Reexamining Liberation In Namibia Political Culture Since Independence:

Re-examining Liberation in Namibia Henning Melber, 2003 From 1960 SWAPO of Namibia led the organised and later armed struggle for independence In late 1989 the liberation movement was finally elected to power under United Nations supervision as the legitimate government When the Republic of Namibia was proclaimed on 21 March 1990 the long and bitter struggle for sovereignty came to an end This volume takes stock of emerging trends in the country's political culture since independence The contributions mainly by authors from Namibia and Southern Africa who supported the anti colonial movements critically explore the achievements and shortcomings that have been part of liberation in Namibia Henning Melber was Director of the Namibian Economic Policy Research Unit NEPRU in Windhoek between 1992 and 2000 and has been Research Director at The Nordic Africa Institute since then He coordinates the research project on Liberation and Democracy in Southern Africa of which this volume is part **Historical Dictionary of Namibia** Victor L.

Tonchi, William A. Lindeke, John J. Grotzinger, 2012-08-31 On March 21 1990 Sam Nujoma was sworn in as the first president of independent Namibia This ceremony marked the end of a struggle that lasted more than two decades and a period of colonialism that lasted more than a century Finally after decades long wars over grazing in the 19th century genocidal colonial suppression by Germany at the beginning of the 20th century repressive apartheid racialism throughout the 20th century and a prolonged armed liberation struggle Namibians had the chance to choose their own leaders develop a democratic political process in a free society and to bring economic development and greater equity to their country The Historical Dictionary of Namibia covers the history of Namibia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Namibia Women Journalists in Namibia's Liberation Struggle Women 1985-1990

Mboono Nghidinwa, 2008-12-29 This study investigates the experiences of women journalists during the last phase of Namibia's liberation struggle against South African rule Black or white women journalists in Namibia made significant contributions to the liberation cause including the founding of a high profiled newspaper whilst others worked for media sympathetic to the apartheid government Based on interviews and deploying feminist media theory Maria Mboono Nghidinwa pays close attention to the gendered power relationships in the newsrooms of newspapers and radio stations at the time She looks at the intense political intimidations which targeted women and in particular the constraints experienced by black women journalists *Secessionism in African Politics* Lotje de Vries, Pierre Englebert, Mareike

Schomerus, 2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date The

respected expert contributors put salient and lesser known cases into comparative perspective covering Biafra Katanga Eritrea and South Sudan alongside Barotseland Cabinda and the Comoros among others Suggesting that African secessionism can be understood through the categories of aspiration grievance performance and disenchantment the book's analytical framework promises to be a building block for future studies of the topic *Apartheid's Black Soldiers* Lennart Bolliger, 2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa's security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged In anticolonial struggles across the African continent tens of thousands of African soldiers served in the militaries of colonial and settler states In southern Africa they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements armed wings Despite these soldiers' significant impact on the region's military and political history this dimension of southern Africa's anticolonial struggles has been almost entirely ignored in previous scholarship Black troops from Namibia and Angola spearheaded apartheid South Africa's military intervention in their countries' respective anticolonial war and postindependence civil war Drawing from oral history interviews and archival sources Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies Focusing on three case studies of predominantly Black units commanded by White officers Bolliger investigates how and why these soldiers participated in South Africa's security forces and considers the legacies of that involvement In tackling these questions he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book's unique analysis of apartheid military culture shows how South Africa's military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity

Salih, 2005-12-10 This book offers in depth analysis of parliamentary development set in a historical context informed by Africa's post 1990s democratic resurgence In particular it illustrates how African parliaments are caught between the twin processes of being part of the machinery of government

while exercising the function of holding government accountable From Bullets to Ballots John Ishiyama, 2018-12-07 In recent years an increasing amount of research has argued that the successful transformation of rebel organization into parties is critical to stable post conflict peace and democratization However the process of the transformation of rebel groups into parties is not well understood Under what conditions do rebel groups transform into parties Or into something else What are the causal mechanisms that lead to the successful transformation of rebel groups into political parties Does the transformation of rebel groups into parties actually contribute to political stability and democratization How does transformation differ from region to region The chapters in this book directly address these questions and include a combination of broader theoretical and empirical chapters coupled with several in depth case studies by some of the most notable scholars in the field It should prove indispensable to students of both civil wars post conflict peace and political parties This book was originally published as a special issue of Democratization **A Symbol of a People's**

Determination. The Windhoek Old Location Henning Melber, 2025-10-01 The story of Windhoek's Old Location is one of African replacement and at the same time of creating home against all odds under the enforced restricted living conditions of Apartheid Being adjacent to the White centre of town urban planning replaced the Old Location with the newly established township Katutura in the late 1950s Many residents refused to be re located Escalating protest resulted in deadly clashes on 10th December 1959 when the colonial police opened fire on unarmed residents At least 13 were killed and more than 40 recorded as wounded After years of forced removal the Old Location was officially closed in 1968 This book contributes to a commemorative culture of a crucial place and space during a formative time in Namibia's history It offers a partial reconstruction of a social history of the Old Location Personal memories of former residents as far as they are accessible contrast the colonial archives The captivating photographs by the German photographer Dieter Hinrichs who documented social events and everyday life in the Location between 1959 and 1960 are essential Many are published here for the first time They speak louder than words **Imagining the Post-Apartheid State** John T. Friedman, 2011-07-01 In northwest

Namibia people's political imagination offers a powerful insight into the post apartheid state Based on extensive anthropological fieldwork this book focuses on the former South African apartheid regime and the present democratic government it compares the perceptions and practices of state and customary forms of judicial administration reflects upon the historical trajectory of a chieftaincy dispute in relation to the rooting of state power and examines everyday forms of belonging in the independent Namibian State By elucidating the State through a focus on the social historical and cultural processes that help constitute it this study helps chart new territory for anthropology and it contributes an ethnographic perspective to a wider set of interdisciplinary debates on the State and state processes
