Revaluation Of Womens Work:

The Revaluation of Women's Work Sheila Lewenhak, 2013-11-05 This book provides a survey and analysis of the different ways in which women's work is valued throughout the world. It challenges the narrow definition of work as paid work as that excludes so many of women's activities. It looks at ways in which women's worth has been consistently undervalued in industrial as well as non industrial countries in socialist as well as free enterprise economies. These practices distort the national product of countries heavily dependent on women's labour but above all they are among the most obvious marks of the exploitation of women. Technological changes are already altering established female male divisions of labour. Transnational enterprises often located in Special Economic Zones are reducing differences between industrial and nonindustrial countries. Valuing women's work correctly whether unpaid in the home or underpaid outside it is part of the battle against discrimination and poverty. Men who do similar work also benefit. It is the crucial step towards the achievement of male female equality. The book will be particularly valuable for those concerned with the issues in trade unions women's groups international agencies and NGOs and for course in economics and social studies.

Working for Women? Celia Briar, 2020-03-09. Originally published in 1997, *Working for Women* examines the ways in which women's patterns of paid and unpaid work have been mediated by the policies of governments throughout the 20th century. This book will appeal to academics of sociology, gender, and women's studies. **Feminization of the Clergy in America**

Paula D. Nesbitt, 1997-04-24. Feminization is said to occur when women enter any given occupation in substantial numbers and ostensibly leads to such dynamics as sex segregation, reduced opportunities for men, and depressed wages and diminished prestige for the occupation as a whole. Spanning more than 70 years, Paula Nesbitt's study of feminization concentrates on the Episcopal Church and the Unitarian Universalist Association, utilizing both statistical results and interviews to compare occupational patterns prior and subsequent to the large influx of women clergy. Among her findings, the author discovers that a decline in men's opportunities is evident before the 1970s, preceding the great influx of women over the last two decades. She also finds that increases in the number of women ordained reduced occupational prospects for other women but enhanced those for men, thus contradicting the popular myth that women in the workplace are responsible for occupational decline. **Women's Labour Activism in Eastern Europe and Beyond** Selin Çağatay, Mátyás

Erdélyi, Alexandra Ghiț, Olga Gnydiuk, Veronika Helfert, Ivelina Masheva, Zhanna Popova, Jelena Tešija, Eszter Varsa, Susan Zimmermann, 2025-08-26. The authors follow women aligned with a wide range of political persuasions, highlighting unexpected elements and continuities of women's labour activism. Women's activities are seen in the workplace in the everyday, within and across social movements and organizations, and inside the state. They are presented through a framing that spotlights

long term developments and bridges the divide between the literatures on gendered labour politics and activism in state socialist and capitalist societies The authors examine activism unfolding in the region and the role of activists from the region within international women s labour and inter state organizations Moving women s labour activism from the margins of labour gender and European history to the centre of historical study the volume makes an innovative contribution to the new global histories of labour and gender Women and Work Susan Bullock,1994 Extrait de la couverture All around the world women work Yet the work they do has always been and continues to be considered as less important than that performed by men In many cases women s activities are not even acknowledged as work Not only do women encounter more obstacles than men in education and training but they are over represented amongst the lowest paid part time workforce enjoying few employment rights Recognition of this has led to adoption of measures over the past two decades to eliminate gender discrimination and to promote equality of opportunity and treatment for women workers Thos book is a contribution to the efforts being made mainly by women themselves to ensure that these initiatives are implemented The author draws together research on gender work and development and emphasises that the concept of work should include not only paid labour but all of those activities which contribute to production and development *Women, Employment and Exclusion* Caroline Sweetman,1996-01-01 This text compares the effectiveness of approaches in aiding poverty reduction The provision of credit and other financial services has become seen as the answer to the problem facing poor people It emphasizes the importance of studying the local context and then considering macro economic factors which may be operating upon the economy
