Reuters' Century 1851-1951 Graham Storey, 1955 Reuters' Century, 1851-1951, Etc. [With Plates.]. Graham STOREY, 1951 **Reuters Century 1851 1951 - Primary Source Edition** Graham Storey, Reader in English Literature and Fellow of Trinity Hall Graham Storey, 2013-10 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book **Reuters' century** Graham Storey, 1951 **Towards a Modern Iran** Elie Kedourie, Sylvia G. Haim, 2013-12-19 First Published in 1980 The events which took place in Iran during the time of original publication took the world by surprise A little reflection however will suggest that they were not inexplicable prodigies They constitute rather a manifestation albeit sudden and astonishing of a social intellectual and political crisis in the throes of which Iran has found itself The eleven studies included in this book are devoted to the examination of one or other aspect of this crisis and aim to clarify the origins and character of the crisis **The Nation's Newsbrokers: The rush to institution, from 1865 to 1920** Richard Allen Schwarzlose, 1989 Richard A Schwarzlose's long awaited two volume The Nation's Newsbrokers makes a major contribution to the history of journalism in the United States Schwarzlose traces the development of the Associated Press and the predecessors of United Press International from scattered beginnings in the 1840s to their emergence as a mature national institution in the World War I era Volume 2 studies the rapid growth of intercity news gathering and distribution after the Civil War including the deterioration into collusion among newsbrokers and changes in technology and reporting within the context of attempts to monopolize the flow of information **Dead Men's Propaganda** Terhi Rantanen, 2024-05-07 In *Dead Men's Propaganda Ideology and Utopia in Comparative Communications Studies* Terhi Rantanen investigates the shaping of early comparative communications research between the 1920s and 1950s notably the work of academics and men of practice in the United States Often neglected this intellectual thread is highly relevant to understanding the 21st century's challenges of war and rival streams of propaganda Borrowing her conceptual lenses from Karl Mannheim and Robert Merton Rantanen draws on detailed archival research and case studies to analyse the extent and importance of work outside and inside the academy illuminating the work of pioneers in the field Some of these were well known academics such as Harold Lasswell and the authors of the seminal book *Four Theories of the Press* Others operated in the world of news agencies such as Associated Press's Kent Cooper or were marginalised as migrant scholars notably Paul Kecskemeti and Nathan Leites Her study shows how comparative communications from its very beginning can be understood as governed by the Mannheimian concepts of ideology and utopia and the power play between them The close relationship

between these two concepts resulted in a bias in knowledge production contributed to dominant narratives of generational conflicts and to the demarcation of Insiders and Outsiders By focusing on a generation at the forefront of comparative communications at this pivotal time in the 20th century this book challenges orthodoxies in the intellectual histories of communication studies

Breach of Confidence Megan Richardson, Michael Bryan, Martin Vranken, Katy Barnett, 2012-01-01 The authors of this important book have done a great service to our understanding of this fascinating area of law Their shrewd and scholarly study traces the development and myriad reinventions of this protean doctrine from its eighteenth century origins through to its most recent manifestation as a private facts tort in English law enriching legal analysis with consideration of the philosophical social and economic contexts Common law privacy scholars in particular will find that this book directly illuminates contemporary debates Gavin Phillipson University of Durham UK The authors breathe new life into this complex recondite branch of the law An illuminating and penetrating study of an ancient remedy whose importance endures and even increases Raymond Wacks University of Hong Kong This concise yet detailed book explores the historical foundations and modern developments of the ancient doctrine of breach of confidence The authors show that despite its humble beginnings stilted development and air of quaintness the doctrine has modern relevance and influence its sense of trust and confidence still resonating with the information society of today Topical chapters include Inventing an equitable doctrine Privacy and publicity in early Victorian Britain Searching for balance in the employment relationship as well as many others Breach of Confidence will make insightful reading for all those interested in issues of privacy and information and will appeal strongly to practicing lawyers and judges as well as academic researchers and postgraduate law students

Secret Warriors Taylor Downing, 2015-04-15 World War I is often viewed as a war fought by armies of millions living and fighting in trenches aided by brutal machinery that cost the lives of many But behind all of this an intellectual war was also being fought between engineers chemists code breakers physicists doctors mathematicians and intelligence gatherers This hidden war was to make a positive and lasting contribution to how war was conducted on land at sea and in the air and most importantly life at home Secret Warriors provides an invaluable and fresh history of the World War I profiling a number of the key incidents and figures which lead to great leaps forward for the twentieth Century Told in a lively and colorful narrative style Secret Warriors reveals the unknown side of this tragic conflict

The British Press and the Greek Crisis, 1943-1949 Gioula Koutsopanagou, 2020-02-01 This book provides the first detailed analysis of how interactions between government policy and Fleet Street affected the political coverage of the Greek civil war one of the first major confrontations of the Cold War During this period the exponential growth of media influence was an immensely potent weapon of psychological warfare Throughout the 1940s the press maintained its position as the most powerful medium and its influence remained unchallenged The documentary record shows that a British media consensus was more fabricated than spontaneous and the tools of media persuasion and manipulation were extremely important in building acceptance for British

foreign policy Gioula Koutsopanagou examines how this media consensus was influenced and molded by the British government and how Foreign Office channels were key to molding public attitudes to British foreign policy These channels included system of briefings given by the News Department to the diplomatic correspondents and the contacts between embassies and the British foreign correspondents

Night Raid Taylor Downing, 2013-05-09 The loss of British bombers over Occupied Europe began to reach alarming levels in 1941 Could it be that the Germans were using a sophisticated form of radar to direct their night fighters and anti aircraft guns at the British bombers British aerial reconnaissance discovered what seemed to be a rotating radar tower on a clifftop at Bruneval near Le Havre The truth must be revealed The decision was taken to launch a daring raid on the Bruneval site to try and capture the technology for further examination The planned airborne assault would be extremely risky The parachute regiment had only been formed a year before on Churchill's insistence This night raid would test the men to the extreme limits of their abilities Night Raid tells the gripping tale of this mission from the planning stages to the failed rehearsals when the odds seemed stacked against them to the night of the raid itself and the scientific secrets that were discovered thanks to the paras precious cargo the German radar Its capture was of immense importance in the next stages of the war and the mission itself marked the birth of the legend of the Red Devils

The Projection of Britain Philip M. Taylor, 1981-09-17 This book traces the origins and early development of what are today loosely termed Britain's Overseas Information Services It examines how at the end of the First World War the British government came to forfeit the considerable lead it had established in propaganda since 1914 and the reasons why it had gradually to re enter the field during the inter war years as a direct response to totalitarianism It surveys the pioneering work of the Foreign Office News Department and its important press office the commercial propaganda conducted by the Empire Marketing Board and the Travel Association the foundation and rapid peacetime growth of the British Council to conduct cultural diplomacy and the beginning of the BBC's World Service with the inauguration of foreign language broadcasts in 1938

Time, Literature, and Cartography After the Spatial Turn Adam Barrows, 2016-06-01 Time Literature and Cartography after the Spatial Turn argues that the spatial turn in literary studies has the unexplored potential to reinvigorate the ways in which we understand time in literature Drawing on new readings of time in a range of literary narratives including Vladimir Nabokov's *Invitation of a Spring* and James Joyce's *Finnegans Wake* Adam Barrows explores literature's ability to cartographically represent the dense and tangled rhythmic processes that constitute lived spaces Applying the insights of ecological resilience studies as well as Henri Lefebvre's late work on rhythm to literary representations of time this book offers a sustained examination of literature's chronometric imaginary its capacity to map the temporal relationships between the human and the non human the local and the global
