Revolution unending : Afghanistan: 1979 to the present Gilles Dorronsoro,2005

**Revolution Unending** Gilles

Dorronsoro,2005-03-02 Having traveled and researched in Afghanistan since 1988 Gilles Dorronsoro has developed a rich and nuanced understanding of the country s history and people In *Revolution Unending* he draws on his extensive firsthand experience to consider the political historical economic and ethnic factors that will influence Afghanistan s future He argues that U S optimism about Afghanistan following Western intervention and recent elections fails to appreciate the divisions that continue to define the country While not underestimating the oft cited ethnic factor in Afghan politics especially Pashtun dominance Dorronsoro argues that class and the competition for employment and education are key factors in explaining the country s recent past The 1990s saw the triumph of religious authorities the ulema and the marginalization of the traditional elites With coalition intervention in 2001 and the subsequent deposition of the ulema dominated Taliban the educated elites are back in power However as Dorronsoro argues patching up the country by means of short term ethnic alliances and a new division of the spoils will only perpetuate the schisms in society The Afghan civil war Dorronsoro suggests is set to continue and perhaps worsen over time

*Institutional Supports for the International Rule of Law* Charles Sampford,Ramesh Thakur,2014-08-27 The rule of law is widely seen as the cornerstone of any effective polity and increasingly a vital component of the international political system If the international rule of law were to be strengthened it would greatly contribute to trade security human rights and global cooperation in a range of fields Yet in many areas the rule of law seems almost absent in international affairs This book explores the institutions that support the effectiveness of the rule of law domestically It focuses on the extent to which similar institutions already exist at international level and analyses the possibility of their further development The authors speculate on how the international rule of law might be advanced in the future thereby suggesting potential strategies for strengthening the international rule of law Adopting an interdisciplinary approach and combining the fields of international relations politics and law this book covers a range institutions including UN Security Council International Court of Justice Human rights machinery Regional human rights International Criminal Court World Trade Organization International Tribunal for the Law of the Sea UN Department of Peacekeeping Operations It will be of strong interest to students and

vital socio political resource in modern Afghanistan Even as it has been deployed as the national cement of a multi ethnic Emirate and then Islamic Republic Islam has been no less a destabilizing force in dividing Afghan society Yet despite the universal scholarly recognition of the centrality of Islam to Afghan history its developmental trajectories have received relatively little sustained attention outside monographs and essays devoted to particular moments or movements To help develop a more comprehensive comparative and developmental picture of Afghanistan s Islam from the eighth century to the present this edited volume brings together specialists on different periods regions and languages Each chapter forms a case study snapshot of the Islamic beliefs practices institutions and authorities of a particular time and place in Afghanistan

**Alliance Formation in Civil Wars** Fotini Christia, 2012-11-12 Some of the most brutal and long lasting civil wars of our time involve the rapid formation and disintegration of alliances among warring groups as well as fractionalization within them It would be natural to suppose that warring groups form alliances based on shared identity considerations such as Christian groups allying with Christian groups but this is not what we see Two groups that identify themselves as bitter foes one day on the basis of some identity narrative might be allies the next day and vice versa Nor is any group however homogeneous safe from internal fractionalization Rather looking closely at the civil wars in Afghanistan and Bosnia and testing against the broader universe of fifty three cases of multiparty civil wars Fotini Christia finds that the relative power distribution between and within

various warring groups is the primary driving force behind alliance formation alliance changes group splits and internal group takeovers
