Rediscovering Values Coming To Terms With Postmodernism:

Rediscovering Values Hugh Mercer Curtler, 2016-06-16 The author's primary purpose in this short book is to clearly define the nature of value and restore it to a central place in discussions of ethical and aesthetic problems. He begins the book with a broad cultural perspective on the issue of postmodernism in general, then takes a closer look at recent attempts to reduce values to evaluation to deny their objectivity. The central chapter focuses on the question 'What Is Value' after which Curtler discusses values in the fine arts and literature, concluding with the question of values in education. *Rediscovering Values* Hugh Mercer Curtler, 1997 Now that we have rejected the set of values inherited from our imperialist past, Curtler says we must distil from the common social world a new set that can command our approval regardless of cultural and personal tastes. He mounts an attack on proponents of relativity as any cost and argues for the objectivity of values in ethics, literature, and art. His treatment is accessible to lay readers. Engendering Realism and Postmodernism, 2021-11-01 This volume assembles critical essays on and excerpts from works of contemporary women writers in Britain. Its focus is the interaction of aesthetic play and ethical commitment in the fictional work of women writers whose interest in testing and transgressing textual boundaries is rooted in a specific awareness of a gendered multicultural reality. This position calls for a distinctly critical impetus of their writing involving the interaction of the political and the literary as expressed in innovative combinations of realist and postmodern techniques in works by A. S. Byatt, Maureen Duffy, Zoe Fairbairns, Eva Figs, Penelope Lively, Sara Maitland, Suniti Namjoshi, Ravinder Randhawa, Joan Riley, Michele Roberts, Emma Tennant, Fay Weldon, Jeanette Winterson. All contributions to this volume address aspects of these writers' positions and techniques with a clear focus on their interest in transgressing boundaries of genre, gender, and post-colonial identity. The special quality of these interpretations, first given in the presence of writers at a symposium in Potsdam, derives from the creative and prosperous interactions between authors and critics. The volume concludes with excerpts from the works of the participating writers which exemplify the range of concrete concerns and technical accomplishments discussed in the essays. They are taken from fictional works by Debjani Chatterjee, Maureen Duffy, Zoe Fairbairns, Eva Figs, Sara Maitland, and Ravinder Randhawa. They also include the creative interactions of Suniti Namjoshi and Gillian Hanscombe in their joint writing and Paul Magrs' critical engagement with Sara Maitland. A

Philosophy of Music Education Bennett Reimer, 2022-11-01 Bennett Reimer's *A Philosophy of Music Education* asserts that the nature and value of music education are determined primarily by the nature and value of music. Originally published in 1970, with the third edition originally published in 2003, this text relates findings in the field of aesthetics to their implications for the practice of music education, thus emphasizing practical applications that students and future educators can employ in their teaching and learning. It addresses an increasingly diverse world in which music is viewed not as a singular practice but as a multitude of related practices. Reimer believes that music has characteristics that make it recognizably and distinctively

a practice or an art that these characteristics can be identified to a reasonable and useful degree but no doubt never definitively that music is of value to humans and their communities in a variety of ways related to these characteristics and that the primary mission of music education is to make musical values widely and deeply available Each chapter includes case studies Riffs and questions for discussion exploration Etudes that enhance student learning This reprint edition includes a new introduction by Peter R Webster that sets Reimer s work in the context of the development of music education pedagogy and illuminates why this remains an important text for today s students An excellent introductory text for undergraduate or more advanced music education students A Philosophy of Music Education remains the best single introduction to this important and growing field

Great Books, Honors Programs, and Hidden Origins William Haarlow, 2003-12-16 This book argues a new and more complex interpretation of the development and manifestations of the liberal arts movement in American higher education during the 1930s 40s and 50s Specifically the book elucidates the under explored yet formative role that the University of Virginia and its 1935 Virginia Plan played both in fostering the liberal arts movement and as a representative institution of the broader interaction colleges and universities had with this movement

Keiretsu Economy - New Economy? R. Kensy, 2001-04-02 This book combines a theoretical study of Japan s economic structures and multinational enterprises with a post modern analysis of the contemporary multinational enterprise The author considers the appropriateness of the post modern approach for discussing economic activities in particular the New Economy and also Japanese society and culture Kensy analyses Japan s economic structure interpreting its methods strategies and results in a post modern context and presents a survey of socio economic development in Japan since the beginning of westernization He goes on to discuss Japanese models for the transformation of society in the future with particular reference to the Keiretsu Finding Japan to be a truly postmodern society Kensy shows that Japan is prepared to be a leader in the New Economy Kensy takes an innovative and stimulating approach that will be of interest to those seeking to better understand the development and future of the economic structures of Japan
