Mueller, 2014-04-08 First Published in 1992 This is a collection of eight articles looking at consociationalism in the Austrian political system Areas covered are the decline of the Lager Mentality parties and the party system governmental institutions changing priorities in Austrian economic policy Austria in the European arena and the success of consociationalism *Political Culture in the Baltic Sea Area and in Eastern Europe* Walter Rothholz, 2003 **The Cumulative Book Index**, 1992 A world list of books in the English language Bibliographie Internationale de Science Politique, 1990 Polish Political Science, 1991 **The American Bibliography of Slavic and East European Studies** Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology *Prospects for Constitutionalism in Post-Communist Countries* Levent Gönenç, 2002-06-01 The last decade of the 20th century saw radical changes in Eastern Europe and the former USSR Most of these countries made a transition from totalitarianism or authoritarianism to democracy and from central planning to a market economy Adding to the latter a number of national entities gained their independence after the disintegration of the federative states of the USSR Yugoslavia and Czechoslovakia Many recent studies have focused on these double in some cases triple transitions and scholars from different fields analyzed the so called 1989 Revolution from different perspectives Rather less scholarly attention has been paid to the future of post communist constitutions and prospects for constitutionalism in these countries The main questions dealt with throughout this study can be formulated as follows Will liberal democratic constitutionalism take root in these countries Will new constitutions in Eastern Europe and the former USSR perish or survive This study also aims at contributing to the construction of a general constitutional theory by studying the causes and dynamics of constitutional change in general Such constitutional change is not only on the East European but also on the West European agenda The purpose of this study is not to introduce a general theory about constitutional in stability but studying post communist constitutions will help us to understand the causes and dynamics of constitutional change from a broader perspective The Global Political Economy and Post-1989 Change E. Ashworth, 2000-08-03 This book examines the effect of post Soviet transitions on current problem solving trends with regards

to world capitalism The fall of Soviet communism left liberal capitalism as the dominant blueprint from which to construct economic development policies Using Central Europe as an example it is shown that the application of the Western liberal capitalist model has not been without its difficulties This book endeavours to place the changes to the global political economy since 1989 in a theoretical and historical context *The Polish Revolution and the Catholic Church, 1788-1792* Richard Butterwick, Richard Butterwick-Pawlikowski, 2012 The Polish Revolution cast off the Russian hegemony that had kept the Polish Lithuanian Commonwealth impotent for most of the eighteenth century Before being overthrown by the armies of Catherine the Great the Four Years Parliament of 1788-92 passed wide ranging reforms culminating in Europe's first written constitution on 3 May 1791 In some respects its policies towards the Catholic Church of both rites Latin and Ruthenian were more radical than those of Joseph II and comparable to some of those adopted in the early stages of the French Revolution Policies included taxation of the Catholic clergy at more than double the rate of the lay nobility the confiscation of episcopal estates the equalization of dioceses and controversial concessions to Orthodoxy But the monastic clergy escaped almost unscathed A method of explaining political decisions in a republican polity is developed in order to show how and why the Commonwealth went to the verge of schism with Rome in 1789-90 before drawing back Pope Pius VI could then bless the mild revolution of 3 May 1791 which Poland's clergy and monarch presented to the nobility as a miracle of Divine Providence The stresses would be eclipsed by dechristianization in France the dismemberment of the Commonwealth and subsequent incarnations of unity between the Catholic Church and the Polish nation Probing both high politics and political culture Richard Butterwick draws on diplomatic and political correspondence speeches pamphlets sermons pastoral letters proclamations records of local assemblies and other sources to explore a volatile relationship between altar throne and nobility at the end of Europe's Ancien Régime Totalitarian and Authoritarian Regimes in Europe Jerzy W. Borejsza, Klaus Ziemer, Magdalena Hułas, Niemiecki instytut historyczny (Varsovie), 2006 Based on a conference organized by the Institute of History of the Polish Academy of Sciences and the German Historical Institute Warsaw held in Sept 2000 **A History of Modern Political Thought in East Central Europe** Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016 The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe **Crises of Political Development in Europe and the United States. (SPD-9)** Raymond Grew, 2015-03-08 As the last volume in the series sponsored by the SSRC Committee on Comparative Politics this book reflects as does the preceding volume the Committee's decision to devote renewed attention to the original state building experiences of the West after having studied political development in the newer countries of the Third World The contributors attempt to discern patterns of historical change in the different sequences of crises that affect all states in their development Following an introductory and theoretical statement by Raymond Grew each chapter focuses on a different country or area Each of these essays applies and evaluates the Committee's concept of crises of development i.e. crises of identity legitimacy

[Finding Order in Diversity](#) Scott Berg, 2022-03-15 Finding Order in Diversity Religious Toleration in the Habsburg Empire 1792 1848 covers the tumultuous period in the Habsburg Empire from Joseph II's failed reforms through the Revolutions of 1848 documenting the ongoing struggle between religious activism and civil peace In the name of stability the Habsburg Empire sidelined Catholic activists and promoted religious toleration during this era in which Austria was an international symbol of conservatism and other states engaged in strident confessional politics Austria's well known fear of disorder and revolution in this notoriously conservative regime extended to Catholics and the state utilized the censors and police to institutionalize religious toleration which it viewed as essential to law and order and to tame religious passions which officials feared could mobilize public opinion in unpredictable directions The state's growing use of police power had wide reaching consequences for refugees women and empire building By the end of the nineteenth century the Habsburg Empire would become known as a multinational and multicultural state but this toleration was the product of the infamously conservative and rigid regime that ruled Austria in the decades after the French Revolution and until the Revolutions of 1848 While the Habsburgs typically are associated with Catholicism 1780 to 1848 marked the only era in which the Habsburgs tried to disassociate themselves politically from Catholicism Though civil peace and religious toleration eventually became the norm this book documents the decades of heavy handed state efforts to get there

Political Democracy and Ethnic Diversity in Modern European History André Gerrits, Dirk Jan Wolffram, 2005 This is the first volume in which the fate of democracy is directly related to ethnic diversity It highlights the crucial episodes in modern European political history and shows in what sense ethnic diversity was of vital importance

A History of the European Restorations Michael Broers, Ambrogio A. Caiani, 2019-11-14 Europe's Restorations were characterised by their evolving dialectics The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective From the re ordering of the European world through the tools of intervention occupation and diplomacy to the creation of new constitutional monarchies across France Scandinavia and Germany the volume outlines the processes that realigned national priorities and the

accompanying dynamics of social and political identity In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post Napoleonic Europe this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations

Conscious History Natalia Aleksion, 2021-07-08 Thoroughly researched this study highlights the historical scholarship that is one of the lasting legacies of interwar Polish Jewry and analyses its political and social context As Jewish citizens struggled to assert their place in a newly independent Poland a dedicated group of Jewish scholars fascinated by history devoted themselves to creating a sense of Polish Jewish belonging while also fighting for their rights as an ethnic minority The political climate made it hard for these men and women to pursue an academic career instead they had to continue their efforts to create and disseminate Polish Jewish history by teaching outside the university and publishing in scholarly and popular journals By introducing the Jewish public to a pantheon of historical heroes to celebrate and anniversaries to commemorate they sought to forge a community aware of its past its cultural heritage and its achievements though no less important were their efforts to counter the increased hostility towards Jews in the public discourse of the day In highlighting the role of public intellectuals and the social role of scholars and historical scholarship this study adds a new dimension to the understanding of the Polish Jewish world in the interwar period

Dilemmas of Democracy and Dictatorship Michael Radu, The phenomenon of globalization applies to political violence as well as to more benign aspects of life Most people in the West as well as the Third World politicians and media included are still missing this point As a result they are failing to adapt to the new realities unlike their enemies *Dilemmas of Democracy and Dictatorship* is a collection of essays Radu has published over the past decade Some are opinion pieces others are academic articles The topics include political violence and terrorism in general and in specific areas Latin America the Balkans Turkey Sub Saharan Africa Western and Eastern Europe Radu discusses the causes and methods of contemporary terrorism the process of state decay in some African countries and mentalities and absurdities in Latin and Balkan politics He also points out Western European illusions delusions and attitudes and reviews American policy and confusion in dealing with the Third World At times the analysis is political other times military and often it is sociological or psychological In the author's words he is always politically incorrect The approach is multidisciplinary What ties these disparate essays together is Radu's personal experience both as a field researcher and in a few cases as a participant in ongoing events and his personal idiosyncrasies opinions and perception of areas visited These essays clearly demonstrate that in the face of globalization the world is not a village but a conglomerate of differences This volume will be of particular interest to students of political violence insurgency guerrilla warfare and Third World politics journalists and policymakers Michael S Radu is senior fellow and co chairman of the Center on Terrorism at the Foreign Policy Research Institute in Philadelphia Educated in communist Romania and at Columbia University he has taught in the United States and South Africa He has traveled to over forty countries doing
