Nottinghamshire Domesdays Phillimore

Simon Keith

Nottinghamshire Domesdays Phillimore:

Domesday Book John Morris, 1975 **Surveying the Domesday Book** Simon Keith, 2022-03-24 This is an analysis of the Domesday Book from the perspective of a surveyor and valuer Most of the logistical problems encountered by the Domesday surveyors are universal The main aim of this work is to calculate a timetable for the creation of the Domesday survey In order to do so it is necessary to analyze the text and to use reverse engineering to determine the survey's purpose what data was collected the volume of it and how it was used Clearly the purpose was fiscal because the text and the format of the data are not usable as either a land register or an estate management terrier The data captured are much more narrowly based than usually acknowledged It is land based and excludes the built environment It is not a complete record of either the agricultural workforce or livestock numbers Logistics indicate that the survey could not have been fully completed within the year of 1086 It is highly likely that substantial preparatory work had been done before the Christmas meeting in 1085 The final version in a single hand could not have been completed before King William's death in September 1087 The Domesday survey was a revaluation of the hidage assessment system using the same underlying concept and the same administrative machinery but updating the data and adding monetary values Although the survey provided a sound cadastre it was never used to collect tax directly It was therefore a fiscal failure Transforming Townscapes Neil Christie, 2017-12-02 This monograph details the results of a major archaeological project based on and around the historic town of Wallingford in south Oxfordshire Founded in the late Saxon period as a key defensive and administrative focus next to the Thames the settlement also contained a substantial royal castle established shortly after the Norman Conquest The volume traces the pre town archaeology of Wallingford and then analyses the town's physical and social evolution assessing defences churches housing markets material culture coinage communications and hinterland Core questions running through the volume relate to the roles of the River Thames and of royal power in shaping Wallingford's fortunes and identity and in explaining the town's severe and early decline **Transactions of the Thoroton Society of Nottinghamshire** Thoroton Society, 1898 List of members in each volume Decoding Domesday David Roffe, 2015 New light is shed on the motives and objectives for the compiling of the still mysterious Domesday Book revolutionising our understanding of the period The Domesday Book is one of our major sources for a crucial period of English history yet it remains difficult to interpret This provocative new book proposes a complete re assessment with profound implications for our understanding of the society and economy of medieval England In particular it overturns the general assumption that the Domesday inquest was a comprehensive survey of lords and their lands and so tells us about the economic underpinning of power in the late eleventh century rather it suggests that in 1086 matters of taxation and service were at issue and data were collected to illuminate these concerns What emerges from this is that Domesday Book tells us less about a real economy and those who sustained it than a tributary one with much of the wealth of England being omitted The source then is not the transparent datum that social and economic historians

would like it to be Inreturn however the book offers a richer understanding of late eleventh century England in its own terms and elucidates many long standing conundrums of the Domesday Book itself DAVID ROFFE is an honorary research fellow at Sheffield University He has written widely on Domesday Book and edited five volumes of the Alecto County Edition of the text

Wallingford K. S. B. Keats-Rohan, Neil Christie, David Roffe, 2015 Medieval castles are as Professor Liddiard states in his Foreword to this volume evocative monuments and perhaps more than any other building capture the ideals of the Middle Ages This idealization and romanticism of castles however can often obscure their histories as functioning dwellings fortresses and political and social centres Wallingford Castle in Oxfordshire is a prime example of a structure with a rich history Its importance lies in its strategic position on the Thames allowing it to serve as a vital stronghold during conflicts and a royal residence in more peaceful times This volume is a product of the Wallingford Burh to Borough Research Project 2008 2010 a collaborative project between the Universities of Leicester Exeter and Oxford It contains reports of excavations undertaken at the castle and its town excavated between the 1960s and today The results of the archaeological investigations are contextualized using contemporary documents and accounts of the castle such as surveys and rent agreements Combining the text and material evidence the contributions to this volume provide a detailed narrative of the history of the site from its construction to its destruction as well as helpful contextual sections on English history and medieval castles Also included are sections on excavations at the castle at the nearby town of Oxford and the priory at Wallingford The text is accompanied by colour photographs drawings plans maps and transcripts of the Medieval and Tudor documents This volume accompanies *The Origins of the Borough of Wallingford Archaeological and historical perspectives* edited by K S B Keats Rohan and D R Roffe in 2009 BAR 494 and *Transforming Townscapes From burh to borough the archaeology of Wallingford AD 800 1400* edited by N Christie and O H Creighton in 2013 published by the Society for Medieval Archaeology

Memorials of Old Nottinghamshire Everard Leaver Guilford, 1912 *Domesday Now* David Roffe, K. S. B.

Keats-Rohan, 2016 Essays into numerous aspects of the Domesday Book shedding fresh light on its mysteries Compiled from the records of a survey of the kingdom of England commissioned by William the Conqueror in 1085 Domesday Book is a key source for the history of England However there has never been a critical edition of the text and so despite over 200 years of intense academic study its evidence has rarely been exploited to the full The essays in this volume seek to realize the potential of Domesday Book by focussing on the manuscript itself There are analyses of abbreviations letter forms and language re assessments of key sources the role of tenants in chief in producing them and the nature of the Norman settlement that their forms illuminate a re evaluation of the data and its referents and finally fresh examinations of the afterlife of the Domesday text and how it was subsequently perceived In identifying new categories of evidence and revisiting old ones these studies point to a better understanding of the text There are surprising insights into its sources and developing programme and intriguingly a system of encoding hitherto unsuspected In its turn the import of its data becomes

clearer thereby shedding new light on Anglo Norman society and governance It is in these terms that this volume offers a departure in Domesday studies and looks forward to the resolution of long standing problems that have hitherto bedevilled the interpretation of an iconic text David Roffe and K S B Keats Rohan are leading Domesday scholars who have published widely on Domesday Book and related matters Contributors Howard B Clarke Sally Harvey K S B Keats Rohan Andrew Lowerre John Palmer David Roffe Ian Taylor Pamela Taylor Frank Thorn Ann Williams **Men of Nottingham and Nottinghamshire** Robert Mellors, 1924 **Domesday Names** K.
