Return To Isis:

Returning Islamist Foreign Fighters Elena Pokalova, 2019-10-24 This book examines the challenges foreign fighter returnees from Syria and Iraq pose to Western countries. A number of returnees have demonstrated that they are willing to use violence against their home countries and some have already staged terrorist attacks on Western soil on apparent orders from ISIS. Through the historical context of previous waves of mobilizations of Islamist foreign fighters, the author tracks the experiences of returnees from previous conflicts and discusses the major security challenges associated with them. The book analyzes the major approaches implemented by Western countries in response to foreign fighter returnees, discusses the prosecution of returnees and evaluates the corresponding challenges of prison radicalization.

Returning Home Helen Stenger, 2024-12-16 In March 2019, ISIS was territorially defeated. ISIS members were captured and detained: men were sent to prison and women and children to camps in northern Syria. This is an unprecedented situation where, for the first time, thousands of female members of a terrorist group are detained in a foreign country without access to legal mechanisms, rehabilitation or reintegration measures. What happens to the foreign women and children who are not repatriated from the camps? If they are repatriated, are there rehabilitation and reintegration programmes in place that account for the experiences the women had? Most existing rehabilitation and reintegration programmes are gender neutral; that is, they claim to be universal and are not tailored specifically to male or female beneficiaries. Yet typically these programmes are influenced by implicit gender norms and assumptions such as that men are violent perpetrators of aggression and women are victims who are peaceful and lack agency. Alongside gender norms, intersecting racial and religious dynamics also shape how governments handle the repatriation, rehabilitation and reintegration of ISIS returnees. This includes racial profiling, the conflation between Islam and extremism, and more broadly the rising Islamophobia in many countries, particularly since the War on Terror. These dynamics lead to an absence of rehabilitation and reintegration programmes specifically designed for women's diverse experiences, which is the subject of this book. *Returning Home* examines state responses to repatriation, rehabilitation and reintegration of ISIS returnees from an intersectional perspective, with a focus on ISIS women returnees. This book addresses the biased understandings that are built into scholarship and policy responses that reinforce gendered and racialized inequalities. It outlines how these dynamics can be uncovered and redressed by designing policies that are responsive to gender differences, inequalities and harmful norms.

Returning Foreign Fighters: Responses, Legal Challenges and Ways Forward Francesca Capone, Christophe Paulussen, Rebecca Mignot-Mahdavi, 2023-03-24 This book is a follow-up publication to the 2016 volume *Foreign Fighters under International Law and Beyond*, which zooms in on the responses that the international community and individual States are implementing in response to prospective and actual returning foreign fighters (FFs) and their families, focusing on returnees from Syria and Iraq to European countries. As States and international organisations are still learning by doing, the role of the academic community is to help steer the process by

bridging the divide between international standards and their implementation at the national level and between security concerns and human rights law Furthermore the academic community can and should assist in identifying ways forward that are both effective sustainable and international law compliant Those are ultimately the goals that the present volume seeks to pursue The observations recommendations and warnings included in this book will be useful in future debates on returning FFs both in the academic world and in the world of policy makers and practitioners as well as to the public at large

Francesca Capone is Associate Professor of International Law at the Istituto DIRPOLIS of the Scuola Superiore Sant Anna in Pisa Italy Christophe Paulussen is Senior Researcher International Law at the T M C Asser Instituut in The Hague The Netherlands Rebecca Mignot Mahdavi is Lecturer in International Law at the Manchester International Law Centre University of Manchester School of Law in Manchester United Kingdom

Intolerant Justice Asif Efrat, 2023 The idea of facing a court in a foreign country would typically cause serious doubt about whether the foreign legal process and its outcome would be fair *Intolerant Justice* examines the political implications of those doubts regarding foreign justice and how they might hinder international cooperation among national legal systems Should we allow our troops to stand trial in foreign courts Should we extradite offenders to countries with a poor human rights record Should we enforce rulings issued by foreign judges This book examines the domestic political controversies over these sensitive legal questions *FHWA News*, 2006

Mosul under ISIS Mathilde Becker Aarseth, 2021-07-29 The Islamic State of Iraq and Syria ISIS ruled Mosul from 2014 2017 in accordance with its extremist interpretation of sharia But beyond what is known about ISIS governance in the city from the group s own materials very little is understood about the reality of its rule or reasons for its failure from those who actually lived under it This book reveals what was going on inside ISIS institutions based on accounts from the civilians themselves Focusing on ISIS governance of education healthcare and policing the interviewees include teachers who were forced to teach the group s new curriculum professors who organized secret classes in private doctors who took direct orders from ISIS leaders and worked in their headquarters bureaucratic staff who worked for ISIS These accounts provide unique insight into the lived realities in the controlled territories and reveal how the terrorist group balanced their commitment to Islamist ideology with the practical challenges of state building Moving beyond the simplistic dichotomy of civilians as either passive victims or ISIS supporters Mathilde Becker Aarseth highlights here those people who actively resisted or affected the way in which ISIS ruled The book invites readers to understand civilians complex relationship to the extremist group in the context of fragmented state power and a city torn apart by the occupation

The Rise of Islamic State Patrick Cockburn, 2015-02-03 Born of the Iraqi and Syrian civil wars the Islamic State astonished the world in 2014 by creating a powerful new force in the Middle East By combining religious fanaticism and military prowess the new self declared caliphate poses a threat to the political status quo of the whole region In *The Rise of Islamic State* Patrick Cockburn describes the conflicts behind a dramatic unraveling of US foreign policy He shows how the West created the

conditions for ISIS's explosive success by stoking the war in Syria. The West, the US and NATO in particular underestimated the militants' potential until it was too late and failed to act against jihadi sponsors in Saudi Arabia, Turkey and Pakistan.

Return of ISIS in Iraq, Syria, and the Middle East Anthony H. Cordesman, 2022 **NoNonsense ISIS and Syria** Phyllis Bennis, 2018-02-22 New Age Magazine, 1913 *Cases, Materials, and Commentary on the European Convention on Human Rights* Alastair Mowbray, 2012-03-29 This edition provides students with an invaluable guide to the key jurisprudence of the European Court as well as essential background on the creation of the Convention *Religicide* Georgette F. Bennett, Jerry White, 2022-11-22 A brave and timely proposal to name, investigate and ultimately stop a new crime: the mass murder of millions of people for their faith. Religion-related violence is the fastest spreading type of violence worldwide. Attacks on religious minorities follow a clear pattern and are preceded with early warning signs. Until now such violence had no name, let alone a set of policies designed to identify and prevent it. A unique attempt to create a new moral and legal category alongside other forms of persecution and mass murder. *Religicide* explores the roots of atrocities such as the Armenian Genocide, the Holocaust, the Bosnian war and other human rights catastrophes. The authors tap into their decades of activism, interreligious engagement and people-to-people diplomacy to delve into a gripping examination of contemporary religious violence: the Yazidis in Iraq, the Rohingya in Myanmar, Uyghur Muslims and Tibetan Buddhists in China and the centuries-long efforts to wipe out Indigenous Americans. Yet even in the face of these horrific atrocities, the authors resist despair. They amplify the voices of survivors and offer a blueprint for action, calling on government, business, civil society and religious leaders to join in a global campaign to protect religious minorities. World History Philip Parker, 2017-10-03 Take a trip through the defining moments of our global story and see the thinkers, leaders, ideas and inventions that have shaped the world. Presented in a beautiful slipcase, *World History* is an essential guide for anyone who loves history or wants to broaden their knowledge. This accessible book covers over 350 of the world's most important turning points from our earliest human ancestors of prehistory to political events of the modern world. Follow detailed maps showing the continuous movement of humans across the Earth and examine fascinating paintings illustrating the events and individuals that took them there. Beautiful photography throughout the book will carry you back in time to see the people and places of the stories along with stunning artifacts from every historical period. From magnificent buildings like the Colosseum to magnificent words like I have a dream, this guide brings history's most significant events to life for every reader to discover and enjoy.
