OLD TESTAMENT BIBLICAL THEOLOGY

PART ONE: THE MOSAIC EPOCH OF REVELATION

INTRODUCTION: THE NATURE AND METHOD OF BIBLICAL THEOLOGY

- I. Definition of theology in general: Theology is the science concerning God.
- II. Theology is necessarily based on revelation:
 1. A spiritual, personal being is hidden, and cannot be known except He reveals Himself.
 2. God is not only spiritual and personal, but also a being infinitely above our conceptions.
 3. Originally God existed alone and was known to Himself alone.
 4. Abnormal state of man because of sin.
- III. Exegetical theology comprises:
 1. The study of actual content of Scriptures
 2. Introduction
 3. Canonics
 4. Biblical theology
- IV. Definition: Biblical theology is that branch of exegetical theology which deals with the process of the self-revelation of God deposited in the Bible.
- V. The main features of revelation are:
 1. The historic progressiveness of the revelation process, unfolding itself in successive acts, because of its being linked with redemption.
 2. The actual embodiment of revelation in history.
 3. The organic nature of the historic progress observable in revelation.
 4. Its practical adaptability.
- VI. The various things designated by the name Biblical theology:
 1. A study of the proof texts used in systematic theology.
 2. As used by Pietists in protest to Scholasticism.
 3. Gabler used it first as a historical process (rationalistic).
 4. The influence of evolution on Biblical theology
 - a. Said to be development from falsehood to truth.
 - b. Belongs to positivism, teaching that only phenomena can be known.
- VII. Guiding principles for Biblical theology:
 1. A recognition of the infallibility of revelation.
 2. A recognition of the objectivity of the groundwork of revelation.
 3. A recognition of the question of inspiration.
- VIII. Objections to the name Biblical theology:
 1. Too broad, for all theology rests on the Bible.
 2. Causes confusion among the four great branches of theology.
- IX. The relation of Biblical theology to other disciplines:
 1. To Biblical history.
 - a. Biblical history - redemption - sphere of being

Biblical Theology in Outline Klaus Nürnberger, 2004 The Bible is not a system of theological propositions but a series of witnesses to God's redemptive acts in response to need Recurring motifs such as the exodus covenant or messianic king have emerged in response to need and been adapted in different situations of need This process culminates in the Christ event

God and His Image Jean-Dominique Barthelemy, 2007 Fr Barthelemy was an internationally recognized expert on Old Testament studies and a member of the Pontifical Biblical Commission In this work he dispenses with the technical language of exegesis and linguistics and speaks theologically as a priest a teacher a believer This work is an introduction to the spiritual teaching of the Old Testament and can greatly help believers to hear that renewing and rejuvenating Word of God with deepened understanding This is a book about God and man It is also about the long history of God's search for man and the difficulty man had in keeping intact the divine image in which he was created The purpose of this book is to present what God says about Himself and about His image man in the inspired texts of Scripture This powerful work by an acclaimed Biblical and spiritual writer can enkindle the heart and enlighten the mind of modern man to see who we truly are in God's eyes and help us to understand the full extent of our deep need for God to become his faithful followers and images once again
