Rage Becomes Her Soraya Chemaly, 2018-09-11 A BEST BOOK OF 2018 SELECTION NPR The Washington Post Book Riot Autostraddle Psychology Today A BEST FEMINIST BOOK SELECTION Refinery 29 Book Riot Autostraddle BITCH *Rage Becomes Her* is an utterly eye opening Bustle book that gives voice to the causes expressions and possibilities of female rage As women we ve been urged for so long to bottle up our anger letting it corrode our bodies and minds in ways we don t even realize Yet there are so so many legitimate reasons for us to feel angry ranging from blatant horrifying acts of misogyny to the subtle drip drip drip of daily sexism that reinforces the absurdly damaging gender norms of our society In *Rage Becomes Her* Soraya Chemaly argues that our anger is not only justified it is also an active part of the solution We are so often encouraged to resist our rage or punished for justifiably expressing it yet how many remarkable achievements would never have gotten off the ground without the kernel of anger that fueled them Approached with conscious intention anger is a vital instrument a radar for injustice and a catalyst for change On the flip side the societal and cultural belittlement of our anger is a cunning way of limiting and controlling our power one we can no longer abide A work of great spirit and verve *Rage Becomes Her* is a validating energizing read that will change the way you interact with the world around you

Misogyny as Hate Crime Irene Zempi,Jo Smith,2021-08-26 Misogyny as Hate Crime explores the background nature and consequences of misogyny as well as the legal framework and UK policy responses associated with misogyny as a form of hate crime Taking an intersectional approach the book looks at how experiences of misogyny may intersect with other forms of hate crime such as disablism Islamophobia antisemitism and transphobia From the sexist and derogatory comments about women by former US President Donald Trump to legislative changes in Chile and Peru making street harassment illegal misogyny presents a challenge to scholars practitioners policy makers and women globally The increasing importance of the internet has seen misogyny move into these digital spaces but has also provided a platform for movements such as MeToo and TimesUp highlighting the scale of sexual harassment and abuse In 2016 Nottinghamshire Police in partnership with Nottingham Women s Centre became the first force in England and Wales to record misogyny as a hate crime Since then other police forces have introduced similar schemes to tackle misogyny More recently the Law Commission of England and

Wales has undertaken a review of the legislation on hate crime and in their consultation paper of proposals for reform have suggested adding sex or gender to the protected characteristics In March 2021 the Government announced that police forces in England and Wales will be required to record crimes motivated by hostility based on sex or gender from this autumn The murder of Sarah Everard has been a watershed moment in the Government's response to violence against women Sarah Everard's kidnap and murder who went missing while walking home from a friend's flat in South London on 3 March 2021 ignited a national conversation about violence against women Against this background the book speaks both to the proposed reforms of the hate crime legislation around misogyny and the broader issues around experiences of and legal responses to misogyny It showcases the work of leading scholars in this area alongside that of activists and practitioners whose work has been invaluable in opening up public discussion on misogynistic hate crime and encouraging wider social change In recognising the intersections of different forms of prejudice the book provides an innovative contribution to these hate debates highlighting the complexities of creating separate strands of hate crime Providing a comprehensive understanding of the debates around inclusion of misogyny as a form of hate crime this ground breaking book will be of great interest to students scholars and activists interested in gender hate crime feminism criminology law policing and sociology Winter's Graces Susan Avery Stewart, 2025-07-30 Filled with unexpected good news about growing older Winter's Graces highlights eleven qualities that ripen with age including audacious authenticity creative ingenuity necessary fierceness self transcending generosity and a growing capacity to savor life and to ride its ups and downs with humor and grace Decades of research have established that the catastrophic conditions often associated with late life such as severe dementia and debilitating frailty are the exception not the rule Still the mistaken idea that aging equals devastating decline persists causing enormous and unnecessary suffering especially for women Drawing on decades of experience as a psychology professor and psychotherapist Susan Stewart PhD weaves together inspiring folk stories that illustrate the graces of winter and recent research that validates them along with a wealth of user friendly tools and practices for amplifying these graces and bringing them to life Written primarily for women over 50 seeking good news about growing older Winter's Graces offers adults of all ages a compelling vision of aging that celebrates its many gifts acknowledges its challenges and reveals how the last season of life can be the most fulfilling of all *Mapping the Edges and the In-between* Nancy Nyquist Potter, 2009-06-25 Borderline Personality Disorder BPD is a diagnosis given to ten percent of all those seen in outpatient mental health facilities and twenty percent of those seen in inpatient psychiatric units This is a significant number of people in the Western world Yet many of the core concepts and symptoms that underlie this diagnosis are questionable Many of the attitudes and actions of carers are based on assumptions about those with BPD that cry out for analysis with both cultural and gender norms interacting with clinical diagnosis and treatment to the detriment of both carers and patients This book considers how we diagnose BPD looking at the key constructs identity disturbance inappropriate or excessive anger unstable

relationships impulsivity self injurious behaviour and manipulativity It starts by looking at the cultural and gender assumptions and norms behind BPD drawing upon philosophical clinical anthropological and sociological literature Combining philosophical analysis with clinical experience and patients writings it clarifies the constructs so that the reader can understand the messiness and complexity that frames this diagnosis and treatment After examining the current state of these constructs and their effects on carer patient interactions Part II sees an application of virtue theory to therapeutic treatment with BPD patients It looks at three virtues that are particularly important for clinicians and other carers to cultivate when working with BPD patients trustworthiness the virtue of giving uptake and empathy It argues that in their absence not only are clinicians attitudes harmful to patients but that the status of the diagnosis is actually compromised Mapping the Edges and the In Between presents a compelling argument that Borderline Personality Disorder needs to be approached in a new light one that will benefit patients
