
CHRISTIAN POSITIONS

- Redeeming Creation
 - In this view it is God's intention that mankind is to redeem the environment as He is redeeming mankind.
 - The idea of "redeeming creation" quickly leads to support of dominion theology (Christian constructionism).
 - Christianity must undo the fallen nature of man and the creation. This leads to the millennial kingdom, and after 1,000 years Jesus will return to a Eden-like earth.

Redeeming Creation A Christian World Evolving

Denis O Lamoureux

Redeeming Creation A Christian World Evolving:

The Christian Doctrine of Creation and Redemption Emil Brunner, 2014-10-10 Emil Brunner 1889 1966 was the most widely read theologian in the English speaking world throughout the mid twentieth century Brunner was Professor of Systematic and Practical Theology at the University of Zurich from 1924 55 His key works *The Mediator* *The Divine Imperative* and *Man in Revolt* were standard texts for Protestant seminaries for decades **The Beginning and End of All Things** Edward W. Klink III, 2023-05-30 Edward W Klink III presents a holistic understanding of creation one that is unfolded throughout all of Scripture and is at the core of the gospel itself Along with offering rich insights about God and his purposes for the world a biblical theology of creation guides how we engage nature culture and life as embodied beings

Perspectives on an Evolving Creation Keith B. Miller, 2003-09-25 According to the authors of this book who explore evolutionary theory from a clear Christian perspective the common view of conflict between evolutionary theory and Christian faith is mistaken Written by contributors representing the natural sciences philosophy theology and the history of science this thought provoking work is informed by both solid scientific knowledge and keen theological insight The three sections of the book address 1 relevant biblical historical and scientific background 2 the scientific evidence for an evolving creation and 3 theological issues commonly raised in connection with evolution including the nature of God s creative activity the meaning of the miraculous and the uniqueness of humankind Woven through the volume are short meditations designed to direct readers toward worshiping the God of providence Contributors Laurie J Braaten Warren S Brown Jr David Campbell Robin Collins Edward B Davis Terry M Gray Jeffrey K Greenberg Deborah B Haarsma Loren Haarsma James P Hurd Conrad Hyers David N Livingstone Keith B Miller John C Munday Jr George L Murphy Mark A Noll Robert John Russell Howard J Van Till David L Wilcox Jennifer Wiseman **Evolutionary Creation** Denis O Lamoureux, 2009-02-26 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate *Creator God, Evolving World* Cynthia S. W. Crysdale, Neil Ormerod, 2013-01-01 Cynthia Crysdale and Neil Ormerod here present a robust theology of God in light of supposed tensions between Christian belief and evolutionary science Those who pit faith in an almighty and unchanging God over against a world in which chance is operative have it wrong on several accounts they insist *Creator God Evolving World* clarifies a number of confused assumptions in an effort to redeem chance as an intelligible force interacting with stable patterns in nature A proper conception of probabilities and regularities in the world s unfolding reveals neither random chaos nor a predetermined blueprint but a view of the universe as the fruit of both chance and necessity By clarifying terms often used imprecisely in both scientific and theological discourse the authors make the case that the role of chance in evolution neither mitigates God s radical otherness from creation nor challenges the efficacy of God s providence in the world **Creationism and the Conflict over Evolution** Tatha Wiley, 2009-01-01 How do our current notions of the workings of the universe fit with our

deepest convictions about its meaning and value From religion we grasp the world as created given gift From science we apprehend it as evolving in process changing How do we bring these apprehensions together Or can we Is our impulse to find the two complementary creation and evolution Or is it to find them contradictory creation or evolution The way in which we answer these questions carries personal and intellectual consequences It will constitute the first piece in a worldview within which we order our religious beliefs and scientific judgments from the Preface *Christianity and Ecological Theology* E. M. Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **God and Evolution** R. J. Berry,2001 Is a firm belief in God and the inspiration and authority of the Bible incompatible with the theory of evolution Many believe it is Others do not In *God and Evolution* Professor R J Berry contends that there is no legitimate conflict **How to Read the Bible in Changing Times** Mark L. Strauss,2011-08-01 Many find it difficult to take words that were written thousands of years ago and apply them to twenty first century life in the Western world How do we read God s unchanging Word in a world that is increasingly defined by change *How to Read the Bible in Changing Times* shows everyday Christians how to interpret and apply the Scriptures regardless of time and culture Rather than seeing the Bible as a magic answer book a list of commands to obey or a series of promises to claim this insightful book allows the Bible to retain its identity as a complex inspired document while showing that the truth it contains is relevant and life changing It shows the reader how to determine the meaning of the text in its original context identify culturally relative features understand what the text teaches about God his will and his purposes apply the truths discovered to contemporary life situations It even shows readers how to discern God s will on the many modern issues that the Bible does not directly address Evolution and Creation Herbert Junius Hardwicke,1887
