Principles of Anthropology Eliot Dismore Chapple, Carlton Stevens Coon, 1947 *Principles of Anthropology* Eliot Dismore Chapple, Carleton Stevens Coon, 1953 *Soziologie Anthropologie* **Principles of Anthropology** Eliot Dismore Chapple, 1961 *Principles of Visual Anthropology* Paul Hockings, 2012-05-18 This edition contains 27 articles written by scholars and film makers who are generally acknowledged as the international authorities in the field. The book covers ethnographic filming and its relations to the cinema and television applications of filming to anthropological research the uses of still photography archives and videotape subdisciplinary applications in ethnography archeology bio anthropology museology and ethnohistory and overcoming the funding problems of film production The Principles of Anthropology and Sociology in Their Relations to Criminal Procedure Maurice Parmelee, 1917 **The Principles of Anthropology and Sociology in Their Relations to Criminal Procedure** Maurice Parmelee, 1908 *The Principles of Anthropology, and Sociology in Their, Relations to Criminal Procedure* Maurice Parmelee, 2015-06-02 Excerpt from The Principles of Anthropology and Sociology in Their Relations to Criminal Procedure The recent progress of civilization has caused few greater changes than in the treatment of the criminal. It is scarcely more than a century since criminals were treated with the greatest cruelty. Torture was frequently used to extort confessions and many of the penalties inflicted were most brutal. But the eighteenth century philosophers inspired by a humanitarian feeling protested against these abuses as they did against every form of inhumanity. This protest combined with other forces resulted in the abolition of torture in most civilized countries and in making punishment much more humane. The power of judges which had been very arbitrary was greatly restricted and penalties are now inflicted only under the sanction of the penal code. The work of the nineteenth century along these lines therefore has been to render the treatment of the criminal humane and to subject it to a strict regime of law. In the latter part of the nineteenth century a new science of criminology has been developed. This science is divided into two branches criminal anthropology and criminal sociology. Höffe's work like that of his contemporary Jürgen Habermas brings into relief the relevance of these German discussions to their counterparts in English language circles. In this book originally published in Germany in 1990 and

expanded since Hffe proposes an extended and original interpretation of Kant philosophy of law and social morality Hffe articulates his reading of Kant in the context of an account of modernity as a polyphonous project in which the dominant themes of pluralism and empiricism are countered by the theme of categorically binding moral principles such as human rights Paying equal attention to the nuances of Kant s texts and the character of the philosophical issues in their own right Hffe ends up with a Kantianism that requires rather than precludes a moral anthropology and that questions the fashionable juxtaposition of Kant and Aristotle as exemplars of incompatible approaches to ethical and political thought The American Political Science Review Westel Woodbury Willoughby, John Archibald Fairlie, Frederic Austin Ogg, 1909 Freedom and Criminal Responsibility in American Legal Thought Thomas Andrew Green, 2014-10-27 As the first full length study of twentieth century American legal academics wrestling with the problem of free will versus determinism in the context of criminal responsibility this book deals with one of the most fundamental problems in criminal law Thomas Andrew Green chronicles legal academic ideas from the Progressive Era critiques of free will based and generally retributive theories of criminal responsibility to the midcentury acceptance of the idea of free will as necessary to a criminal law conceived of in practical moral legal terms that need not accord with scientific fact to the late in century insistence on the compatibility of scientific determinism with moral and legal responsibility and with a modern version of the retributivism that the Progressives had attacked Foregrounding scholars language and ideas Green invites readers to participate in reconstructing an aspect of the past that is central to attempts to work out bases for moral judgment legal blame and criminal punishment Academic Study of Religions in a Cognitive, Anthropological and Sociological Perspective Tomáš Bubík, Jakub Havlíček, Silvie Kotherová, Dušan Lužný, Rudolf Havelka, 2021 The book deals with current issues of the study of religion as an academic discipline especially cognitive anthropological and sociological research of religious thought and behaviour Publikace pojedn v o aktu ln ch probl mech religionistiky jako akademick discipl ny zejm na pak o kognitivn m antropologick m a sociologick m v zkumu n bo ensk ho my len a chov n The Handbook of Economic Sociology Neil J.
