Gorman, 1993-05-30 This expert study shows how refugee aid and development enterprises should be linked in order to truly help the 16 million refugees today the tens of millions of displaced persons and the hundreds of millions affected by the presence of uprooted people Practitioners and scholars evaluate contemporary programs in Africa Central America and Asia They analyze current theories and policies governing refugee aid and development operations Students teachers and professionals concerned about growing welfare problems in the world will benefit from this overview and from the empirical and theoretical perspectives that are provided Reconceiving International Refugee Law James C. Hathaway, 2023-07-24 Violence and other human rights abuses continue to force desperate people to migrate in search of protection Yet because the political and economic reasons that induced an historical openness to the arrival of refugees have largely withered away there is no longer a guarantee that any state will be prepared to receive these involuntary migrants Governments of both North and South are withdrawing from the international legal duty to provide potentially indefinite protection to any and all refugees who arrive at their borders The challenge is to reconceive refugee protection in a way that is reconcilable with the legitimate concerns of modern states yet which does not sacrifice the critical right of at risk people to seek asylum The essays in Reconceiving International Refugee Law offer a response to the concerns of many states that refugee protection has become no more than a back door route to permanent immigration and that its costs are not fairly apportioned among states Drawing on the research of leading migration scholars from around the world and vetted through dialogue with senior officials and non governmental experts this volume explores the potential for a shift to a robust and empowering system of temporary asylum supported by a pragmatic system of guarantees to share both the costs and human responsibilities of refugee protection Refugees, Self-Reliance, Development Easton-Calabria, Evan, 2022-06-10 Evan Easton Calabria s critical history of refugee self reliance assistance brings new dimensions to refugee and international development studies The promotion of refugee self reliance is evident today yet its history remains largely unexplored with good practices and longstanding issues often missed Through archival and contemporary evidence this book documents a century of little known efforts to foster refugee self reliance including the economic political and social motives driving this assistance With five case studies from Greece Tanzania Pakistan Uganda and Egypt the book tracks refugee self reliance as a

malleable concept used to pursue ulterior interests It reshapes understandings of refugee self reliance and delivers important messages for contemporary policy making The first chapter is available Open Access under CC BY NC ND licence

Protection by Persuasion Alexander Betts, 2011-02-23 States located near crisis zones are most likely to see an influx of people fleeing from manmade disasters African states for instance are forced to accommodate and adjust to refugees more often than do European states far away from sites of upheaval Geography dictates that states least able to pay the costs associated with refugees are those most likely to have them cross their borders Therefore refugee protection has historically been characterized by a North South impasse While Southern states have had to open their borders to refugees fleeing conflict or human rights abuses in neighboring states Northern states have had little obligation or incentive to contribute to protecting refugees in the South In recent years however the Office of the United Nations High Commissioner for Refugees UNHCR has sought to foster greater international cooperation within the global refugee regime through special conferences at which Northern states are pushed to contribute to the costs of protection for refugees in the South These initiatives Alexander Betts finds in *Protection by Persuasion* can overcome the North South impasse and lead to significant cooperation Betts shows that Northern states will contribute to such efforts when they recognize a substantive relationship between refugee protection in the South and their own interests in such issues as security immigration and trade Highlighting the mechanisms through which UNHCR has been able to persuade Northern states that such links exist *Protection by Persuasion* makes clear that refugee protection is a global concern most effectively addressed when geographic realities are overridden by the perception of interdependence

[Palestinians in Lebanon](#) Rebecca Roberts, 2010-09-30 Palestinian refugees in Lebanon refer to themselves as the forgotten people Sixty years on tens of thousands still live in temporary shelters in overcrowded unsanitary camps where unemployment and poverty levels are high Denied basic human rights they are neglected by the humanitarian community ignored by the international media This pioneering book explores the experiences of the oldest and largest single refugee group in the world Drawing upon comprehensive research in the twelve official refugee camps in Lebanon the author examines the impact of protracted refugee status on the coping mechanisms developed by refugees She identifies the lessons to be learned from the refugee experience in Lebanon and the implications for other refugee groups in different parts of the world *Palestinians in Lebanon* provides a long overdue account of one of the most neglected refugee communities in the world
