The Printing of Greek in the Fifteenth Century Robert Proctor, 1901 Printing Presses Michael N. Nagler, James Moran, Alois Maria Nagler, Professor Michael N Nagler, 1974-01-01 This book the most comprehensive of its kind surveys the history of the relief printing press and machine from its inception as an adaptation of a domestic screw press in the middle of the fifteenth century to the giant fast rotary presses of today It covers every type of press including some to which hitherto little attention has been paid Each group is described together with information on performance and with specific examples of use c Book flap Printing and Publishing in Fifteenth-century Venice Leonardas Vytaitis, 1976 **The Printing of Greek in the Fifteenth Century** Robert Proctor, Joseph Pennell, Elizabeth Robins Pennell Collection DLC, 2015-09-01 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Printing of Greek in the Fifteenth Century (Classic Reprint)** Robert Proctor, 2015-07-06 Excerpt from *The Printing of Greek in the Fifteenth Century* I cannot let this book go forth without an apology to my readers in that I have ventured to attempt a work dealing to a very large extent with technical details without that knowledge of printing which can only be acquired by practical experience In this respect I owe much to the kindness of Mr Horace Hart the Controller of the Oxford University Press who made many obscure points clear to me by ocular demonstration The greatest care has been taken to make the illustrations facsimiles as exact as possible but it will often be found that minute indications to which I have drawn attention in the text are not visible in the reproductions I must ask those who wish to study the matter closely to turn to the originals in these instances and to remember that in the first printed books Greek type generally printed with an exceptional lack of sharpness and that since even the best process blocks magnify and harden any defect due to imperfection of inking or

presswork while they almost always thicken the lines to some extent the appearance of the type is sometimes materially altered Mr E Gordon Duff gave me valuable help with the unique books in the John Rylands Library especially in connexion with the photograph from the *Batrachomomachia* shown in plate VII To him and to the other friends by whose knowledge and advice I have profited my best thanks are due About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
