Private Health Providers In Developing Countries Serving The Public Interest:

The World Health Report 2000 World Health Organization, 2000 Includes table of health system attainment and performance in all member states 191 ranked by eight measures **Are Incentives Everything?** Varun Gauri, 2001

Private Health Providers in Developing Countries Sara Bennett, Barbara McPake, Anne Mills, 1997-06-01 New ideas on the role of the state in developing countries have considerable implications for the social sectors especially health Certain international organizations have advocated a larger role for private sector health care providers and many developing country governments have adopted this approach Yet until now very little evidence has existed about how shifting the balance between public and private roles might affect equity and the quality and efficiency of health care This book presents the results from a coordinated programme of research on the private health care sector including studies carried out by Asian African and Latin American researchers The conceptual chapters draw upon both industrialized and developing country literature to describe the intellectual terrain analyse the key issues and summarize experience to date This book will help increase understanding of the private sector as well as illustrating the contentious issues involved in privatization It will be useful to students and academics involved in international public health courses and to health policy makers in developing countries *Private Participation in Health Services* April Harding, Alexander S. Preker, 2003 Although many countries

already make use of private sector services to achieve policy objectives in public health care provision it remains a controversial topic Drawing on a wide range of country experiences this book considers the use of the private sector in the provision of public health services in developing countries in terms of assessing the potential for private sector involvement contracting with the private sector for health services regulating the sector and what to do when key information is not available **Le financement de la santé dans les pays d'Afrique et d'Asie à faible revenu** , 2003-01-01 Les conceptions et les politiques en matière de financement de la santé dans les pays à faible revenu s'articulent autour de paradigmes successivement dominants dans les approches des gouvernements et de leurs partenaires extérieurs la gratuité des soins de base et la santé pour tous dans la lignée de la conférence d'Alma Ata tout d'abord la contribution financière des usagers recouvrement des coûts partir de la seconde moitié des années quatre vingt Plus récemment l'accent a été mis sur le développement de mécanismes assuranciers tout en approfondissant et en reconsidérant la réflexion sur la gratuité des soins et sur la participation financière des populations Dans cette perspective cet ouvrage a voulu confronter des travaux théoriques et appliqués sur une sélection de grandes questions soulevées par le financement de la santé Il analyse des expériences et des politiques conduites en ces domaines dans plusieurs pays d'Afrique et d'Asie à faible revenu Le livre est structuré autour de trois parties La première porte sur les déterminants de l'accès aux soins sur l'équité et la protection des plus pauvres questions principalement abordées sous l'angle des effets de la contribution financière des usagers La seconde traite des approches plurielles qui se développent en matière de mécanismes d'assurance notamment dans le secteur informel La troisième s

interroge sur les relations entre le financement et la régulation des systèmes de santé en considérant différentes problématiques qui mettent en relief l'importance des institutions et plus globalement des choix publics rejoignant ainsi des orientations majeures de la réflexion économique contemporaine *Social Policy for Development* Anthony L Hall, James Midgley, 2004-05-24 Strong social policy is essential for sustainable growth This book is an extremely useful overview of social policy issue for policy makers and anyone who wants to understand the true roots of successful sustainable development Ian Johnson Vice President for Sustainable Development The World Bank Throughout the world issues of social development have now taken centre stage There is no more comprehensive and readable guide to the choices and conflicts of this global drama This book is essential reading for all students and practitioners of social development and for every World Bank economist David Piachaud Professor of Social Policy London School of Economics This much needed textbook fulfils a major gap in providing a complete up to date guide and introduction to the increasingly important role of social policy in the context of development processes and practice Across a number of key sectors and areas of social policy concern the authors accessibly introduce and explain the main conceptual debates the most recent policy discussions and provide applied examples to illustrate the latest developments in the social policy and planning field Central topics covered include poverty rural development urban development education health social work social welfare international development and cooperation *Social Policy for Development* is an essential text for all students and practitioners alike seeking a deeper understanding of the issues of poverty social exclusion and deprivation across social policy and development studies internationally

Commercialization of Health Care M. Mackintosh, M. Koivusalo, 2005-09-19 Based on original research and analysis by a group of health policy experts and economists from across the world this book analyzes the causes and consequences of the expanding global and local commercialization of health care It argues for the necessity and possibility of effective policy responses to develop good quality universally inclusive health systems worldwide The book aims to contribute to a shift in the international common sense in health policy towards a more humane inclusive egalitarian and ethical framework for policy formulation [UN Millennium Development Library: Who's Got the Power](#) UN Millennium Project, 2013-06-17 The Millennium Development Goals adopted at the UN Millennium Summit in 2000 are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty hunger disease exclusion lack of infrastructure and shelter while promoting gender equality education health and environmental sustainability These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them Achieving the Millennium Development Goals offers the prospect of a more secure just and prosperous world for all The UN Millennium Project was commissioned by United Nations Secretary General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals As an independent advisory body directed by Professor Jeffrey D Sachs the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005 The core of the UN Millennium Project's work

has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world including scientists development practitioners parliamentarians policymakers and representatives from civil society UN agencies the World Bank the IMF and the private sector This report lays out the recommendations of the UN Millennium Project Task Force on Child and Maternal Health The Task Force recommends the rapid and equitable scale up of interventions like the Integrated Management of Childhood Illness the universal provision of emergency obstetric care and sexual and reproductive health services and rights be provided through strengthened health systems This will require that health systems be seen as social institutions to which all members of society have a fundamental right This bold yet practical approach will enable every country to reduce the under five mortality rate by two thirds and the maternal mortality rate by three quarters by 2015

Getting Health Reform Right Marc J. Health Economics Barbara McPake, Charles Normand, Samantha Smith, Anne Nolan, 2013-06-07 This third edition of Barbara McPake and Charles Normand s textbook confirms it as providing the only properly international treatment of health economics on the market A key tenet of the book is its analysis of comparative health systems across borders and the text has been updated and revised to take account of changes in a host of countries Barack Obama s reforms in the United States are considered alongside the provision of healthcare in China providing a unique overview of these different approaches The introduction of performance related payment in various forms is appraised with the experience of developing countries such as Cambodia Rwanda and Uganda important in this regard An overview of the range of mathematical techniques available to perform economic evaluation in

healthcare is also introduced although the text avoids becoming too technical In all the text builds on the success of the first edition and provides the perfect introduction to the fast changing world of health economics

The Handbook of Civil Society in Africa Ebenezer Obadare, 2013-09-21 This volume brings together the most up to date analyses of civil society in Africa from the best scholars and researchers working on the subject Being the first of its kind it casts a panoramic look at the African continent drawing out persisting if often under communicated variations in regional discourses In a majority of notionally global studies Africa has received marginal attention a marginality often highlighted by the usual token chapter Filling a critical hiatus the Handbook of Civil Society in Africa takes Africa African developments and African perspectives very seriously and worthy of academic interrogation in their own right It offers a critical clear sighted perspective on civil society in Africa and positions African discourses within the framework of important regional and global debates It promises to be an invaluable reference work for researchers and practitioners working in the fields of civil society nonprofit studies development studies volunteerism civic service and African studies Endorsements This volume signposts a critical turning point in the renewed engagement with the theory and practice of civil society in Africa Moving from traditional concerns with disquisitions on the appropriateness and possibility of the existence and vibrancy of the idea of civil society on the continent the volume approaches the forms contents and features of the actually existing civil society in Africa from thematic regional and national angles It demonstrates clearly the extent to which core intellectual work on civil society in Africa has largely moved from concerns with cultural reductionism to a nuanced examination of the complexities of formal non formal organizational non organizational traditional newer usual unusual engagements detailing the extent to which over time civil society as a concept has been indigenized appropriated and adapted in the terrains of politics society economy culture and new technologies on the continent In all this the book accomplishes the near impossible Without sacrificing the vigour rigor and freshness of the often unpredictable fruits of up to date research into regional and national differences that crop up in the documentation of Africa s multiple realities and discourses the volume weaves together a rich tapestry of the historical theoretical and practical dimensions of an expanding civil society sector and accompanying growth in popular discourse advocacy and academic literature in such a diverse continent as Africa into a meaningful whole of insightful themes Written and edited by a very distinguished cross continental and multi disciplinary collection of researchers research students practitioners and activists the volume provides cutting edge evidence and makes a definitive case for a new lease of life for civil society research in Africa Adigun Agbaje Professor of Political Science University of Ibadan Nigeria Throughout Africa forms of civic engagement and political participation have seen dynamic change in recent decades yet conceptions of civil society have rarely accounted for this evolution This volume is an essential source of new thinking about political association and collective action in Africa The authors offer a wealth of analysis on changing organizations and social movements new forms of interaction and communication emerging strategies and issues diverse social foundations and the theoretical

implications of a shifting associational landscape The contributors provide an invaluable addition to the comparative literature on political change democratic development and social movements in Africa Peter Lewis Johns Hopkins University School of Advanced international Studies

Social Policy in a Development Context T. Mkandawire, 2004-11-10 Drawing upon both conceptual and empirical evidence this volume argues the case for the centrality of social policy in development focusing particularly on the message that social policy needs to be closely intertwined with economic policy It is argued that social policy can provide the crucial link between economic development poverty eradication and equity This volume is a significant contribution to thinking about social policy in a development context

Tuberculosis: An Interdisciplinary Perspective John M Grange, John D H Porter, 1999-03-26 The fact that the World Health Organization has declared tuberculosis a global emergency indicates the serious inadequacy of the ways in which the control methods at our disposal are used Several books on tuberculosis have been published in recent years but none have taken a deep and detailed look at the holistic aspects of global tuberculosis control even though international agencies are increasingly aware of the importance of the numerous factors other than the design and efficacy of therapeutic drug regimens This unique book fills that gap Although it deals specifically with tuberculosis the principles outlined and discussed are relevant to many other areas of global medicine including the ever growing problem of HIV AIDS The book is aimed principally at those involved in the design establishment and management of disease control programmes at international national and local levels and also at a more general readership of epidemiologists public health officers community psychologists and others interested in understanding the human dimension of disease control a

Third World Health Theodore MacDonald, 2018-12-14 Great and increasing inequities exist between the peoples of the Third World and those of the First As well we find ourselves threatened by imminent environmental catastrophes largely as a result of trying to maintain such inequities This clear and straightforward text explains the complex

origins of such bodies as the International Monetary Fund the World Bank and others and demonstrates the extent to which they exacerbate the problem The situation is now so grave that we can no longer afford the luxury of leaving it to the professionals We are all involved We find ourselves hearing daily news reports of wars starvation the HIV AIDS pandemic and natural disasters rendered worse by inadequate international responses The United Nations once seen as an effective arbiter and mediator in such matters now finds itself unable to exercise authority adequately Third World Health hostage to First World Wealth adopts a positive approach and puts forward various ways in which people at all levels can become more involved It addresses the pivotal issue of health in the Third World and argues that it is very much hostage to the globalization of trade by and for the benefit of First World agencies

Universalising Healthcare in India Imrana Qadeer, K. B. Saxena, P. M. Arathi, 2021-10-20 This book provides a comprehensive overview of universal health coverage in India It starts by setting the historical context and politics of the debates around universal health coverage UHC in India and proceeds to analyze the present crisis of public health in the country The book examines the present policies on the pharmaceutical industry missing links in universalizing health and the importance of social determinants of health It is divided into five sections and some of the topics covered include the difference between comprehensive primary health care and universal health care public health and medical care health service and health system The chapters are contributed by scholars and practitioners based on historical interdisciplinary empirical and policy research The book is insightful to academics public health administrators policymakers practitioners and students interested in health care and organization looking to transform theory into policy and practice
