Reform Of Civil Nuclear Liability Budapest Symposium 1999:

Reform of Civil Nuclear Liability OECD Nuclear Energy Agency, 2000 Proceedings of the International Symposium which reviewed nuclear liability and compensation issues in the context of the recent revision of the Vienna Convention on Civil Liability for Nuclear Damage the adoption of the Convention on Supplementary Compensation for Nuclear Damage and the current negotiations on the amendment of the Paris Convention on Third Party Liability in the Field of Nuclear Energy and the Brussels Supplementary Convention **Reform of civil nuclear liability** ,2000 *Reform of Civil Nuclear Liability* ,2000 **International Documents on Environmental Liability** Hannes Descamps, Robin Slabbinck, Hubert Bocken, 2008-05-26 International Documents on Environmental Liability brings together 30 official full text documents in the field of international environmental liability into an easily accessible practical handbook details the work of the International Law Commission on this topic and provides the latest versions of international liability conventions and their statuses including the latest on 1 2003 UNECE Kyiv Liability Protocol 2 2004 EC Directive on Environmental Liability 3 2005 Antarctica Liability Annex The authors combined capacity as an academic policy advisor and practitioner have helped bring forth a publication that reflects their experience of being involved in the development negotiations and implementation of environmental liability regimes at both an international and European level Research Handbook on International Environmental Law Malgosia Fitzmaurice, David M. Ong, Panos Merkouris, 2010 an impressive volume and the editors have put together a high quality collection Research Handbook on International Environmental Law ought to be an invaluable reference source for both teachers and students of international environmental law in the years to come Web Journal of Current Legal Issues This wide ranging and comprehensive Handbook examines recent developments in international environmental law IEL and the crossover effects of this expansion on other areas of international law such as trade law and the law of the sea The expert contributors offer analyses of foundational issues in IEL such as responsibility for environmental damage sustainable development and the precautionary principle alongside studies in topical subject areas including marine protection and the law of international watercourses This Research Handbook offers an in depth analysis of IEL both as a field of law in its own right and as part of the wider system of international law It gives a comprehensive view of IEL in all its forms and complexity With thorough examination of specific environmental regimes and compliance mechanisms this Handbook will be an indispensable resource for legal scholars students and practitioners alike **Nuclear Non-Proliferation in International Law - Volume III** Jonathan L. Black-Branch, Dieter Fleck, 2016-11-14 This third volume of the book series on Nuclear Non Proliferation in International Law focuses on the development and use of nuclear energy for peaceful purposes within a contemporary global context an interdependent characteristic of the Non Proliferation Treaty along with disarmament and non proliferation The scholarly contributions in this volume explore this interrelationship considering the role of nation States as well as international organizations such as the International Atomic Energy Agency

IAEA in monitoring and implementing the Treaty The 2015 Nuclear Accord with Iran and its implementation is also discussed highlighting relevant developments in this evolving area Overall the volume explores relevant issues ultimately presenting a number of suggestions for international cooperation in this sensitive field where political discussion often dominates over legal analysis The important tasks of limiting the proliferation of nuclear weapons ensuring the safety and security of peaceful uses of nuclear energy and achieving nuclear disarmament under strict and effective international control calls for the interpretation and application of international legal principles and rules in their relevant context a task that this book series endeavours to facilitate whilst presenting new information and evaluating current developments in this area of international law Jonathan L Black Branch is Dean of Law and Professor of International and Comparative Law at Robson Hall Faculty of Law University of Manitoba a Barrister at One Garden Court London a Magistrate in Oxfordshire a Justice of the Peace for England a Member of Wolfson College University of Oxford and Chair of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Member of the Advisory Board of the Amsterdam Center for International Law ACIL and Rapporteur of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Contemporary International Law **Environmental Damage in International and Comparative Law** Michael Bowman, Alan E. Boyle, 2002 This study considers the problems of defining and valuing environmental damage from the perspective of international and comparative law The need for a broad and systematic evaluation of this issue is illustrated by the number of topics presently on the international law making agenda to which it is relevant including the UN Compensation Commission's decisions on compensation for environmental losses suffered by Kuwait in the Gulf War nuclear and oil pollution liability regimes the development of an environmental liability protocol to the Antarctic Treaty and other agreements on bio safety and genetically modified organisms It is thus an important element in contemporary efforts to strengthen legal remedies for environmental harm which does not necessarily come within traditional categories of legally protected personal or property rights Nuclear Safety Gianni Petrangeli, 2006-05-30 Nuclear Safety provides the methods and data needed to evaluate and manage the safety of nuclear facilities and related processes using risk based safety analysis and provides readers with the techniques to assess the consequences of radioactive releases The book covers relevant international and regional safety criteria US IAEA EUR PUN URD INI The contents deal with each of the critical components of a nuclear plant and provide an analysis of the risks arising from a variety of sources including earthquakes tornadoes external impact and human factors It also deals with the safety of underground nuclear testing and the handling of radioactive waste Covers all plant components and potential sources of risk including human technical and natural factors Brings together information on nuclear safety for which the reader would previously have to consult many different and expensive sources Provides international design and safety criteria and an overview of regulatory regimes Emerging Risks in the 21st Century An Agenda for Action OECD, 2003-04-24 This book explores the implications of newly developing

risks such as hugely damaging hurricanes new diseases terrorist attacks and disruptions to critical infrastructures
