highly colourful life and work The essays focus primarily on his most celebrated plays these include the Naturalist Dramas The Father and Miss Julie the experimental dramas with which he created a true modernist theatre To Damascus and A Dream Play and the Chamber Plays of 1908 which like so much of his work exerted a powerful influence on much later twentieth century drama His plays are contextualised for what they contribute both to the history of drama and developments in theatre practice and other essays clarify the enormous importance to these dramas of his other work most notably the autobiographical novel Inferno and his lifelong interest in science the occult sexual politics and the visual arts *The Continental Novel* Louise S. Fitzgerald, Elizabeth I. Kearney, 1983 *The Novel-Essay, 1884-1947* S. Ercolino, 2014-04-08

The novel essay emerged in France in the last quarter of the nineteenth century and reached its highest formal complexity in Austria and Germany during the interwar period Here Ercolino argues that it is crucial for a renovated understating of the history of the novel in modernity **Following the Animal** Ann-Sofie Lönngren, 2015-09-10 Literary transformations from human to animal have occurred in myths folklore fairy tales and narratives from all over the world since ancient times and have always provided a narrative space for depictions of power agency and the radical nature of change In *Following the Animal* these transformations are analysed with regards to their use in modern literature from northern most Europe with specific attention being paid to the insights they provide regarding the human animal relationship both generally in the industrialized West and against the background of more specific circumstances in the Nordic area In three analytic chapters focusing respectively on Swedish author August Strindberg's novel *Tschandala* 1887 Finnish author Aino Kallas's novel *The Wolf's Bride* 1928 and Danish author Karen Blixen Isak Dinesen's short story *The Monkey* 1934 along with discussions of a range of other authors and texts the reader is introduced to several traditions of literary production that both connect to and differ from Anglophone and other literature in fascinating ways In addition to the insights it provides concerning the uses of human animal transformations in modern Nordic literature and their significance in relation to the question of the animal *Following the Animal* also offers literary scholars and students alike a series of useable and transferable strategies for approaching texts from a more than anthropocentric human animal studies perspective In phrasing and employing the interpretational method of following the animal over the text's surface up metaphorical elevations down material wormholes and in constant dialogue with previous research this book contributes greatly to both human animal literary studies specifically and to the field of literary scholarship generally in both an international and northern European context *The 20th Century O-Z* Frank N. Magill, 2013-05-13 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's

Locating August Strindberg's Prose Anna Westerståhl Stenport, 2010-01-01 The setting of a novel is more than just an anonymous interchangeable backdrop In Locating August Strindberg s Prose Anna Westerståhl Stenport argues that spatial setting is a key though often neglected tool for exploring the fundamentals of European literary modernism Stenport examines the importance of location by exploring the prose of Swedish exile August Strindberg 1849 1912 challenging previous studies of the author that have focused on identity and subject formation Strindberg wrote in both

Swedish and French situating his stories in various places across Europe from Berlin to the French countryside the Austrian Alps and Stockholm to purposely destabilize concepts of national belonging language and literary history Close readings of Strindberg s prose find that his boundary challenging narratives redefine and rewrite the meaning of a marginal literary identity By contextualizing Strindberg against other early modernists including Kafka Conrad Rilke and Breton Stenport emphasizes the burgeoning transnationality of literature at the turn of the last century
