Manufacturing the News Mark Fishman, 2014-11-17 There is little argument that mass media news projects a particular point of view The question is how that bias is formed Most media critics look to the attitudes of reporters and editors the covert news policy of a publisher or the outside pressures of politicians and advertisers Manufacturing the News takes a different tack Mark Fishman's research shows how the routine methods of gathering news rather than any hidden manipulators determine the ideological character of the product News organizations cover the world mainly through beats which tend to route reporters exclusively through governmental agencies and corporate bureaucracies in their search for news Crime for instance is covered through the police and court bureaucracies local politics through the meetings of the city council county commissioners and other official agencies Reporters under daily deadlines come to depend upon these organizations for the predictable steady flow of raw news material they provide It is part of the function of such bureaucracies to transform complex happenings into procedurally defined cases Thus the information they produce for newswriters represents their own bureaucratic reality Occurrences which are not part of some bureaucratic phase are

simply ignored Journalists participate in this system by publicizing bureaucratic reality as hard fact while accounts from other sources are treated as unconfirmed reports which cannot be published without time consuming investigation Were journalists to employ different methods of news gathering Fishman concludes a different reality would emerge in the news one that might challenge the legitimacy of prevailing political structures But under the traditional system news reports will continue to support the interests of the status quo independently of the attitudes and intentions of reporters editors and news sources

Murder in Our Midst Romaine Smith Fullerton, Maggie Jones Patterson, 2021 As immigration technological change and globalization reshape the world journalism plays a central role in shaping how the public adjusts to moral and material upheaval This in turn raises the ethical stakes for journalism In short reporters have a choice in the way they tell these stories They can spread panic and discontent or encourage adaptation and reconciliation In *Murder in Our Midst* Romaine Smith Fullerton and Maggie Jones Patterson compare journalists crime coverage decisions in North America and select Western European countries as a key to examine culturally constructed concepts like privacy public right to know and justice Drawing from sample news coverage national and international codes of ethics and style guides and close to 200 personal interviews with news professionals and academics they highlight differences in crime news reporting practices and emphasize how crime stories both reflect and shape each nation s attitudes in unique ways *Murder in Our Midst* is both an empirical look at varying journalistic styles and an ethical evaluation of whether particular story telling approaches do or do not serve the practice of democracy

Harry Reasoner Douglass K. Daniel, 2009-12-03 Harry Reasoner was one of the most trusted and well liked journalists of the golden age of network television news Whether anchoring the evening newscast on CBS in the 1960s or on ABC in the 1970s providing in depth reporting on 60 Minutes or hosting numerous special programs covering civil rights struggles the Vietnam War and Watergate Reasoner had that almost mystical quality it seems to take for good television reporting exuding this atmosphere of truth and believability in the words of Walter Cronkite Yet his reassuring manner and urbane often witty on air persona masked a man who was far more complex and contradictory Though gifted with the intelligence and drive to rise to the top of his profession Reasoner was regarded by many colleagues as lazy and self indulgent a man who never achieved his full potential despite his many accomplishments Harry Reasoner A Life in the News covers the entire sweep of this enigmatic journalist s life and career Douglass K Daniel opens with Reasoner s Depression era Midwestern upbringing and follows him through his early work in newspapers and radio before he joined CBS in 1956 Focusing on Reasoner s thirty five year tenure in television news Daniel presents fascinating behind the scenes accounts of Reasoner s key role in founding the top rated newsmagazine 60 Minutes He also explores Reasoner s highly publicized move to ABC in 1970 where he anchored the nightly newscast first with Howard K Smith and later with Barbara Walters a disastrous pairing from which Reasoner s career never fully recovered Based on scores of interviews and unpublished letters memos and other primary sources this first biography of the man once rated second in credibility only to

Drugs were trucked along the highways of the Cocaine Trail to every city in America. This influx of a deadly new drug led directly to a series of record deaths from overdoses, suicides and crime-related murders, family breakdowns and destroyed lives. Drugs are credited with driving the highest homicide rates in American history and a raging turf war between street gangs. Crack cocaine unleashed a brutal era of violence, placing newspapers under enormous pressure to provide coverage. Relations with police were breaking down everywhere and crime coverage was in its death throes. Newspapers could not cover the homicides or give any context or explanations to such a social upheaval. Editors, reporters and police now reveal the shocking truth behind this agonizing episode in American history when crime reporters had to reinvent journalism to get behind the police blue code. This book combines investigative journalism and narrative style to produce a rare portrait from within the secret inner world of newspapers.

Ethics in Journalism Ron Smith, 2011-08-24 The reputation of journalists is continually being questioned. Nearly every public opinion poll shows that people have lost respect for journalists and lost faith in the news media. In this fully updated and expanded 6th edition of *Ethics in Journalism*, author Ron F. Smith provides a highly readable introduction to journalism ethics and offers solutions for the many ethical dilemmas facing journalists today. Utilizes dozens of new case studies, mostly taken from everyday experiences of reporters at both large and smaller newspapers and TV stations. Explores the practical ethical issues involved in developing sources, coming to terms with objectivity and bringing compassion to the pressures of journalism. Considers the impact of blogs and the internet on traditional values of journalism. Compares journalistic practices across different free societies.

The Other Half Tom Buk-Swienty, 2008 A portrait of the late nineteenth-century social reformer draws on previously unexamined diaries and letters to trace his immigration to America, work as a police reporter for the *New York Tribune*, and pivotal contributions as a muckraker and progressive.

The Language of Crime and Deviance Andrea Mayr, David Machin, 2011-12-15 There is now a long tradition of academic literature in media studies and criminology that has analysed how we come to think about crime, deviance and punishment. This book, for the first time, deals specifically with the role of language in this process, showing how critical linguistic analysis can provide further crucial insights into media representations of crime and criminals. Through case studies, the book develops a toolkit for the analysis of language and images in examples taken from a range of media. *The Language of Crime and Deviance* covers spoken, written and visual media discourses and focuses on a number of specific areas of crime and criminal justice, including media constructions of young people and women, media and the police, reality crime, shows, corporate crime, prison and drugs. It is therefore a welcome and valuable contribution to the fields of linguistics, criminology, media and cultural studies.

How the Sun Lost Its Shine Elaine Tassy, 2010 *How the Sun Lost Its Shine: A Newsroom Memoir* is an award-winning journalist Elaine Tassy's no-holds-barred account of her four years working as a reporter at *The Baltimore Sun*. As one of few black female staff writers, she noticed and spoke out about the vast differences she saw in how editors, mostly white and male, utilized reporters and how they covered local news decisions, often seemingly

based on race class and gender With humor brutal honesty statistics from the Sun s website and references to scholarly works Tassy describes dozens of workplace experiences and the ensuing consequences both physical and emotional to being a Job Socialization Failure She gives evidence that should both comfort and support those who face unanticipated office politics while offering an eye opening reality check to professionals entering the workplace under the impression that their gender race age and willingness to challenge authority will not influence their working life Book jacket *Catalog of Copyright Entries.
