Aristotle's Prior and Posterior Analytics William D. Ross, 1965 **Gratry's Philosophy** , 2020-12-31 Alphonse Joseph Auguste Gratry 1805 1872 was born in Lille northern France of irreligious parents and lived during a time of endless revolution As a young man he underwent a powerful conversion in which he experienced a mystical vision of a world based on truth and justice This determined the course of his future life A classically educated scholar he studied engineering at the outstanding cole Polytechnique completed a doctorate on the scientific method in Strasbourg 1840 was ordained a priest and later obtained a doctorate in letters and a licentiate in theology Moved by the events of 1848 he published his first book in the form of a social catechism on the necessity for a systematic response to the needs of society In a parallel initiative to that of Blessed John Henry Cardinal Newman in England he relaunched the Congregation of the Oratory in Paris 1852 with Pierre Petetot to raise intellectual standards among the clergy after the Revolution A charismatic individual well known as a distinguished logician theologian social thinker and outstanding educator preacher and spiritual director his major philosophical works appeared in the 1850s The French Academy recognized his genius with election to the chair held by Voltaire a century earlier Gratry fell into disfavor for his adhesion to the International Peace League on the eve of France s war with Germany and for his stand in regard to papal infallibility before Vatican I a position largely vindicated in Vatican II but he accepted the much narrower declaration once it was made His most famous work *Les Sources* widely published until World War II offers a plan of studies and a plan of life which reflect Gratry s philosophy of the person The Christian Democratic Parties the French lay movement *Le Sillon* the Young Christian Workers YCW and the writings of Peter Maurin mentor to today s Catholic Worker movement witness to his foundational and comprehensive influence For the first time in English we have Julian Marias s 1914 2005 clear and accessible study 5th ed on the core of Alphonse Gratry s philosophy Although he lived more than a century ago 1805 1872 Gratry addresses issues of concern today the ontology of the human person with its body soul unity the intrinsic relationship of individuals to society and nature and the problem of God

Recognized as a master in his lifetime with the rapid reprinting of his *Logic* *The Knowledge of God* and *The Knowledge of the Soul* Gratry was relegated to near oblivion less than seventy years later with the rejection of metaphysics and the rise of Positivism Marias reclaims Gratry's place in the history of philosophy and thoroughly explains Gratry's original logic written from the point of view of the juncture of philosophy and the human spirit He shows how Gratry's theory of induction in Plato's original and foundational sense Rep VI forms the heart of his metaphysics of knowledge the science of transcendence by which the mind intellectually apprehends all reality corporeal psychic and divine Gratry thus establishes a complete ontology of the human person rational free and endowed with a three fold sense external intimate sens intime and divine dependent on unlimited being or God Gratry's original logic and metaphysics stands on its own philosophical basis but in Chapter 6 *Five Interior Adventures* Marias includes a parallel existential foundation drawn from Gratry's private journal This reveals how the young atheist underwent a series of near mystical experiences which gave him an inescapable awareness of God and confronted him with the moral choice for or against this reality In this extraordinarily lucid study we now have access to the complete thought of Gratry giving scholar and student as Marias observes a seemingly providential body of work needed in our time

Aristotle's prior and posterior analytics William D. Ross, 1949 Aristotle's Prior and Posterior Analytics Aristòtil, 1980 **Ars et methodus** Sandra Bihlmaier, 2018-07-16 Sandra Bihlmaier constitutes a historical and philosophical analysis of Philipp Melanchthon's concept of method and philosophy By means of a detailed inquiry into Melanchthon's textbooks of dialectic and rhetoric it uncovers the emergence and development of a notion of method which underlies an encyclopedic understanding of philosophy The work reveals both the traditions of rhetoric and dialectic which Melanchthon builds on in his own works as well as the Reformer's own original reinterpretation of these traditions Moreover the reinterpretation and transformation of essential concepts taken from traditional accounts is thematized against the background of the canon of arts and sciences which undergoes a fundamental change during the European Renaissance The understanding configuration and the applicability of this canon is deeply influenced by this original concept of method Philipp Melanchthon's concept of method and philosophy is central to the understanding of 16th century definition of philosophy Melanchthon's attempt to integrate into a former theoretical discipline both the aspect of usefulness as well as a degree of general applicability in human affairs testifies to the fertility of his philosophical program Also his project is highly relevant for an understanding of philosophy which transgresses contemporary idiosyncratic categories of philosophical knowledge and draws attention to two fundamental historiographical aspects First it cautions historians and philosophers against transferring current definitions of philosophy to works which emerge from different historical social and intellectual traditions Second it raises the awareness of the reader regarding his own understanding of philosophy and of its underlying presuppositions
