forging immunization certificates Pox introduces us to memorable characters on both sides of the debate from Henning Jacobson a Swedish Lutheran minister whose battle against vaccination went all the way to the Supreme Court to C P Wertenbaker a federal surgeon who saw himself as a medical missionary combating a deadly and preventable disease As Willrich suggests many of the questions first raised by the Progressive era antivaccination movement are still with us How far should the government go to protect us from peril What happens when the interests of public health collide with religious beliefs and personal conscience In Pox Willrich delivers a riveting tale about the clash of modern medicine civil liberties and government power at the turn of the last century that resonates powerfully today

How the Other Half Lives Jacob A. Riis, 2011 Jacob Riis's famed 1890 photo text addressed the problems of tenement housing immigration and urban life and work at the beginning of the Progressive era David Leviatin edited this complete edition of How the Other Half Lives to be as faithful to Riis's original text and photography as possible Uncropped prints of Riis's original photographs replace the faded halftones and drawings from photographs that were included in the 1890 edition Related documents added to the second edition include a stenographic report of one of Riis's lantern slide lectures that demonstrates Riis's melodramatic techniques and the reaction of his audience and five drawings that reveal the subtle but important ways Riis's photographs were edited when they were reinterpreted as illustrations in the 1890 edition The book's provocative introduction now addresses Riis's ethnic and racial

stereotyping and includes a map of New York's Lower East Side in the 1890s. A new list of illustrations and expanded chronology questions for consideration and selected bibliography provide additional support. **U.S. History** P. Scott Corbett, Volker Janssen, John M. The Improbable First Century of Cosmopolitan Magazine James Landers, 2010-11-01. Today, monthly issues of Cosmopolitan magazine scream out to readers from checkout counters and newsstands. With bright covers and bold, sexy headlines, this famous periodical targets young single women aspiring to become the quintessential Cosmo girl. Cosmopolitan is known for its vivacious character and frank, explicit attitude toward sex, yet because of its reputation, many people don't realize that the magazine has undergone many incarnations before its current one, including family literary magazine and muckraking investigative journal, and all are presented in *The Improbable First Century of Cosmopolitan Magazine*. The book boasts one particularly impressive contributor: Helen Gurley Brown herself, who rarely grants interviews but spoke and corresponded with James Landers to aid in his research. When launched in 1886, Cosmopolitan was a family literary magazine that published quality fiction, children's stories, and homemaking tips. In 1889, it was rescued from bankruptcy by wealthy entrepreneur John Brisben Walker, who introduced illustrations and attracted writers such as Mark Twain, Willa Cather, and H.G. Wells. Then, when newspaper magnate William Randolph Hearst purchased Cosmopolitan in 1905, he turned it into a purveyor of exposé journalism to aid his personal political pursuits. But when Hearst abandoned those ambitions, he changed the magazine in the 1920s back to a fiction periodical featuring leading writers such as Theodore Dreiser, Sinclair Lewis, and William Somerset Maugham. His approach garnered success by the 1930s, but poor editing sunk Cosmo's readership as decades went on. By the mid-1960s, executives considered letting Cosmopolitan die, but Helen Gurley Brown, an ambitious and savvy businesswoman, submitted a plan for a dramatic editorial makeover. Gurley Brown took the helm and saved Cosmopolitan by publishing articles about topics other women's magazines avoided. Twenty years later, when the magazine ended its first century, Cosmopolitan was the profit center of the Hearst Corporation and a culturally significant force in young women's lives. *The Improbable First Century of Cosmopolitan Magazine* explores how Cosmopolitan survived three near-death experiences to become one of the most dynamic and successful magazines of the twentieth century. Landers uses a wealth of primary source materials to place this important magazine in the context of history and depict how it became the cultural touchstone it is today. This book will be of interest not only to modern Cosmo aficionados but also to journalism students, news historians, and anyone interested in publishing.

Daily Life in the Progressive Era Steven L. Piott, 2011-08-03. This book provides a historical examination of

The Progressive Era represented a tumultuous time for Americans as they attempted to come to terms with a rapidly emerging modern urban and industrial society and ultimately the dislocations caused by World War I. Steven L. Piott's *Daily Life in the Progressive Era* tells the story of how all Americans, black and white, women and men, rural inhabitants and urban residents, workers and employers, consumers and producers, contended with new cultural attitudes, persistent racial and class tensions, and the power struggles of evolving classes. This book provides a broad examination of American society between 1900 and 1920. Organized thematically, it covers rural and urban America, the changing nature of work, race relations, popular culture, citizen activism, and society during wartime. Appropriate for general readers as well as students of history, *Daily Life in the Progressive Era* provides an informed and compelling narrative history and analysis of daily life within the context of broad historical patterns.

The Year That Defined American Journalism W. Joseph Campbell, 2013-10-08. The Year that Defined American Journalism explores the succession of remarkable and decisive moments in American journalism during 1897, a year of significant transition that helped redefine the profession and shape its modern contours. This defining year featured a momentous clash of paradigms pitting the activism of William Randolph Hearst's participatory journalism of action against the detached, fact-based antithesis of activist journalism as represented by Adolph Ochs of the New York Times and an eccentric experiment in literary journalism pursued by Lincoln Steffens at the New York Commercial Advertiser. Resolution of the three-sided clash of paradigms would take years and result ultimately in the ascendancy of the Times counter-activist model, which remains the defining standard for mainstream American journalism. *The Year That Defined American Journalism* introduces the year study methodology to mass communications research and enriches our understanding of a pivotal moment in media history.
