadwick reveals one that ineluctably constructs a female identity within and authorship of the war narrative

Gertrude Stein's Surrealist Years Ery Shin,2020-06-23 Examineshow surrealism enriches our understanding of Stein s writing through its poetics of oppositions Gertrude Stein s Surrealist Years brings to life Stein s surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti Semitism Stein s earlier works such as *Tender Buttons* and *Lucy Church Amiably* tend to prioritize formal innovations over narrative building and overt political motifs However Ery Shin argues that Stein s later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with *The Autobiography of Alice B Toklas* and continuing in later works Stein renders legible her war torn era s jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgangers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein s return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically

situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein s art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler s Europe how outliers like Stein can be included in the surrealist project surrealism s theoretical bind in the face of WWII and the age old question of artistic legacy
