

Midwifery Care: Reflections of Midwifery Clients

Mary Ellen Doherty, PhD, RN, CNM

ABSTRACT

The purpose of this study was to describe the lived experience of midwifery clients throughout the life span. A qualitative study using a phenomenological approach was employed. In-depth interviews were conducted with a purposive sample of 12 midwifery clients. The research question was: What has been your experience with midwifery care? Interviews were audio-recorded and transcribed verbatim. Data saturation was achieved and analysis procedures from Colaizzi were used. Five themes emerged from the data: 1) decision to seek midwifery care; 2) working together in a therapeutic alliance; 3) formulating a birth plan; 4) childbirth education; and 5) nurse-midwives as primary health-care providers throughout the life span. There is much to learn from listening to the voices of midwifery clients.

According to historical accounts, as women gave birth, they always sought care and support from others. However, accounts dating back to the 2nd century confirm the role of midwives in the birthing process, with the Hebrew Bible containing numerous verses about midwifery, such as Genesis 35:17 and 38:28 and Exodus 1:15–22 (Wansborough, 1985). Furthermore, the mention of birth attendants can be traced to ancient Greek and Roman civilizations as well as in the writings of old Hindu traditions. Evidence of midwifery

has been told in myths, texts, and oral traditions. Thus, as a profession, midwifery claims a social role throughout history in all cultures.

Midwifery in today's health-care arena extends well beyond the childbearing season to include aspects of women's health care such as preconception care, perimenopausal and postmenopausal care, family planning and contraception, childbirth education, well-woman gynecology, and primary care throughout the life span. The midwifery model of care is client-focused and family-centered, embracing the holistic and humanistic principles of health maintenance, health promotion, client education, counseling, advocacy, and collaboration. Women from all walks of life use the services of nurse-midwives—from educated professionals to adolescents, midwifery clients represent the complete
