Singh,Suraj Mal,2021-11-02 This book compiles available knowledge of the response of mountain ecosystems to recent climate and land use change and intends to bridge the gap between science policy and the community concerned The chapters present key concepts major drivers and key processes of mountain response providing transdisciplinary orientation to mountain studies incorporating experiences of academics community leaders and policy makers from developed and less developed countries The book chapters are arranged in two sections The first section concerns the response processes of mountain environments to climate change This section addresses climate change itself past current and future changes of temperature and precipitation and its impacts on the cryosphere hydrosphere biosphere and human environment systems The second section focuses on the response processes of mountain environments to land use land cover change The case studies address effects of changing agriculture and pastoralism forest water resources management and urbanization processes landscape management and biodiversity conservation The book is designed as an interdisciplinary publication which critically evaluates developments in mountains of the world with contributions from both social and natural sciences

Mount Fuji H. Byron Earhart,2015-07-15 Illustrated with color and black and white images of the mountain and its associated religious practices H Byron Earhart s study utilizes his decades of fieldwork including climbing Fuji with three pilgrimage groups and his research into Japanese and Western sources to offer a comprehensive overview of the evolving imagery of Mount Fuji from ancient times to the present day Included in the book is a link to his twenty eight minute streaming video documentary of Fuji pilgrimage and practice Fuji Sacred Mountain of Japan Beginning with early reflections on the beauty and power associated with the mountain in medieval Japanese literature Earhart examines how these qualities fostered spiritual practices such as Shugendo which established rituals and a temple complex at the mountain as a portal to an ascetic otherworld As a focus of worship the mountain became a source of spiritual insight rebirth and prophecy through the practitioners Kakugyo and Jikigyo whose teachings led to social movements such as Fujido the way of Fuji and to a variety of pilgrimage confraternities making images and replicas of the mountain for use in local rituals Earhart shows how the seventeenth century commodification of Mount Fuji inspired powerful interpretive renderings of the peerless mountain of Japan such as those of the nineteenth century print masters Hiroshige and Hokusai which were largely responsible for creating the international reputation of Mount Fuji In the eighteenth and nineteenth centuries images of Fuji served as an expression of a unique and superior Japanese culture With its distinctive shape firmly embedded in Japanese culture but its ethical ritual and spiritual associations made malleable over time Mount Fuji came to symbolize ultranationalistic ambitions in the 1930s and early 1940s peacetime democracy as early as 1946 and a host of artistic naturalistic and commercial causes even the exotic and erotic in the decades since Global Change and Mountain Regions Uli M. Huber,Harald K.M.

Bugmann, Mel A. Reasoner, 2006-03-09 Mountain regions occupy about a quarter of the global terrestrial land surface and provide goods and services to more than half the humanity Global environmental change threatens the integrity of these systems and their ability to provide the goods and services upon which humanity has come to depend This book gives an overview of the state of research in fields pertaining to the detection understanding and prediction of global change impacts in mountain regions More than 60 contributions from paleoclimatology cryospheric research hydrology ecology and development studies are compiled in this volume each with an outlook on future research directions Holy Pilgrimages Saffron Valentine, AI, 2025-02-14 Holy Pilgrimages explores the profound significance of religious pilgrimage across diverse faiths revealing what makes a place sacred and how these journeys shape identities Pilgrimages serve as powerful expressions of faith catalysts for spiritual growth and connections to the divine The book highlights that pilgrimage is not an archaic practice but a vital and evolving aspect of religious life reflecting contemporary social and political realities The book begins by defining pilgrimage and sacred space then progresses through thematic chapters It examines the historical evolution of pilgrimage in major religions explores the social and cultural dimensions of these journeys and investigates the personal experiences of pilgrims Drawing on historical texts religious scriptures and ethnographic studies Holy Pilgrimages utilizes a multidisciplinary approach to offer a holistic understanding of pilgrimage It reveals the complex interplay of religious social cultural and personal factors that drive these spiritual journeys **The Routledge Companion to Landscape Studies** Peter Howard, Ian Thompson, Emma Waterton, Mick Atha, 2018-09-03 This new edition of The Routledge Companion to Landscape Studies contains an updated and expanded selection of original chapters which explore research directions in an array of disciplines sharing a concern for landscape a term which has many uses and meanings It features 33 revised and or updated chapters and 14 entirely new chapters on topics such as the Anthropocene Indigenous landscapes challenging landscape Eurocentrism photography and green infrastructure planning The volume is divided into four parts Experiencing landscape Landscape heritage and culture Landscape society and justice and Design and planning for landscape Collectively the book provides a critical review of the various fields related to the study of landscapes including the future development of conceptual and theoretical approaches as well as current empirical knowledge and understanding It encourages dialogue across disciplinary barriers and between academics and practitioners and reflects upon the implications of research findings for local national and international policy in relation to landscape The Companion provides a comprehensive and up to date guide to current thinking about landscapes and serves as an invaluable point of reference for scholars researchers and graduate students alike **The Changing Land**, 2004 Re: Action Hani Rashid, 2023-05-08 Portrait of Studio Hani Rashid Building on the previous volume Re Futures 2017 Re Action presents a selection of innovative designs by Studio Hani Rashid at the University of Applied Arts Vienna's Institute of Architecture The selected projects address architectural strategies for ensuring vitality in cities and ecosystems as well as sustainable urban growth In his

studio Hani Rashid co founder of the visionary New York firm Asymptote Architecture focuses on architecture that responds to current and future ecological changes Bringing together projects texts and conversations the book highlights creative ways in which architecture can contribute to the development of a sustainable progressive and livable urban future Innovative experimental architectural designs for vibrant cities and ecosystems Explores how architecture can respond to ecological changes With contributions by Hani Rashid Anab Jain Greg Lynn Timothy Morton Claudia Pasquero and others

Long-Term Ecosystem Changes in Riparian Forests Hitoshi Sakio, 2020-05-19 This open access book presents and analyzes the results of more than 30 years of long term ecological research in riparian forest ecosystems with the aim of casting light on changes in the dynamics of riparian forests over time The research focusing on the Ooyamazawa riparian forest one of the remaining old growth forests in Japan has yielded a number of interesting outcomes First it shows that large scale disturbances afford various trees opportunities for regeneration and are thus the driving force for the coexistence of canopy trees in riparian forests Second it identifies changes in reproductive patterns highlighting that seed production has in fact quantitatively increased over the past two decades Third it describes the decline in forest floor vegetation caused by deer grazing and reveals how this decline has affected bird and insect populations The book illustrates the interconnectedness of phenomena within an ecosystem and the resultant potential for cascade effects and also stresses the need for long term ecological studies of climate change impacts on forests It will be of interest to both professionals and academics in the field of forest science

and stimulate further study **Contemporary Theories of Career Development** Nancy Arthur, Mary McMahon, 2018-11-12 In response to the complexities of social change that have become evident in the 21st century there is a need for innovation in career theory that takes into account new perspectives and the fluctuating contexts of people's lives Contemporary Theories of Career Development International Perspectives brings together the contributions of theorists from around the globe whose work represents current cutting edge international approaches to career development theory Emphasizing the new perspectives that are needed for this field to be relevant in a contemporary era this book considers the cultural applications of theory in a diverse range of populations Structured in three parts with chapters written by internationally renowned leaders in the field this collection features a critical examination of the current history of the field thirteen theory chapters each enhanced by a case study and a final chapter that draws the previous chapters together through key themes broadening the reader's knowledge of theoretical perspectives and their interrelations Each theory chapter author comments on and critiques his or her own theory inviting readers to engage with these theories at both a practical and theoretical level through the case studies Detailed with reader friendly descriptions and supplemented by international research case examples and discussion questions Contemporary Theories of Career Development International Perspectives is the ideal reference work for students studying the topic as well as a stimulus for researchers and practitioners looking to implement the theories in their work **Sacred Landscapes in Antiquity** Ralph Haussler, Gian Franco Chiai, 2020-07-31 From generation to generation people experience their landscapes differently Humans depend on their natural environment it shapes their behavior while it is often felt that deities responsible for both natural benefits and natural calamities such as droughts famines floods and landslides need to be appeased We presume that in many societies lakes rivers rocks mountains caves and groves were considered sacred Individual sites and entire landscapes are often associated with divine actions mythical heroes and etiological myths Throughout human history people have also felt the need to monumentalize their sacred landscape But this is where the similarities end as different societies had very different understandings beliefs and practices The aim of this new thematic appraisal is to scrutinize carefully our evidence and rethink our methodologies in a multi disciplinary approach More than 30 papers investigate diverse sacred landscapes from the Iberian peninsula and Britain in the west to China in the east They discuss how to interpret the intricate web of ciphers and symbols in the landscape and how people might have experienced it We see the role of performance ritual orality textuality and memory in people's sacred landscapes A diachronic view allows us to study how landscapes were rewritten adapted and redefined in the course of time to suit new cultural political and religious understandings not to mention the impact of urbanism on people's understandings A key question is how was the landscape manipulated transformed and monumentalized especially the colossal investments in monumental architecture we see in certain socio historic contexts or the creation of an alternative humanmade seemingly non natural landscape with perfectly astronomically aligned buildings

that define a cosmological order Sacred Landscapes therefore aims to analyze the complex links between landscape religiosity and society developing a dialectic framework that explores sacred landscapes across the ancient world in a dynamic holistic contextual and historical perspective Wind Energy and Landscape C.F. Ratto,G. Solari,2020-08-26 Arising from an international workshop these papers discuss aspects of wind turbines and the landscape Topics Harmonization of wind turbines with landscape Visual and audio impact of wind turbines Interference with telecommunication Impact of wind turbines on birds Real experiences in different countries Offshore wind farms Wind turbines in coastal and mountainous areas Wind turbines thunderstorms and lightning Economic and social impact of wind turbines Insurance policies regarding wind turbines Greater public acceptance of wind turbines **Visual and Spatial Structure of Landscapes** Tadahiko Higuchi,1988-07-06 In this imaginative and generously illustrated book Tadahiko Higuchi applies a methodology to landscape that is similar to that developed by Kevin Lynch for investigating the extent to which urban settings are legible and imageable to their inhabitants He identifies features such as landmarks boundaries paths and nodes that enable people moving through a landscape to piece together a reliable mental map of their surroundings beginning with major structural elements and filling in with successively finer detail **Global Change and Terrestrial Ecosystems in Monsoon Asia** T. Hirose,B.H. Walker,2012-12-06 Forest vegetation is distributed in monsoon Asia continuously from boreal forests through temperate to tropical rain forests This vegetation the richest in the world is being subjected to global change on an unprecedented scale It has been predicted that boreal forests will experience the most significant change in response to global warming while tropical forests are endangered by rapid changes in land use due to high population pressure An increase in atmospheric CO2 concentration will severely affect ecosystem function in this area This volume presents a review of terrestrial ecosystems in monsoon Asia and assesses possible effects of global change on the structure and function of forest ecosystems and feedback routes to the global carbon cycle Audience Vital reading for plant ecologists vegetation scientists environmental managers and government decision makers Be a Creative Changemaker: A Kids' Art Activity Book Paula Liz,2024-01-16 Be a Creative Changemaker A Kids Art Activity Book introduces kids to 25 amazing artists through their biographies and hands on activities inspired by their work **Pursuing Practical Change** Heather Dean,Amber E. Wagnon,2024-02-27 Today s educators are aware of the need for social emotional learning in their classroom and can share the tenets of a culturally responsive pedagogy However what they lack is the practical strategies for implementation of these pivotal classroom practices Pursuing Practical Change Lesson Designs That Promote Culturally Responsive Teaching is an answer to this need This book goes beyond just providing theory and data but delves into the actual practices needed to be successful in today s classroom Within the chapters of this book both novice and veteran teachers will find support through the lesson plans of practitioners their reflections and various strategies for classroom instruction Ecological Responses to the 1980 Eruption of Mount St. Helens Virginia H. Dale,Frederick J.

Swanson, Charles M. Crisafulli, 2006-01-16 *Reconstructing Disturbance Succession and Forest Management The Science of Mount St Helens* When Mount St Helens erupted on May 18 1980 it did more than just reconstruct a large piece of Cascadian landscape It also led to dramatic revisions in our perspectives on disturbances secondary succession and forestry practices The Mount St Helens landscape turned out to be a far more complex place than the moonscape that it initially appeared to be Granted a large area was literally scoured and sterilized and that vast expanse of newly formed rock mud flows and avalanche debris up and down the mountain made the Mount St Helens landscape unique But I still remember my surprise when as I stepped out of the helicopter on first landing within the extensive devastated zone I saw hundreds of plants pushing their way up through the mantle of tephra Surviving organisms were stunning in their diversity abundance and the mechanisms by which they survived They persisted as whole organisms living below ground encased within late persisting snowbanks and buried in lake and stream sediments They survived as rhizomes transported along with the massive landslide that accompanied the eruption and as stems that suffered the abrasion of mud flows Mud flows oated nurse logs covered with tree seedlings and then redeposited them on the floor of a forested river terrace Millions perhaps billions of plants survived as rootstocks and rhizomes that pushed their way up through the tephra and others survived on the bases of uprooted trees

Landscape and the Environment Jane Bingham, 2006 In every part of the world in every generation the landscape and environment have fascinated and inspired artists They have expressed their feelings through paintings or altered their surroundings by making gardens or sculptures Whatever forms their creations have taken artists have managed to capture their visions of the environment for us to share This book explains how art styles have developed through time and how artists techniques add to our understanding of their work The subject of war and conflict is captured in a wide range of media including photography painting sculpture posters textiles and film The information to help interpret works of art and understand the time in history in which they were created are included in this book Cognitive Readiness in Project Teams

Carl Belack, Daniele Di Filippo, Ivano Di Filippo, 2019-02-21 Issues surrounding business complexity plague organizations throughout the world This situation is particularly true of the numerous complex projects and programs upon which organizations embark on a regular basis Current project management processes and standards are based on Newtonian Cartesian principles such as linearity reductionism and single source problem causation However complex projects exhibit both Newtonian Cartesian characteristics and complex systems characteristics such as emergence self organization non linearity non reductionism and multi source problem causation To conduct successful projects complementary ways of approaching projects are required and new competencies for those who manage projects and for those on project teams are required as well There are a number of books available to help project managers and teams address the issue of systems behavior However there are none that approach complex projects from a neuroscience based approach to human behavior and ambiguity This book does exactly that in order to reduce project complexity and thereby increase the probability of

project success Cognitive Readiness in Project Teams looks to the concept of cognitive readiness CR first developed by the United States Department of Defense to better prepare and manage teams of individuals in complex battlefield situations Its intent is to make project managers and teams more focused responsive resilient and adaptive through self mastery and the mastering of interpersonal relationships It introduces a CR framework for project managers and teams This framework has neuroscience fundamentals and theorems as the foundation for the three pillars of CR mindfulness emotional intelligence and social intelligence The book is a compendium of chapters written by renowned authors in the fields of project management neuroscience mindfulness and emotional and social intelligence
