Redesigning Collegiate Leadership:

Redesigning Collegiate Leadership Estela Mara Bensimon, Anna Neumann, 1994-08-01 Most organizational theorists use the athletic team as a metaphor for the effective work group specific players motivated to give their best performance in pursuit of a common goal This book offers a different model focusing instead on the complex ways that members of a leadership team interact wield power use language and create meaning The authors describe the team as a culture and argue that effective team leadership depends on expecting understanding and appreciating the differences among individuals

Redesigning Collegiate Leadership Estela Mara Bensimon, Anna Neumann, 1993 Reading this work becomes a personal as well as intellectual journey of reflecting on who we are and what we might wish to become as collaborative leaders and team builders An important journey for any administrator in American higher education today NASPA Journal

A Blueprint for Equity-Driven Community College Leadership Pamela L. Eddy, Kim E. VanDerLinden, 2024-08-14 Expert advice and effective strategies for community college leaders who endeavor to embed equity and social justice in institutional policies practices and structures

Enhancing Campus Capacity for Leadership Adrianna Kezar, Jaime Lester, 2011-07-26 Enhancing Campus Capacity for Leadership explores a mostly untapped resource on college campuses the leadership potential of staff and faculty at all levels This book contributes to the growing tradition of giving voice to grassroots leaders offering a unique contribution by honing in on leadership in educational settings In an increasingly corporatized environment grassroots leadership can provide a balance to the prestige and revenue seeking impulses of campus leaders act as a conscience for institutional operations with greater integrity create changes related to the teaching and learning core build greater equity improve relationships among campus stakeholders and enhance the student experience The text documents the stories of grassroots leaders including the motivation and background of these bottom up beacons the tactics and strategies that they use the obstacles they overcome and the ways that they navigate power and join with formal authority This investigation also showcases how grassroots leaders in institutional settings particularly more marginalized groups can face significant backlash While we like to believe that organizations are civil and humane the stories in this book demonstrate a dark side with which we must reckon The book ends with a discussion of the future of leadership on college campuses examining the possibilities for shared and collaborative forms of leadership and governance

Redesigning America's Community Colleges Thomas R. Bailey, Shanna Smith Jaggers, Davis Jenkins, 2015-04-09 In the United States 1 200 community colleges enroll over ten million students each year nearly half of the nation's undergraduates Yet fewer than 40 percent of entrants complete an undergraduate degree within six years This fact has put pressure on community colleges to improve academic outcomes for their students Redesigning America's Community Colleges is a concise evidence based guide for educational leaders whose institutions typically receive short shrift in academic and policy discussions It makes a compelling case that two year colleges can substantially increase their rates of student success if they are willing to rethink the ways in which

they organize programs of study support services and instruction Community colleges were originally designed to expand college enrollments at low cost not to maximize completion of high quality programs of study The result was a cafeteria style model in which students pick courses from a bewildering array of choices with little guidance The authors urge administrators and faculty to reject this traditional model in favor of guided pathways clearer more educationally coherent programs of study that simplify students choices without limiting their options and that enable them to complete credentials and advance to further education and the labor market more quickly and at less cost Distilling a wealth of data amassed from the Community College Research Center Teachers College Columbia University Redesigning America's Community Colleges offers a fundamental redesign of the way two year colleges operate stressing the integration of services and instruction into more clearly structured programs of study that support every student's goals

Making the Case for Leadership Jon Derek Croteau, Zachary A. Smith, 2011-11-30 The advancement industry has experienced tremendous growth in breadth and depth over the last few decades Driving this growth is the chief advancement officer however as a relatively new position on most college and university campuses little is formally known about the role and the people who fill it In *Making the Case for Leadership* Jon Derek Croteau and Zachary A Smith provide insightful and intimate details of ten of the most high performing and successful CAOs in the industry their career paths leadership philosophies and other important leadership variables Additionally the book presents the authors Advancement Leadership Competency Model based on the results of the interviews and rigorous data analysis Croteau and Smith delve further into the advancement office and its history impact and potential than any book or research ever has They conclude this momentous undertaking with the lessons learned and implications for the future related to the next generation of advancement leaders and future leadership development and training programs

Rethinking Leadership in a Complex, Multicultural, and Global Environment Adrianna J. Kezar, 2023-07-03 The complexity of the decisions that today's higher education leaders face as they engage with a diversifying student body globalization and technological advances requires embracing new ways of thinking about leadership This book examines the new theories and concepts of leadership that are described in the multidisciplinary literature on leadership and are being applied in other sectors from government to the non profit and business communities to explore the implications for leaders and leadership programs in higher education At a time when the heroic controlling and distant leader of the past has given way to a focus on teams collectives and social change the contributors to this book ask What new skills and competencies should leaders and programs be addressing The recognition of the interdependence of groups within organizations and between organizations of cultural and social differences and of how technology has sped up decision time and connected people across the globe have changed the nature of leadership as well as made the process more complex and diffuse This book is addressed to anyone developing institutional regional or national leadership development programs to aspiring leaders planning to participate in such programs and to campus leaders concerned with

the development and pipeline of emerging leaders It will be particularly useful for administrators in faculty development offices who are planning and creating workshops in leadership training and for staff in human resource offices who offer similar training Contributors Laurel Beesemyer Rozana Carducci Pamela Eddy Tricia Bertram Gallant Lynn Gangone Cheryl Getz Jeni Hart Jerlando F L Jackson Lara Jaime Adrianna Kezar Bridget R McCurtis Sharon McDade Robert J Nash Elizabeth M O Callahan Sue V Rosser Lara Scott Urban Education Karen Symms Gallagher,Rodney Goodyear,Dominic

Brewer,Robert Rueda,2013-03-19 Many factors complicate the education of urban students Among them have been issues related to population density racial ethnic cultural and linguistic diversity poverty racism individual and institutional and funding levels Although urban educators have been addressing these issues for decades placing them under the umbrella of urban education and treating them as a specific area of practice and inquiry is relatively recent Despite the wide adoption of the term a consensus about its meaning exists at only the broadest of levels In short urban education remains an ill defined concept This comprehensive volume addresses this definitional challenge and provides a 3 part conceptual model in which the achievement of equity for all regardless of race gender or ethnicity is an ideal that is central to urban education The model also posits that effective urban education requires attention to the three central issues that confronts all education systems a accountability of individuals and the institutions in which they work b leadership which occurs in multiple ways and at multiple levels and c learning which is the raison d tre of education Just as a three legged stool would fall if any one leg were weak or missing each of these areas is essential to effective urban education and affects the others **The**
