Fénelon**

Political Memoranda:

The Political Memoranda, Now First Printed from the Originals in the British Museum Francis Godolphin Osborne duke of Leeds, 1884 *The Political Memoranda of Francis Fifth Duke of Leeds* Francis Godolphin Osborne Duke of Leeds, 1884 *Moral and Political Writings* François de Salignac de La Mothe- Fénelon, 2020 Fénelon is arguably one of the most neglected major philosophers of early modernity His political masterwork was the most read book in eighteenth century France after the Bible and yet today even specialists rarely engage his work directly This problem is particularly acute in the Anglophone world where only a small fraction of Fénelon's vast and influential corpus has appeared in modern English translation This collection of new translations of Fénelon's moral and political writings renders one of the leading voices of early modern philosophy accessible to English language audiences Reflecting the impressive breadth of Fénelon's thought the volume includes work on topics ranging from education to literature to religion and statecraft In the realm of political philosophy and ethics Fénelon was an uncompromising critic of Louis XIV and absolutism committed to reforming France's social political and economic institutions In the Enlightenment he came to be celebrated as a pioneering theorist of education and rhetoric a prescient student of economics and international relations and a key voice in the philosophical debates among the heirs of Descartes not to mention his fame as one of the seventeenth century's most preeminent theologians and spiritualists and masters of French prose With an extensive introduction to Fénelon's life and work this volume is a critical resource for students and scholars of French history political philosophy economics education literature and religion

Political Memoranda Frederick John Dealtry Lugard, 1970 *The Johns Hopkins University Studies in Historical and Political Science* Johns Hopkins University, 1910 *The Roots of Political Instability in Nigeria* E.C. Ejiogu, 2016-02-24 The constant drumbeat of headlines about Darfur Zimbabwe Sudan Somalia as well as the other states in Africa that are beleaguered by political instability have made the causes of failed states and intra state political conflicts a major issue both academic and practical Using Harry Eckstein and Ted R Gurr's congruence consonance theoretical framework of regime classification E.C. Ejiogu examines the internal variations of society evident in the Nigerian state to explain why the country experiences political conflict and instability The first time this theoretical framework has been applied to an African country E.C. Ejiogu offers a balanced and interdisciplinary analysis of the evolution in the Nigerian political system and the role played by evolved social traits in society Exploring themes such as colonial rule and legacies economic development political authority and religion Ejiogu insists that it is critical to examine Africa's diverse nationalities in terms of their geography social economic and authority patterns as critical elements that are disregarded in accounts of their political development At a time when the question of state building in Africa is still unresolved this timely book is a major contribution to the literature on transition processes in African politics and is particularly relevant to scholars and policy makers wanting to grapple with the issues associated with Africa's political disorder and the other social problems it spawns **The Holstein Papers:**

Volume 1, Memoirs and Political Observations Friedrich von Holstein, 1955-01-02 The first volume of Friedrich von Holstein's work containing his memoirs and political observations including Bismarck and the Franco Prussian war

The Political Philosophy of Fénelon Ryan Patrick Hanley, 2020-02-20 Fénelon was a nuanced and influential diagnostician of the ills of European society one who carefully analysed phenomena as wide ranging and complex as egocentrism authoritarianism and imperialism Despite his influence there has been to date no interpretive monograph in English devoted specifically to his thought Ryan Patrick Hanley aims to correct this oversight providing the first book length interpretative study of Fénelon's writings to appear in English A companion volume to Hanley's comprehensive English translation of Fénelon's moral and political writings this book focuses on Fénelon's political thought as a method of understanding his impact on areas ranging from economics and statecraft to religion and literature Hanley begins by reconstructing Fénelon's political ideas for those who may be encountering his work directly or at length for the first time He then articulates the connections between Fénelon's political thought and several other fields to which he made significant and long recognized contributions including not only philosophy and political science but also economics education literature theology and spirituality Building from this foundation Hanley constructs a new understanding and appreciation of Fénelon's political thought and its significance He argues that Fénelon is better understood as a moderate and modern thinker rather than as a radical or reactionary and that Fénelon deserves to be seen not merely as a political thinker but as a political philosopher one whose work has direct relevance to our political world today

Political Memoranda, 1970

Max Weber's Complete Writings on Academic and Political Vocations Max Weber, 2008 Annotation This is the first edition in any language of all of Max Weber's writings on academic and political vocations The translation is new and liberally annotated including a look at Weber's personality and what it was that made him such a phenomenon Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation *Wissenschaft als Beruf* 1917 and Politics as a Vocation *Politik als Beruf* 1919 as well as in a series of newspaper articles including those written between 1908 and 1920 Since these writings are of more than historical interest there was a need to bring them all together in a single volume Newly translated and annotated this collection comprises both lectures plus 32 articles which Weber wrote on academia Most of these have not been translated before In the Introduction Prof John Dreijmanis relates the academic and political vocations to each other conceptually showing that there is considerable overlap and some convergence the need for passion an inward calling as well as career insecurity both vocations Dreijmanis then examines the person of Weber and provides a new view of him in part through the lens of Carl C Jung's theory of psychological types as further developed by the Myers Briggs Type Indicator MBTI As an extravert with a powerful thinking function and intellect he was driven to take an interest in events outside himself and to speak his mind Coming after a long line of introverted German philosophers he was a phenomenon The new translations by Gordon C Wells are more faithful to Weber's style of expression and they correct an
