Reflective Teaching Kenneth M. Zeichner, Daniel P. Liston, 2013-05-13 This volume outlines the assumptions and beliefs that distinguish the concept of the reflective teacher from the view of the teacher as passive and a mere technician a view that teacher education programs and schools have historically promoted. The authors demonstrate how various conceptions of reflective teaching differ from one another. They believe that it is only through teachers' reflections on their own teaching that they become more skilled, more capable and in general better teachers. This is the first volume in the Reflective Teaching and the Social Conditions of Schooling series. The major goal of both this book and of all of the volumes to follow in this series is to help teachers explore and define their own positions with regard to the topics and issues at hand within the context of the aims of education in a democratic society. **Reflective Teaching** Andrew Pollard, Janet Collins, 2005-03-04 Reflective Teaching is the definitive textbook for reflective classroom professionalism. It offers support for trainee teachers, mentors, newly qualified teachers and for continuous professional development. This second edition has been revised and updated to enhance classroom use.
