Reflections Perceptions:

Reflections and Replies Tyler Burge, 2003 Essays by various philosophers on the work of Tyler Burge and Burge's extensive responses **Knowing Persons** Lloyd P. Gerson, 2003-01-16 Knowing Persons is an original study of Plato's account of personhood For Plato embodied persons are images of a disembodied ideal The ideal person is a knower Hence the lives of embodied persons need to be understood according to Plato's metaphysics of imagery For Gerson Plato's account of embodied personhood is not accurately conflated with Cartesian dualism Plato's dualism is more appropriately seen in the contrast between the ideal disembodied person and the embodied one than in the contrast between mind or soul and body This study argues that Plato's analysis of personhood is intended to cohere with his two world metaphysics as well as a radical separation of knowledge and belief Gerson demonstrates that Plato's account of persons plays a key role not just in his theory of mind but in his theory of knowledge his metaphysics and his ethics A proper understanding of Plato's account of persons must therefore place it in the context of his doctrines in these areas Knowing Persons fills a significant gap by showing the way to such an understanding *Lectures on the Science of Human Life, with a Copious Index, and a Biographical Sketch of the Author* Sylvester Graham, 2025-07-14 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Lectures on the Science of Human Life.
