Retour De L Urss:

Romain Rolland and the Politics of the intellectual Engagement David James Fisher, 1988 **The Conscience of Humankind** , 2021-11-22 The traumatic experiences of persecution and genocide have changed traditional views of literature The discussion of historical truth versus aesthetic autonomy takes an unexpected turn when confronted with the experiences of the victims of the Holocaust the Gulag Archipelago the Cultural Revolution Apartheid and other crimes against humanity The question is whether and if so to what extent literary imagination may depart from historical truth In general the first reactions to traumatic historical experiences are autobiographical statements written by witnesses of the events However the second and third generations the sons and daughters of the victims as well as of the victimizers tend to free themselves from this generic restriction and claim their own way of remembering the history of their parents and grandparents They explore their own limits of representation and feel free to use a variety of genres they turn to either realist or postmodernist ironic or grotesque modes of writing **French Political Travel Writing in the Interwar Years** Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity , *André Gide and the Second World War* Jocelyn Van Tuyl, 2012-02-01 Arguably the most influential French writer of the early twentieth century Andr Gide is a paradigmatic figure whose World War II writings offer an exemplary reflection of the challenges facing a leading writer in a time of national collapse Tracing Gide s circuitous intellectual itinerary from the fall of France through the postwar purge this book examines the ambiguous role of France s senior man of letters during the Second World War The writer s intricate

maneuverings offer privileged insights into three issues of broad significance the relationship of literature and politics in France during World War II the repressions and repositionings that continue to fuel controversy about the period and the role of public intellectuals in times of national crisis With the exception of the early wartime Journal Gide's publications during France's dark years have received little critical attention This book scrutinizes the entire wartime oeuvre in depth tracing the evolution of Gide's political views and most importantly reading the wartime texts against each other It is the interplay among these texts that reveals the full complexity of Gide's political positionings and the rhetorical brilliance he deployed to redress his tarnished image

Gide's Bent Michael Lucey, 1995-06-08 This study investigates the place of sexuality in the writings of Andre Gide Focusing on his work in the 1920s and 1930s the years in which Gide wrote most openly about his homosexuality the text shows how Gide's sexuality reflected his political interests

Andre Gide's Politics NA NA, 2016-04-30 At the peak of his career after having established himself as an accomplished writer astute moraliste and the foremost

spokesperson of his generation for personal freedom and self realization Gide became aware first that his particular brand of bourgeois individualism was becoming increasingly irrelevant in the contemporary world and second that social commitment and even revolution could serve as a powerful source of inspiration and self renewal Over a ten year period that began in the 1920s and ended with his public break with the Soviet Union in 1936 Gide the committed intellectual interacted with society in ways that were for him unprecedented These essays examine the outcomes of Gide s evolving commitment to a host of controversial issues ranging from the sexual to the political from the literary to the social *New Mecca, New Babylon* Robert Harold Johnston,1988 Three major waves of emigration from Soviet Russia followed the Bolshevik Revolution of 1917 and the Russian Civil War While emigrants in the first wave have been identified mainly with a vague notion of aristocratic taxi drivers Robert Johnston through a collective biography of the roughly 120 000 Russians who lived in France during 1920 45 in particular in Paris shows that this first wave of Russian emigrants made a much more significant contribution to French life and to western knowledge of Russia Paris was the capital of Russia Abroad the home of an emigre generation which included figures from every field of Russian culture and every point of the political compass Divided and diverse the community was bound together in the hope and expectation of the downfall of Bolshevism and a return to Mother Russia Members of the community believed that their mission in Paris was to preserve Russian culture language and liberty a task which required educating France and the West about the true dangers of Communism As their time away from Russia increased however the exiles found it difficult to preserve their organizations and customs and to resist the assimilation of French ways Gradually the original refugees died moved away or surrendered to French culture by 1951 only 35 000 Russian refugees remained in all of France The Russian exiles in Paris lived on the margins of history But though politically defeated their struggle to defend what they saw as worthwhile Russian values their efforts to survive and their contributions to the life of their country of refuge have something to say to a later age not least to their exiled grandchildren the current third wave of emigrants from the USSR Henry Poulaille and Proletarian Literature (1920-1939) Rosemary Chapman,2024-09-02

Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America's best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s Continually responding to an ever changing political and cultural panorama Copland kept a firm focus on both his private muse and the public he served No self absorbed recluse he was very much a public figure who devoted his career to building support systems to help composers function productively in America This book critiques Copland's work in these shifting contexts The topics include Copland's role in shaping an American school of modern dance his relationship with Leonard Bernstein his homosexuality especially as influenced by the writings of André Gide and explorations of cultural nationalism Copland's rich correspondence with the composer and critic Arthur Berger who helped set the parameters of Copland's reception is published here in its entirety edited by Wayne Shirley The contributors include Emily Abrams Paul Anderson Elliott Antokoletz Leon Botstein Martin Brody Elizabeth Crist Morris Dickstein Lynn Garafola Melissa de Graaf Neil Lerner Gail Levin Beth Levy Vivian Perlis Howard Pollack and Larry Starr **Cutting the Vines of the Past** Tamara Giles-Vernick, 2002 Cutting the Vines of the Past offers a novel argument African ways of seeing and interpreting their environments and past are not only critical to how historians write environmental history they also have important lessons for

policymakers and conservationists Tamara Giles Vernick demonstrates how various outsiders intervening in African land use practices have repeatedly met failure because of their inability or unwillingness to understand how Africans see their land and their pasts Giles Vernick takes as her focus the environmental and historical perceptions and knowledge of the Mpiemu people in the Central African Republic She argues that Mpiemu opposition to a modern environmental conservation project the Dzanga Ndoki National Park and the Dzanga Sangha Special Reserve derives from the people's interpretations of their past experiences with environmental interventions imposed by concessionary companies colonial officials other Africans Christian missionaries and the postcolonial state At the same time Mpiemu people associate these contemporary conservationists with the bosses and Christian missionaries of the colonial past viewing them as sources of jobs consumer goods and other support Giles Vernick's argument will interest conservationists and policymakers as well as environmental historians By examining Africans' environmental and historical ways of seeing and knowing and by revealing how these have changed Giles Vernick offers a fresh perspective on the writing of environmental history Malraux Olivier

Todd, 2007-12-18 Writer publisher war hero French government minister Andr Malraux was renowned as a Renaissance man of the twentieth century Now Olivier Todd author of the acclaimed biography Albert Camus gives us this life in which fact competes dramatically with his subject's previously little known mythomania We see the adventurous young Malraux move from 1920s literary Paris to colonial Cambodia Cochinchina and Spain in its civil war Todd charts the thrilling exploits that would inspire such novels as *Man's Fate* but just as fascinating he also traces Malraux's lifelong pattern of lies claiming friendship with Mao he was called to tutor Nixon despite having met the Great Helmsman only once a minor injury becomes in recollections a near mortal battlefield wound stories of heroism in the French Resistance omit to mention that Malraux joined up just a few weeks before the Allied landings With meticulous research Todd separates myth from reality to throw light on a brilliant con man who would become a national hero but he also lets us see Malraux's genuine achievements as both writer and man of action His real life and the one he embroidered come together in this superb biography to reveal how Malraux the protean genius became his own greatest character **French Intellectuals and Politics from the Dreyfus**
