Index Samuel Johnson, 1866 **John Donne in the Nineteenth Century** Dayton Haskin, 2007-06-21 In 1906 having been assigned Izaak Walton's *Life of Donne* to read for his English class a Harvard freshman heard a lecture on the long disparaged metaphysical poets Years later when an appreciation of these poets was considered a consummate mark of a modernist sensibility T S Eliot was routinely credited with having discovered Donne himself John Donne in the Nineteenth Century tracks the myriad ways in which Donne was lodged in literary culture in the Romantic and Victorian periods The early chapters document a first revival of interest when Walton's *Life* was said to be in the hands of every reader they explore what Wordsworth and Coleridge contributed to the conditions for the 1839 publication of the only edition ever called *The Works* which reprinted the sermons of Dr Donne Later chapters trace a second revival when admirers of the biography turning to the prose letters and the poems to supplement Walton discovered that his hero's writings entail the sorts of controversial issues that are raised by Browning by the fleshly school of poets and by self consciously decadent writers of the fin de siècle The final chapters treat the spread of the academic study of Donne from Harvard where already in the 1880s he was the anchor of the seventeenth century course to other institutions and beyond the academy showing that Donne's status as a writer eclipsed his importance as the subject of Walton's narrative which Leslie Stephen facetiously called the masterpiece of English biography William Congreve. Linden, 2014-07-11 The literary influence of alchemy and hermeticism in the work of most medieval and early modern authors has been overlooked Stanton Linden now provides the first comprehensive examination of this influence on English literature from the late Middle Ages through the sixteenth and seventeenth centuries Drawing extensively on alchemical allusions as well as on the practical and theoretical background of the art and its pictorial tradition Linden demonstrates the pervasiveness of interest in alchemy during this three hundred year period Most writers including Langland Gower Barclay Erasmus Sidney Greene Lyly and Shakespeare were familiar with alchemy and references to it appear in a wide range of genres Yet the purposes it served in literature from Chaucer through Jonson were narrowly satirical In literature of the seventeenth century especially in the poetry of Donne Herbert Vaughan and Milton the functions of alchemy changed Focusing on Bacon Donne Herbert Vaughan and Milton in addition to Jonson and Butler Linden demonstrates the emergence of new attitudes and innovative themes motifs images and ideas The use of alchemy to suggest spiritual growth and change purification regeneration and millenarian ideas reflected important new

emphases in alchemical medical and occultist writing This new tradition did not continue however and Butler's return to satire was contextualized in the antagonism of the Royal Society and religious Latitudinarians to philosophical enthusiasm and the occult Butler like Shadwell and Swift expanded the range of satirical victims to include experimental scientists as well as occult charlatans The literary uses of alchemy thus reveal the changing intellectual milieus of three centuries A
