Rediscovering Magical Realism In The Americas:

Rediscovering Magical Realism in the Americas Shannin Schroeder, 2004-10-30 Drawing from a variety of contemporary literature including such works as *One Hundred Years of Solitude*, *Beloved* and *Like Water for Chocolate* Schroeder explores magical realism as one of many common denominators in the literature of the Americas challenging the notion that magical realism should be defined merely in terms of geography or Latin American history By relying on an all encompassing vision of this unique mode of writing the author argues that the Americas share a literary tradition and validates the North American strain of the mode In addition she points to fundamentally similar approaches to fiction that illustrate the ways in which the Americas share a common literature and calls for increased Pan American scholarship Counteracting the critical tendency to label anything unreal or supernatural in literature as magical realism Schroeder traces the mode through a variety of contemporary works including well known and lesser known examples Through a carefully articulated history and description of the mode itself she is able to show that while Latin American and North American fiction share in common certain features of magical realism their distinctive approaches to it reflect Latin America's third world concerns and North America's preoccupation with popular culture and capitalism Tracing the forces of change at work on the mode in an effort to counter the tendency among scholars to apply the label without justification this book reclaims magical realism as a current and significant term for use in its application to literary works

Magical American Jew Aaron Tillman, 2017-11-15 Efforts to describe contemporary Jewish American identities often reveal more questions than concrete articulations more statements about what Jewish Americans are not than what they are Highlighting the paradoxical phrasings that surface in contemporary writings about Jewish American literature and culture language that speaks to the elusive difference felt by many Jewish Americans Aaron Tillman asks how we portray identities and differences that seem to resist concrete definition Over the course of *Magical American Jew* Tillman examines this enigma the indefinite yet undeniable difference that informs contemporary Jewish American identity demonstrating how certain writers and filmmakers have deployed magical realist techniques to illustrate the enigmatic difference that Jewish Americans have felt and continue to feel Similar to the indeterminate nature of Jewish American identity magical realism is marked by paradox and does not fit easily into any singular category Often characterized as a mode of literary expression rather than a genre within literature magical realism has been the subject of debates about definition origin and application After elucidating the features of the mode Tillman illustrates how it enables uniquely cogent portrayals of enigmatic elements of difference Concentrating on a diverse selection of Jewish American short fiction and film including works by Woody Allen Sarah Silverman Cynthia Ozick Nathan Englander Steve Stern and Melvin Jules Bukiet *Magical American Jew* covers a range of subjects from archiving Holocaust testimony to satirical Jewish American humor Shedding light on aspects of media marginalization excess and many other facets of contemporary American society the study concludes by addressing the ways that the magical realist mode has been and can be used to examine U S ethnic literatures more broadly

Magical Realism in Postcolonial British Fiction Taner Can, 2014-06-01 This study aims at delineating the cultural work of magical realism as a dominant narrative mode in postcolonial British fiction through a detailed analysis of four magical realist novels Salman Rushdie s *Midnight s Children* 1981 Shashi Tharoor s *The Great Indian Novel* 1989 Ben Okri s *The Famished Road* 1991 and Syl Cheney Coker s *The Last Harmattan of Alusine Dunbar* 1990 The main focus of attention lies on the ways in which the novelists in question have exploited the potentials of magical realism to represent their hybrid cultural and national identities To provide the necessary historical context for the

discussion the author first traces the development of magical realism from its origins in European Painting to its appropriation into literature by European and Latin American writers and explores the contested definitions of magical realism and the critical questions surrounding them He then proceeds to analyze the relationship between the paradigmatic turn that took place in postcolonial literatures in the 1980s and the concomitant rise of magical realism as the literary expression of Third World countries
