Reflections from a Western Window Gladys Worden Crum, 1994-08-01 Radiance and Reflection Jane Hayward, Walter Cahn, Metropolitan Museum of Art (New York, N.Y.), 1982 **West Lake Reflections** Sara Grimes, 1983

Reflection on the Death of a Porcupine D. H. Lawrence, 2019-02-20 This collection of essays by the author of *Lady Chatterley's Lover* presents his musings on literature, politics and philosophy in a newly restored text. Though D. H. Lawrence was one of the great writers of the twentieth century, his works were severely corrupted by the stringent house styling of printers and the intrusive editing of timid publishers. A team of scholars at Cambridge University Press has worked for more than thirty years to restore the definitive texts of D. H. Lawrence in *The Cambridge Editions Between 1915-1925*. D. H. Lawrence wrote a series of philosophical essays covering topics ranging from politics to nature and from religion to education. Varying in tone from lighthearted humor to spiritual meditation, they all share the underlying themes of Lawrence's mature work. Be thyself. As far as possible, the editors of the Cambridge Editions series have restored these essays to their original form as Lawrence wrote them. A discussion of the history of each essay is provided, and several incomplete and unpublished essays are reproduced in an appendix. *Baltimore and Ohio Employees Magazine*, 1919 Energy Efficiency and Conservation in West Africa, 1984 **Baltimore and Ohio Employees Magazine**, 1919 **Gethsemane Hall** David Annandale, 2012-08-11 Sometimes the truth will make you bleed. The skeptics think they know what's going on at Gethsemane Hall. So do the religious. So do the spiritualists. They're all wrong. Richard Gray, grieving over the loss of his wife and daughter, learns that his ancestral home holds the secret of what lies beyond the grave. And all of a sudden, everybody wants a piece of Gethsemane Hall. Louise Meacham wants it because a fellow CIA agent committed suicide there and she has to put the ghost rumours to rest to get her career back. Anna Pertwee wants it because she's determined to save the ghosts from the unbelievers and the debunkers. Patrick Hudson wants it because he has to save Gray's soul. So Gray will let them all in. These people who think they're coming for the truth. What they don't know is that the truth is coming for them. **Ralph's Possession. A Simple Record of how it was Given Him, and what He Did with it** George HOPKINS (Author of "Ralph's Possession."), 1873 **Heating, Cooling, Lighting** Norbert M. Lechner, 2014-09-23 Sustainable environmental control through building design. Heating, Cooling and Lighting is the industry standard text on environmental control systems with the emphasis on sustainable design. By detailing the many factors that contribute to the comfort in a building, this book helps architects minimize mechanical systems and energy usage over the life of the building by siting building design and landscaping to maximize natural heating, cooling and lighting. This new fourth edition includes new information on integrated design strategies and designing for the Tropics. Resources include helpful case studies, checklists, diagrams and a companion website featuring additional cases, an image bank and instructor materials. Designing buildings that require less energy to heat, cool and light means allowing the natural energy of the sun and wind to reduce the burden on the mechanical and

electrical systems Basic design decisions regarding size orientation and form have a great impact on the sustainability cost and comfort of a building Heating Cooling and Lighting provides detailed guidance for each phase of a design project Readers will Understand the concept of sustainability as applied to energy sources Review the basic principles of thermal comfort and the critical role of climate Learn the fundamentals of solar responsive design including active and passive solar systems as well as photovoltaics Discover how siting architectural design and landscaping can reduce the requirements for mechanical and electrical systems In sustainable design mechanical and electrical systems should be used to only accomplish what the architect could not by the design of the building itself With this in mind designers require a comprehensive understanding of both the properties of energy and the human factors involved in thermal comfort Heating Cooling and Lighting is the complete industry leading resource for designers interested in sustainable environmental control
