Development Challenges in Bhutan Johannes Dragsbaek Schmidt, 2017-03-21 This book provides essential insights into Bhutan's developmental challenges. It analyzes and scrutinizes the sovereign state's developmental approach including the idea of Gross National Happiness (GNH) which has replaced Gross National Product (GNP) as a measurement of prosperity. The authors also explore and deconstruct ideational and cultural aspects of knowledge production and present a critical overall assessment of the political economy of education, policy, health, ICT and migration in Bhutan. The book is divided into five parts, all taking a critical approach towards inequality. Part one offers an assessment of Bhutan's developmental trajectories; part two deals with GNH, equality and inclusion versus exclusion; part three is devoted to culture, legal issues and the politics of change; and part four to governance and integration. Section five addresses health, food and disparities. This book will appeal to all scholars of South Asian affairs and development studies as well as to diplomats and professionals involved in development aid.

The Life of the Sixteenth Karmapa Rangjung Rigpe Dorje Meng Wang, 2022-11-08 The Sixteenth Karmapa, Rangjung Rigpe Dorje, was the first Tibetan Buddhist leader to make extensive teaching tours to the West. His three tours to Europe and North America from 1974 to 1980 led to the global expansion of Tibetan Buddhist schools. This book presents the most in-depth analysis of the Karmapa's contribution to the preservation and transmission of Tibetan Buddhism in exile. It is the first study to combine Tibetan life writing and biographical materials in English with a thorough examination of the transformation of Tibetan Buddhism in the modern era of globalization. Drawing on a wide range of data from written accounts, collections of photographs, recordings of interviews and documentaries, the author discusses the life and activity of the Karmapa through the lens of cross-cultural interaction between Buddhism and the West, with a particular focus on Asian agency. The study shows that the Karmapa's transmission strategies emphasized continuity with tradition, with some openness for adaptation. His traditionalist approach and his success on the global scale challenge the popular assumption that the transmission of Buddhism is primarily a matter of Westernization, which in turn calls for a broader view that recognizes its complex and dynamic nature.
